OUR REF. 7/180.

YOUR REF. ....

Dear Sir.

In reply to your favour of 1st inst., we have pleasure in sending you 2 copies of our descriptive catalogue that the Garden and hope they will be of service to you.

Yours truly,

ERMENTINETE ETERMENT LIGILA METERIA PER MARIE ETERMENTE RECERTOR DE LA CONTRACTOR DE L'ARRESTATION DE L'ARRESTATION DE L'ARRESTATION DE L'ARRESTATION DE L'ARRESTATION na de la companya de

Seedsmen by Royal Warrant to Ibis Majesty the King.

It has been our privilege for many years to hold the Royal Warrant of Appointment to His Majesty the King, and we have had the honour of regularly supplying His Majesty's Establishments at Windsor Castle, Buckingham Palace, and Sandringham.

Our Trade Marks.—One of the two registered devices in the margin has been for several years affixed to every packet of seeds distributed by us. They are both simple and sufficiently distinct to protect everyone desirons of obtaining "Carters Tested Seeds" as supplied in sealed packages. It is not enough to be told that "these seeds

came from Carters": our name and one of our trade marks must be on the packet, or we cannot guarantee that they emanate from our establishment.

This is the 84th year of our establishment, and we take the opportunity to tender respectful acknowledgments for past favours; and we beg to solicit a renewal of confidence, to merit which our best personal attention shall, as heretofore, be devoted.

Sames Carter & Co

# OUR TRADE MARK-

THE prominence we have given to our Trade Mark "Tested Seeds" over so long a period has repeatedly given rise to the question, "What do you mean by Tested Seeds?" Believing that the raising, growing, testing, &c., of Seeds will be a matter of interest to our Customers, we take this opportunity of giving an explanation of some of the methods that were employed leading up to the introduction to the gardening world of such well-known Peas as Telephone, Stratagem, Daisy, Michaelmas, Mayflower, Harvestman, International, Quite Content, Market Gardeners, Giant Lightning, &c., &c., a process which frequently involves seven to eight years of patient observation and labour before a new jutroduction can be placed with confidence before the attention of our Customers.

We have selected culinary Peas as our illustration because they are more easily identified, but analogous methods have to be pursued in the improvement of all varieties of Vegetables and Flowers, a work which we have made—and still continue to make a special feature of our business. Indeed, it is now a matter of history that our House has been responsible for some of the most important improve-

ments in Vegetables and Flowers far too numerous to mention here.

Let us assume that one of our Experts has observed a promising seedling, produced from cross-fertilisation the previous year in our experimental grounds; its merits and characteristics are carefully noted in our Garden Registers. Possibly it may produce an extraordinarily large pod, like QUITE CONTENT, or it may be earlier, later, taller, more prolific and compact, &c., than any other variety shown in our comparative trials to be in commerce.

The produce of the plant is then carefully harvested and sown the following spring, when it again goes through the same rontine, maybe for six or seven years, to secure constancy and fixation of its special characteristics; the produce by this time may have increased to several bushels, when it is ready to be sown for a crop. Ground that is particularly suited to the variety is carefully selected, and the Seed is sown. In the early summer, when the plants are in maturity, our Experts, who have watched the character of the Pea ever since it was a seedling in our experimental grounds, examine every plant, eliminating any

and South Western Railway Main Line. The New Buildings completed during 1919 are to the rear of above,

## CARTERS TESTED SEEDS.

that show a weakness or lack of uniformity; the crop is then harvested, stacked, and threshed, and eventually comes to our warehouse to be cleaned, hand-picked, and finally tested for germination. The subsequent processes of testing, &c., we have had pleasure in illustrating with notes in previous issues of our catalogue.

A view of some of our seventy-five Cleaning and Pea-picking Machines, all driven by electric motors, has also been given.

Number 10 is familiarly called in our warehouse the "Dreadnought," and stands sixteen feet in height.

No weed, however nimble, or light seed can possibly escape its vigilance; it is fed by an electric elevator, and its duties are exacting.

In the first instance the seed travels into a large drum at the top of the machine and is brushed by rapidly revolving specialty prepared lambs' skins, all small portions of husk and earth that may adhere to the seeds at the time of harvesting being removed. The seed then descends by gravitation (when all dirt, dust, and light seeds are drawn away by forced draught) on to sieves which, by an eccentric movement take out all the "smalls." The whole combination

is driven by a powerful electric motor, which also gathers the dust from and around the machine by suction, ready to be carted away and destroyed.

The Peas are now cleaned and graded, but some are stained or injured by inclement weather or by the attacks of insects, which probably weaken their germination; these must be picked out by hand.

The founder of our firm, JAMES CARTER, was, we believe, the first to guarantee the germination of his Garden Seeds eighty-four years ago; the practice as amplified in our illustrations is still conducted annually by our Firm.

All Vegetables, Flowers, and Farm Seeds, are grown at the same time as our Customers grow them, to full maturity, so that we may assure ourselves of the quality and trueness of each variety. By examining our trials from time to time we know exactly how the produce of our Seeds should appear in the gardens and farms of our Customers all over the World, making allowances for the various climates, and by the aid of our comparative tests (we try all Seeds of repute) we assure ourselves that our Customers are growing "the best and only the best " and "Tested."

#### THREE GOLD MEDALS, 1920.

26,000 Rows of Vegetables and Flowers,

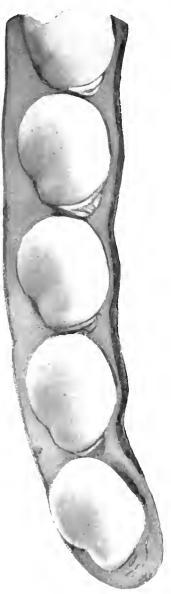

Royal Horticultural Society, Richmond Horticultural Society, Bournemouth Horticultural Society, FOR VEGETABLES AND FLOWERS.

No. 59 Carters Mammoth Windsor Broad Bean,

No. 40 Carters Leviathan Broad Bean, White Seeded.

No. 65 Carters Green Leviathan Broad Bean.

# BROAD BEANS. Packed in 6d. 1/- and 1/6 packets

and in other quantities.

Please see complete List opposite.

### BROAD BEANS.

FRENCH-Fèves de Marais.

The Cultivation of Broad Beans,—Early Mazagan and Dwarf Fan Beans may be planted in November, and a second sowing made in February, the rows being about 15 in, apart; to be followed by the Loug-Podded and Windsor varieties to secure a succession. The later sorts should be about 6 in, from plant to plant, and 3 ft, from row to row. This crop succeeds best on deep rich soil in an exposed position. On light and dry soils it generally gets attacked by the black blight and spoils. When the points suffer from this pest it becomes imperative to pinch them out and burn them.

### LONGPOD VARIETIES-WHITE-SEEDED.

40 Leviathan, Carters.—A champion Exhibition variety. We continue to re-select this well-known Broad Beau, the seeds being carefully selected from the finest pods taken from the most prollife plants, so that our enstoners may feel that they are growing really the very fluest Broad Bean in cultivation. It cannot be excelled for table or exhibition. M5 First Prizes reported by customers in two sensons. Exhibited with Carters Vegetables at Cardiff, 1914, and awarded the Gold Medal.

"In the matter of carliness and continuous bearing it certainly outclassed its rivals, commencing to yield pods large enough for cooking early in July, and it was from the same row we picked our latest dish on August 10th. I feel sure a trial of this variety will not full to give satisfactory returns."—F.R.C., in The Gardener. (See Pholograph.)

Per \( \frac{1}{2}\)-pint, 1/2; per pint, 2/-; per quart, 3/6

42 Mammoth Longpod, Carters.-A decided improvement upon the Early Longbod, Sent ont originally by us, and awarded the First Class Certificate of the Royal Horticultural Society, Per 2-pint, -/10; per pint, 1/6; per quart, 2/9

44 Aquadulce Longpod.—Early and long-podded.

Per ½-pint, -/10; per pint, 1/6; per quart, 2/9

- 43 **Broad Bean, Carters.**—Selected for length of pod and productiveness.

  Per ½-pint, ±/8; per pint, 1/3; per quart, 2/3
- 49 **Early Longpod.**—Robust habit; pods well.
  Per ½-pint, -/8; per pint, 1/3; per quart, 2/3

50 Early Mazagan.—One of the earliest; small pods. Per  $\frac{1}{2}$ -pint, -/8; per pint, 1/3; per quart, 2/3

- 46 Minster Giant Longpod. An old favourite, of good limbit and appearance. Per ½-pint, -/8; per pint, 1/3; per quart, 2/3
- 48 Royal Dwarf Fan or Cluster-headed.—Early, dwarf, and good flavour. Per ½-pint, -/10; per pint, 1/6; per quart, 2/9
- 41 Seville Giant Longpod.—Distinct and handsome, 48 in. high, with pods often 12 in. in length. First Class Certificate, Per  $\frac{1}{2}$ -pint, -/10; per pint, 1/6; per quart, 2/9

#### LONGPOD VARIETIES—GREEN-SEEDED.

65 Green Leviathan, Carters.-We introduced this fine Bean as a fitting companion to its prototype, Carters Leviathan (While seeded). When we state that this Bean carries pods of equally chormous proportions, and has the additional advantage equally chormous proportions, and has the additional advantage of a beautiful green colour, its merits will be at once recognised. Its flavour is most mellow and delicions. The Royal Horticultural Society, reporting its trials at Wisley, says:—"Pods of great length, and one of the best of the long pod section; good crop." Included in our Gold Medal Exhibit of Vegetables at Eastbourne, 1914, and 34 First Prizes awarded to our customers the same year.

Per ½-pint, 1/2; per pint, 2/-; per quart, 3/6 67 Masterpiece Longpod, Carters.—An exhibition Green Longpod Bean. It combines all the best properties of a first-class Broad Bean, and possesses the line quality and flavour of the Green over the White Bean. It is most prolifie, a great part of the pods hanging in pairs. Per 3-pint, -/10; per pint, 1/6; per quart, 2/9

- 68 Beck's Dwarf Green Gem.—Harly and prolific. Per ½-pint, -/10; per pint, 1/6; per quart, 2/9
- 71 **Green Longpod.**—Large podded and productive. Per ½-pint, ~/8; per pint, 1/3; per quart, 2/3

#### WINDSOR VARIETIES—WHITE-SEEDED.

- 59 Mammoth Windsor, Carters.—The longest podded Windsor Beam in existence, and the finest for exhibition. The pods of this superb strain often contain as many as five and six gigantic beans. A grand selection. Per  $\frac{1}{2}$ -pint, -/10; per pint, 1/6; per quart, 2/9
- 58 Market Garden Windsor, Carters. Very superior to the ordinary type, having a white eye, which makes it a great acquisition, giving it a much nieer appearance when cooked than the ordinary varieties. The eye retains its white colour to the the ordinary varieties. The eve retains its write color to use the ordinary varieties.

  Per ½-pint, -/10; per pint, 1/6; per quart, 2/9
- 56 New Colossal Windsor, Carters.—This immense Bean is, both in pod and seed, by far the largest Broad Beam ever raised. It was selected at our testing grounds, being the result of a cross made in 1905 between the old-fashioned Harlington Windsor and Carlers Levialhan, and is a certain prize-winner. The seed is of abnormal size.
  - "I have had a splendid crop of your Colossal Bean this year. The pods and beans were immense."—J. HARTLEY, Gardener to P. Henderson, Esq. Per 4-pint, 1/2; per pint, 2/-; per quart, 3/3
- 57 Improved Windsor, Carters.—Large and productive, bushy habit, well podded from top to bottom of stem.

  Per ½ pint, -/8; per pint, 1/3; per quart, 2/3

### WINDSOR VARIETIES-GREEN-SEEDED.

66 Harlington Green Windsor, Carters.-A distinct and valuable Green selection from an old favourite variety. These Green Beans are preferred by many on account of their colour when sent to table. Per ½-pint, -/10; per pint, 1/6; per quart, 2/9 70 Green Windsor. Large Beans, of fine colonr. Per 2-pint, -/10; per pint, 1/6; per quart, 2/9

and in other quantities as above. .....

#### QUITE CONTENT.

28th September, 1920.

28th September, 1920,
Quite Content Pea. I had a small patch in my garden, and to my surprise I found, on one stem only, three peas mensuring mine
inches exact, and well filled. I cantioned all not to touch that pea, as I intended when fully ripe to send up the three peasthey were such a curiosity, but to my horror one morning I went down and found boys had broken into my garden to steal the
apples, and I suppose the large peas caught their eye, as they also had disappeared. You can imagine how I felt. I showed them
to several gardeners, and they could not believe they were peas until they had examined them.
"Well, our show went off very well. I carried off 24 prizes—18 firsts, five seconds, and one third, all from Carters Seed. I had
magnificent Sweet Peas. Lord Ashdown got heaps of prizes also with your seeds. Yours sincerely, (Signed) P. L. C. HARPER."

" 19th October, 1920.

" 20th October, 1920,

"Dear Madam.—The Peas Quite Content I saw in von garden were, without exception, the most wonderful I have ever seen. I was present when you mensured them, and three of them were in and well filled. Yours truly, "tros, Kulkenny, Gardener,"

"Dear Madam,—I have much pleasure in stating I saw your wonderful Pens growing in your garden. They were the finest I have ever seen, Carlers Quite Content actually measuring 9 in., and most of the pods measuring 7 and 8 in., and well filled. -WM. PHELAN, Gardener,

(See bare 37.)

No. 82 Carters Canadian Express.

No. 28 Carters Canadian Glory.

No. 91 Carters Longsword. New Model Selection.

### DWARF FRENCH OR KIDNEY BEANS.

FRENCH-Haricots nains.

The Cullivation of French or Kidney Beans.—Sow in pots under glass for forcing from December to April, and about May in the open borders, followed by two or three successional sowings at intervals of a fortnight. The rows ought to be from 2 ft. to 2½ ft. apart, and the plants thinned to about 1 ft, apart. They are rather delicate, and should not be sown out of doors until the warm weather sets in.

81 Carters 50 Days.-Extra early selection from an American

variety. A new compact growing forcing Bean, recommended an Award of Merit from the Royal Horti-cultural Society, 1920. As its name implies,

NOVELTY.

it is sown and fit for use in 50 days Per pkt., 1/-; ½-pint, 2/-8? Carters Canadian Express.-This fine new Bean will

Carters Canadian Express

undonbtedly rank as the finest of the large-podded early French
Beans, one of its pareuts being
our selected Canadian Wonder,
as shown at side. The Beans
are equally as long as those of
that elebrated variety, but fit
for picking quite 14 days earlier.
(See Distorated) (See Photograph.) Per pkt., 1/-; ½-pint, 1/9; pint, 3/-

83 White Model, Carters.-The earliest of all the white-seeded varieties. The result of a cross between Carters Sunrise and

NEW MODEL SELECTION.

Improved Longsword. Improved Longsgord. Hapt compact, pods long, straight, and excellent quality, a remarkable good forcing variety, and a truly refined Beau. A great improvement on While Advancer. Per pkt., 1/-; per pint, 2/6

- 85 Perpetual, Carters.-The Royal Horticultural Society have recently granted their First Class Certificate to this fine introduction, in addition to two previous Awards of Merit, a truly mique recognition. This remarkable Bean is strongly recommended as being in every way a great acquisition; it is of very compact growth, the foliage of an attractive dark green, and the pods are of medium size. The most important features are the prolonged period this variety continues to bear, and its remarkable quality for withstanding hot and dry seasons. Pods were anie quanty for withstanding not and dry seasons. Pous were picked in our Testing Grounds earlier than other varieties, and young tender beaus were gathered after most other sorts were quite fuished. We exhibited about 50 pots of French Beaus at an early August meeting of the R.H.S., the most favourably discussed being Carters Perpetual, shown as seedling No. 249, (See Photograph.)

  Ter packet, 1/-; per pint, 2/6
- Sunrise, Carters. For forcing or out-NOVELTY. doors. A distinct and valuable first carly Dwarf French Bean raised at our grounds from the result of a cross between Ne Plus Ultra and Carters Perpetual. Carters Sunrise is a most valuable addition, for it not only possesses the good foreing quality of the Ne Plus Ultra, but is a much better cropper, and produces larger and superior pods; very compact growth and remarkably early. Award of Merit, R.H.S., 1913, and confirmed by the Society, July, 1914. (See Photograph.) Per pkt. 1/-; per pint, 2/6

NOVELTY.

Magpie, Carters (The new Longstanding variety).—This remarkably fine Dwarf Bean, which has attracted such favourable

Bean, which has attracted such favourable attention in our trials at Raynes Park for the past few scasons, and granted an Award of Merit by the Royal Horticultural Society, July, 1914, was raised in France by an expert grower, who considered it the finest bean of its class. We have re-selected and grown it on for some years, until it has become equally good here in all seasons, producing heavy crops when other varieties are damaged or fuil. It is also an excellent forcer. In habit it somewhat resembles our celebrated Perpetual, but is a heavier cropper, the pods larger and longer, but equal quality and flavour. We strongly recommend this introduction. (See Photograph.) Photograph.) Per pkt., 1/-; per pint, 2/6

90 Canadian Wonder, Carters.-We were one of the first to make the incrits of this fine Dwarf Bean known, and its popularity to-day is probably unequalled. Our stock is the finest obtainable, and produces an abundance of very long fleshy making it a great favorrite both for table and exhibition. Included in our Gold Medal Collection, Cardiff, 1914. 49 First Prizes reported in one season. Highly commended Royal Horticultural Society, 1920.

Per ½-pint, 1/2; per pint, 2/-; per quart, 3/6

91 Longsword, Carters Re-selected.-This variety has been improved and re-selected, and as now offered is one of the largest podded French

NEW MODEL SELECTION. Award of Merit, R.H.S., 1920.

Beans on the market; the pods, produced in great profusion, are of quite remarkable length and substance. Exhibitors should not fail to grow

this variety where space is not limited; a certain prize-winner. (See Photograph.) Per ½-pint, 1/2; per pint, 2/-; per quart, 3/6

- 94 Canadian Wonder.—Ordinary variety of this popular Bean. Per  $\frac{1}{2}$ -pint,  $1/\gamma$ ; per pint,  $1/\gamma$ ; per quart, 3/3
- 92 Dwarf Wax, or Golden Butter, Carters Melting.— Very prolific heavy eropping variety of wax-podded Beau so popular on the Continent. The Beaus should be cooked whole. Per ½-pint, 1/-; per pint, 1/9; per quart, 3/3
- 95 **Early Prolific.**—Very productive.

  Per ½-pint, 1/-; per pint, 1/9; per quart, 3/3
- 97 Ne Plus Ultra.-Well-known variety; good for general use. Per 1-pint, 1/-; per pint, 1/9; per quart, 3/3

Osborn's Early ing. — One of the best forcing varieties.

Per ½-pint, 1/-; per pint, 1/9; per quart, 3/3

#### STRINGLESS VARIETIES.

88 Canadian Glory, Carters Stringless.—An extra early dwarf green-podded French Beau, possessing the invaluable quality of bearing pods absolutely without strings or threads. It is equally valuable caten as a Flageolel or Haricot, as on the Continent. (See Photograph.)

Per  $\frac{1}{2}$ -pint, 1/2; per pint, 2/-; per quart, 3/9

87 Holborn Wonder, Carters Stringless. - The great success which has attended our introduction of the first stringless Green-podded Bean, Carlers Canadian Glory, has encouraged us to pursue our efforts in selecting Stringless Beans for general use. Our Holborn Wonder will be found to be free from threads, is quite distinct and very prolific.

Per ½-pint, 1/2; per pint, 2/-; per quart, 3/9

### CLIMBING FRENCH BEANS.

Hinls on Culture.—Sow in pots under glass wherever wanted, transplant in prepared beds for training, or grow on in larger pots. For ontdoor culture they must not be sown until May is well in—very similar to Scarlet Runners, only that they do not grow quite so robust and do not need such tall stakes

climbing stringless variety which we strongly recommend. It bears round pods so freely produced that we have counted as many as forty ou a stalk. It holds well to the sticks, and is the earliest Bean we know. The R.H.S., reporting its trials at Wisley, says:— "CARTERS JULY CLIMBING FRIENCH BEAN,—Flower white, height 3 ft., foliage dark green, pods long, thin, straight, averaging 6 in, in length, usually in pairs; good crop; pods stringless."

Per ½-pint, 1/2; per pint, 2/-; per quart, 3/9

109 Re-selected Climbing French Beans, Carters.-The best of all the climbing long-podded varieties, particularly hardy, climbs well; pods long, straight, and resemble Canadian Wonder. Altogether an excellent variety of very robust habit.

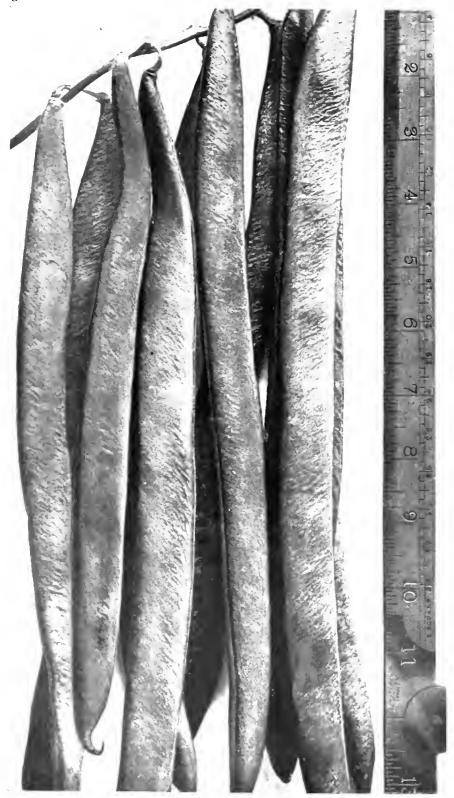

Per ½-pint, 1/2; per pint, 2/-; per quart, 3/9

Carters Special Collections of Garden Peas. See page 41.

The above are packed in 6d. 1/- and 1/6 packets

and in other quantities as above.

Varters Address for all correspondence, RAYNES PARK, LONDON, S.W. 19.

No. 117 Carters Scarlet Emperor Runner Bean. (Photograph reduced.)

### RUNNER BEANS.

FRENCH-Haricots à rames.

The Cultivation of Runner Beans.—Runner Beaus should be planted out of doors during May, followed by successional sowings at intervals of a fortnight; by this means an abundant supply is provided until the plants are destroyed by the autumn frosts. Care should be taken when planting that sufficient space is allowed between the rows (say 3 feet), and 12 inches from plant to plant in the rows, and the plants should be well-watered in dry weather or the flowers will drop off. If sings are troublesome during the young stage of growth, dust over with

117 Scarlet Emperor, Carters. (THE LONG SMOOTH-PODDED SCARLET RUNNER).-Fully maintains its great reputation, and

its popularity still increases, as our RE-SELECTED States States States States of the States Stat

At the Exhibitions Scarlet Emperor is still the favourite Runner Bean, and our records of first prizes gained all over the conntry confirm the first season's report as being the finest Scarlet Runner introduced. Not only is this Bean of the numost importance as a prizewinner, but its smooth and tender texture places it far above all other Scarlet Runners. Its long handsome pods, often measuring 15½ inches, hang in great clusters, and il has been estimated that the produce from Carlers Scarlet Emperor is twice as great in bulk as may be expected from the ordinary type of Scarlet Runner, and all of the most refined quality. 768 First Prizes reported. (Sce Photograph.)

"Your Scarlet Emperor Runner Beans have done splendid. I have inever seen any to equal them in height or size of pods, the best I know."—Mr. A. W. PERRY, Head Gardener to The Right Hon. The Farl of Jersey.

"Scarlet Emperor is still the finest Runner Bean to grow, notwithstanding all the newer or so-called giant introductions."

– J. Boyce, Gardener to S. E. Warne, Esq.

J. Boyce, Gardener to S. E. Warne, Esq.

NOTE -- Our stock is rigidly selected and only grown under our own special supervision, we therefore warn our customers against the many substitutions now on the market.

### BEET.

FRENCH-Betterave potagère.

The Cultivation of Garden Beet.—The round varieties required for early use should be sown under cover in February. The main crop should be sown the last week in April on ground that has been well trenched and manured. Let the rows be about  $1\frac{1}{2}$  ft. apart, thin them to allow about 9 inches between the plants, and keep the soil well stirred with the hoe during the summer.

### EDIBLE-LEAVED.

- 8 Scakale or Silver .- An improved type of a delicious vege-Scakale or Silver.—An improved type of a deficious vegetable; in reality, a Beet in which cultivation has developed the leaves instead of the root. It is sown at the same season as Beetroot—in April, in rows about 1½ ft, apart, and the plants thinned out to about 1½ ft, apart. At the end of summer they may be lifted as required, the green portion of the leaves ent off and the fleshy stems boiled and served with sance, like Seakale.

  Per pkt.—/6, I/-, and 1/6
- Per pkt., -/6, I/-, and 1/6 21 Spinach (Edible-leaved).—Leaves thrown up in profusion, and largely used as a substitute for Spinach. Per pkt., -/6; per oz., 1/-

#### LONG BEET.

- 12 Perfection, Carters. We continue to re-select this fine Beet, Perfection, Carters.—We continue to re-select this fine Beet, which is now a perfect and refined root. The best long Beet in cultivation; inclium size, rich crimson lake colonr, and splendid flavour; foliage shining and dark. Carters Perfection is a magnificent show variety and figures prominently at all the principal vegetable exhibits throughout the country. Included in three Gold Medal Exhibits during 1914. 96 First Prizes reported by enstomers during 1920. (See Photograph.)

  "This is the finest Long Beet in cultivation, at least from my experience."—W. Jarvis, Gardener to J. E. Simpson, Esq.

  Per pkt.,—/6, I/-, and I/6; per oz., I/9
- 7 Dainty, Carters. This is a small-growing variety of more
- than ordinary merit. It lims long slender roots of a splendid deep crimson colour, and of the finest flavour possible. In naming it Dainty, we wish to convey the extremely refined quality of this variety: it does not attain to the size of our Perfection.

  Per pkt., -/6, 1/-, and 1/6; per oz., 2/-
- 13 Blood Red, Carters. A fine long variety, with well-shaped roots of splendid deep colour and of good flavour. I'er pkt., -/6 and I/-; per oz., 1/6
- 22 Cheltenham Green Top.—Green leaves, with fine bright red roots; long variety.

  Per pkt., -/6 and 1/-; per oz., 1/3
- 18 **Dell's Dark-leaved.** -splendid deep rich-coloured root, leaves of dark and glossy appearance.
- Per pkt., -/6 and 1/-; per oz., 1/3 25 Long Red, Carters.-Rich in colour and flavour.

Per pkt., -/6 and I/-; per oz., 1/3 30 New Intermediate. - Distinct in shape, and matures early. Excellent in colour, texture, and flavour ... Per pkt., 6d. and 1/-; per oz., 1/6

ORNAMENTAL.

- 16 **Brazilian.** –Grown for its handsome ornamental foliage. Per pkt., ~/6 and 1/~; per oz., 1/3
- 11 Croton-leaved Beet -A decided acquisition to the group of decorative Beets, the long, narrow, crimson-bronze leaves having an elegant appearance. For the ribbon border, or as a pot plant for table decoration, it is effective. The roots are edible.
- Per pkt., -/6, I/- and 1/6 9 Flower Garden, Carters.—Dark bronze purple graceful folinge, effective for bedding. Per pkt., -/6 and 1/-; per oz., 1/3
- 10 Ornamental Foliaged Beet.—An interesting species for decoration in the flower garden. The thick fleshy ribs are beautifully coloured, either yellow, crimson, cream, or white, and the contrast with the shining green lenfage is very effective.

  \*Per vist. //6. 1/-. and 1/6. Per pkt., -/6, 1/-, and 1/6

### ROUND BEET.

- 6 Crimson Ball, Carters. Awarded the First Class Certificate of the Royal Horticultural Society. A round summer variety, The roots are ready for use in the summer salads. Round Beets are of the greatest value on account of earliness. The roots can The roots are ready for use in the summer salads. Round Beets are of the greatest value on account of earliness. The roots can be lifted during the height of the summer season when salads are in demand; and the fresh taste imparted by the highly-coloured slices is considered preferable to that from stored roots. The old-fashioned flat types were never in favour with cooks, because of their weak colour and strings texture. In Carters Crimson Ball these defects have been remedied. Fine specimens of this variety have been exhibited in Gold Medal Collections at Shrewsbury and elsewhere during the past few seasons. 74 First Prizes reported in open competition during 1920. (See Photograph.) Per pkt., -/6, 1/-, and 1/6; per oz., 2/-Feyntian Turnip-rooted.—Good stock: useful for shallow
- 19 Egyptian Turnip-rooted.—Good stock: useful for shallow Per pkt., -/6; per oz., 1/-
- 26 Round, Carters, -A good early Beet. -/6 and 1/-; per oz., 1/3

#### SUGAR BEET.

Requires the same treatment and cultivation as the ordinary garden varieties.

32 Carters No. 1 Sugar Beet, -A selected stock.

Per pkt., -/6; per oz., -/10

BORECOLE OR KALE.

The Cultivation of Kale. Sow the seed in March for early winter crop, and again in April for main winter crop. Transplant as soon as ready in summer, about 2 ft. apart, into good soil, made firm and highly manured.

- 198 Russian Kale, Carters (Chou de Russic),-Award of Merit and First Class Certificate after trial at Wisley. This distinct and extremely hardy variety stood the exceptionally severe winter better than any other variety grown; the leaves are very curious in form, somewhat resembling a deer's antler, of singularly thick substance, and of a peculiarly green colour. When cooked this is the most delicious variety of Kale which we have ever tried, the young shoots especially being particularly delicate in flavour. (See Photograph.)
  - "Foliage of a dark green nature, short and sturdy, producing large quantities of spronts; when cooked are delicions. It stands the winter better than most of the better known Kales, and should be grown everywhere."—Mr. Quanton, Head Gardener to the Right Hon. Viscomit Midleton.
- Per pkt., -/6, I/-, and 1/6 200 Dwarf Extra Curled Kale, Carters.-Award of Merit, R.H.S., after trial at Wisley. A re-selected and crested form of the Early Kale so popular in the North. It will resist the most intense frost, and makes a delicious winter dish. (See Photograph.)

  Per pkt., -/6, 1/-, and 1/6; per oz., 1/9
- 201 Half Tall Scotch Kale, Carters.—A fitting companion to Half Tall Scotch Kale, Carters.—A fitting companion to our well-known Dwarf Extra Curled type. The leaves are very dense and moss carled. Stands the coldest weather, and the greater the frost the more delicate the leaves eat. If the leaves at the top are cut during the early part of the winter, it will greatly encourage the growth of the young shoots upon the stem. (See Pholograph.)

  Per pkt., -/6 and I/-; per oz., I/3
- 202 Drumhead Kale, Carters.—A valuable winter vegetable with a solid cabbage-like head. Quite delicious when cooked. We received an Award of Merit from the Royal Horticultural Society for this Kale. Per pkt., -/6, 1/-, and I/6; per oz., 1/9
- 204 Mammoth Tall Scotch Kale, Carters -- A very robust variety, suitable for large establishments where quantities of winter green-stuffs are needed. Per pkt., -/6 and 1/-; per oz., 1/3

- 208 Asparagus Kale. The long thin shoots produced on the plant in early spring make a delicious dish. Per pkt., -/6, 1/-, and 1/6
- 210 Chou de Milan. Similar to Cottager's Kale, with white ribs Per pkt., -/6; per oz., -/10
- 203 Cottager's Kale. "Very hardy, of tall, robust growth, throws a great profusion of side shoots, of splendid quality. Award of Merit, R.H.S. Per pkt., -7/6; per oz., 1/-
- 208 Curled, Carters.—Dwarf; superbly curled. Per pkt., -/6 and t/-; per oz., 1/3
- 211 Dwarf Green Curled.—For general use. Per pkt., -/6 and 1/-; per oz., 1/3
- 212 Imperial Hearting. Hardy, with compact heads. Per pkt., -/6 and 1/-; per oz., 1/3
- Improved Garnishing Kale, Carters:—A valuable winter vegetable; produces a variety of distinct and beautiful shades of colour in its variously tinted leaves that are useful for 207 Improved decorative purposes, Per pkt., -/6, 1/-, and 1/6; per oz., 1/9
- 213 Jersey Tree.—Tall and curious, with stems of such toughness that in Jersey they are often made into walking-sticks.
  - Per pkt., -/6; per oz., -/10
- 205 **Purple Plume Kale, Carters.**—Leaves of a rich purple, very tall and handsome; a useful vegetable as a winter dish or for garnishing. Per pkt., -/6, 1/-, and 1/6; per oz., 1/9
- 209 Tall Green Curled, Carters. Densely enried, Per pkt., -/6; per oz., 1/-
- 215 Thousand Headed. Loose headed; great profusion of Per oz., -/6

### BROCCOLI.

The Cultivation of Broccoli. For the earliest crop a sowing is requisite the beginning of March, and a little protection may be necessary for the seed-beds. Successional sowings should follow up to June, Prick out into a prepared bed when strong enough, and when thoroughly established in summer transplant to permanent quarters, the earliest kinds first, to produce a constant supply of heads, according to the variety until Cauliflowers are ready in July the following season. The soil should be deeply dug, well manured, and in good tilth and firm before

### THE TWO BEST VARIETIES FOR CUTTING FROM SEPTEMBER TO CHRISTMAS.

232 Autumn, Carters.—The earliest white close-headed variety, Comes in after early Cauliflower and before winter Broccoli, (See Photograph). Per pkt., -/6, 1/-, and 1/6; per oz., 3/6

Sandringham Winter White, Carters.—A choice re-

selected stock of *Snow's Broccoli*, which we strongly recommend to our customers. The heads, which attain a good size, are of a very compact growth and beautifully white. Per pkt., -/6, 1/-, and 1/6; per oz., 3/6

### STANDARD VARIETIES FOR AUTUMN AND EARLY WINTER CUTTING.

235 **Veiteh's Self-Protecting.**—Farly variety, with good hearting quality. Per pkt., -/6, 1/-, and 1/6; per oz., 2/6

236 Walcheren.-One of the earliest; fine heads, Per pkt , -/6, 1/-, and 1/6; per oz., 2/6

#### VARIETIES FOR CUTTING FROM CHRISTMAS TO APRIL.

241 Mammoth Spring White, Carters.-Follows Carters Winter, A very pure white of remarkable constitution; does well on all soils. We have no hesitation in saying that this is one of the largest as well as the best varieties grown, and attains greater popularity each season. The heads are snow-white and of the finest texture. (See Photograph.)

of the mest textife. (OF Pringing III).

Per pkt., -/6, t/-, and 1/6; per ox., 3/6

240 Winter, Carters. This most reliable variety follows Carters Winter, Carters Time and Sandringham Winter White.

Per pkt., =/6, 1/-, and 1/6; per oz., 3/6

### STANDARD VARIETIES FOR LATE WINTER AND EARLY SPRING.

246 Adam's Early White.—Produces fine heads, pure, compact, and firm.

Per pkt., -/6 and 1/-; per oz., 1/6

248 Covent Garden Early.—Largely grown for market; good solid heads.

Per pkt., -/6 and 1/-; per oz., 1/6

251 Knight's Protecting.—An old favourite; heads of large size and good shape.

Per pkt., -/6 and 1/-; per oz., 1/6

253 Leamington.—An old and popular sort; firm white heads.

Per pkt., -/6 and 1/-; per oz., 1/6

254 Penzance Early. -Largely grown in South West of England, 1'er pkt., -/6 and 1/-; per oz., 1/6

245 Snow's Winter White.—A valuable midwinter variety, very constant, excepting when the season runs ont of its usual character, when the head may be later in reaching maturity.

Per pkt., -,6, I/- and I/6; per oz., 2/6

### LATE SPRING AND SUMMER VARIETIES FOR CUTTING FROM APRIL TO JUNE.

251 Champion, Carters.-We introduced this variety some years ugo; it is of sterling merit and steadily grows in favour. Grows to a large size, and is of very hard, compact habit.

Per pkt., -/6, 1/-, and 1/6; per oz., 3/-

262 Summer, Carters. This variety is strongly recommended to growers of late Broccoli. It is extremely hardy and will withstand the most intense frosts. 'The heads are of superb quality; white, close, and compact,

Per pkt., -/6, 1/-, and 1/6; per oz., /6

263 Universal Protecting, Carters.-Between a Broccoli and a Canliflower, coming in during summer after the latest Broccoli and before the earliest Cauliflower. It produces large heads, compact and pure white. This is a remarkable introduction, Stands longer than any other. Per pkt., -/6, 1/- and 1/6 260 Late Queen. One of the best in late section, of very hardy and compact growth, producing medium-sized white heads.

Per pkt., -/6, 1/-, and 1/6; per oz., 3/267 **Model.**—Medium sized white heads, hardy and dwarf habit,
Per pkt., -/6, 1/-, and 1/6; per oz., 3/-

#### SPROUTING BROCCOLI.

271 Improved Early Purple Sprouting, Carters.—This variety is fit considerably entirer than the Purple Sprouting generally grown, and throws up a great profusion of Sprouts, fit for use at Christmas. Fer pkt., -/6 and 1/-; per oz., 1/6

273 Purple Sprouting. -A fine stock of the ordinary variety

2/3 Purple Sprouting.—A me stock of the ordinary variety ready for enting in April. Should be largely grown, as it matures when green vegetables are scarce. Per pkt., ~[6 and 1/~; per oz., 1/3 274 White Sprouting.—Good stock, producing large quantity of spronts.

Per pkt., ~[6 and 1/~; per oz., 1/3 -]

### WE CAN STRONGLY RECOMMEND THE FOLLOWING SELECTIONS OF BROCCOLI:—

280 8 oz., in 8 best sorts, for succession -our selection, 13/-281 4 oz., in 8 best sorts, for succession—our selection, 7/-

## BRUSSELS SPROUTS.

Frencu-Chon de Bruxelles.

The Cultivation of Brussels Sprouts.—Sow the seeds early in March for first crop, and late in April for succession, transplant in summer into good ground made thoroughly firm, when the plants are large enough to handle, and keep stirred with the hoe through the dry weather. The Sprouts are fit for gathering after they have been under the influence of a hard frost, which makes them tender eating. Some growers make a sowing in August to get early Spronts.

221 Holborn Exhibition, Carters -- A very fine strain, the result of many years' careful selection. Its points for size, colonr, and productiveness are good all round. Besides being largely grown in private gardens, it is a special favourite with many of our best known market growers. It is of medium height with large solid spronts. The Royal Horticultural Society's report reads:— "Canters New Exhibition.—Plants 2 feet high, sturdy, producing a mass of medium-sized hard spronts from base to crown." (See Photograph.)

Per pkt., -/6, 1/-, and 1/6; per oz., 2/-

"I am picking some of the finest Bressels Spronts from your Exhibition variety that I ever saw. I have a bed of about

tration in your catalogue,"—Mr. W. EDWARDS, Head Gardener to G. Coleman, Esq. 223 Perfection, Carters.-Perfection in every way. A standard variety for general use, producing large and firm sprouts in

350 plants, which is a perfect picture, quite equal to the illus-

great abundance. As a late sprout it is much appreciated. It is a taller growing variety than our exhibition strain. (See Photograph.)

Fer pkt., -/6, 1/-, and 1/6; per oz., 1/9

224 Aigburth.-Medium height. Spronts of good size and colonr.

Per pkt., -/6 and 1/-; per oz , 1/3 222 Serymger's Giant.—Tall-growing variety, producing spronts of good quality and large size, Fer pkt., -/6; per oz., 1/-

### CABBAGE.

The Cultivation of Cabbage.—By a little careful arrangement Cabbages can be had almost all the year round. An early variety sown in the spring will come into use in the summer; a main crop variety sown in the spring will come in during summer or autumn. Sowings made during July of Carters Rosette Colewort will come into use during autumn, whilst sowings made towards the end of August will be fit for enting in the spring. July sowings of a Cabbage intended for spring cutting often bolt, whereas the same variety sown at end of August stands well. Cabbages require a rich, deeply dug, and well-drained soil. When planted out they should stand 15 to 20 in. apart, according to habit and growth of the variety. Do not plant in freshly dug ground, as the hearts are more solid and compact when grown in firm soil.

### CARTERS SELECTED EARLY VARIETIES.

Sp. signifies for spring sowing; A for autumn sowing.

No. 289 Early Heartwell, Carters (Sp. A).—An early Marrow Cabbage of refined quality and delicate flavour; without doubt capage of refined quanty and deficite matom, which will be fit to ent in summer. Sown in August will be fit to ent in April and May. (See Photograph.) Per pkt., -/6 and 1/-; per oz., 2/-

- 288 Springtide, Carters (Sp. A), -A dwarf variety, maturing in April or even earlier in favourable seasons, when Cabbage forms such a valuable addition to the table. The hearts are of perfect form and flavour. This choice little variety is practically all heart. There being few outside leaves, almost the whole plant can be used (See Photograph.) Per pkt., -/6 and 1/-; per oz., 2/-
- 294 Pioneer, Carters (Sp. A).—A valuable early Cabbage, rather larger than our Springtide, maturing a few weeks later and forming a valuable succession to that variety. An excellent type for main erop where medium size and first-class quality are desired. (See Photograph.) Per pkt., -/6 and 1/-; per oz., 1/6

296 Model, Carters (Sp.).—As a succession to Carters Heartwell this is a useful variety. Its heads are firm and compact, and come close to the ground. (See Photograph.)

Per pkt., -/6 and 1/-; per oz., 1/6

291 Early York, Carters (Sp.).—Of dwarf, compact habit, small heads, and quick growth. Per pkt., -/6; per oz., 1/-

292 Early Offenham (Sp. A).—Carters selected. One of the best early varieties, producing large firm heads.

Per pkt., -/6 and 1/-; per oz., 1/3

- 297 **Ellam's Early** (Sp. A).—Early, of dwarf compact habit; is largely grown in all parts of the country; hearts of good quality and excellent flavour.

  Per pkt., -/6 and 1/-; per oz., 1/3
- 298 Flower of Spring (A).—Compact, with full heart and splendid Per pkt., -/6 and 1/-; per oz., 1/3
- 299 Mein's No. 1 (Sp. A).—A well-known variety, of large size. Per pkt., -/6 and 1/-; per oz., 1/3

### CARTERS MAINCROP CABBAGE.

304 Mammoth Beefheart, Carters (Sp. A). -The finest antimin garden Cabbage grown. Each season it becomes more popular, and we confidently recommend this highly selected strain as being not only the largest, but one with the least tendency to bolt. Sown in spring it gives splendid leavy heads during snumer and autumn, or when sown in August fine heads may be expected in the late spring. It is much more robust and hardy than many of the small varieties now recommended for early snumer use. 112 First Prizes were reported to us by enstoners during 1919 and 1920. (See Photograph.)

l'er pkt., -/6 and 1/-; per oz., 2/-

- 311 Miniature Drumhead, Carters (Sp.).—A small, globular shaped garden Cabbage of delicate llayour and good colour. Although called *Drumhead* from its shape, it is quite distinct from the field Cabbage. Valuable for small gardens where only one sort is grown. The plants may be set very close together.

  Per pkt., -/6 and 1/-; per oz., 1/6
- 312 Summer, Carters (Sp.).—One of the largest headed varieties: very white hearts, good flavour, Per pkt., -/6 and 1/-; per oz., 1/3

313 **Cocoanut, Carters** (Sp.).—Small and early; compact habit and delicate flavour. Per pkt., -/6 and 1/-: per oz., 1/3

- 305 White Prizetaker, Carters (Sp.).—Short leaves and white heart; strongly recommended for antinum use; flavour exceptionally mild, Per pkt., -/6 and 1/-; per oz., 2/-
- 306 **Christmas Drumhead** (Sp.).—A small solid-hearted variety, largely grown by market gardeners. Owing to its compact habit this variety can be grown close together. Remains in season over a very long period. Per pkt., -/6 and 1/-; per ox. 1/3
- 308 **Enfield Market** (Sp.).—This old and popular variety is still largely grown; compact and firm. Per pkt., -/6; per oz., 1/-
- 317 Nonpareil (Sp. A),—Carters re-selected. A good stock. Per pkt., -/6 and 1/-; per oz., 1/3
- 315 Wheeler's Imperial (Selected Stock) (Sp.),—A splendid dwarf Cabbage, with very solid hearts of good mild flavour. One of the best maincrop kinds. This select stock is far in advance of the variety frequently sold as Wheeler's Imperial.

  Per pkt. -/6 and 1/-; per oz., 1/3

#### PICKLING CABBAGE.

310 Red Pickling, Carters (Sp.).-This is the most perfect type of Red Cubbage; the hearts being very hard and compact and of a rich deep crimson, the colour also of the outer leaves being much darker than any other variety we know. (See Photograph.)

Per pkt., -/6 and 1/-; per oz., 1/6

319 Large Blood-red, Carters (Sp.).—A fine large-headed pickling variety, Per pkt., -/6 and 1/-; per oz., 1/3

### COLLECTIONS OF CABBAGE SEED.

325 **8 pkts.**, 8 finest sorts, for succession—our selection 3/6 326 **4 pkts.**, 4 finest sorts, for succession—our selection 1/9

327 16 oz., 8 finest sorts, for succession—our selection 15/-328 8 oz., 8 finest sorts, for succession—our selection 8.-

#### SAVOY CABBAGE.

- 339 Cartercone.—This small perfectly-shaped Savoy was very Cartercone.—This small perfectly-shaped Savoy was very favourably commented upon when included in our exhibit of Brassicas at the Royal Horticultural Society's Hall, antunut, 1913, and the Vegetable Committee recommended it for further trial at Wisley. The heart is a perfect cone in shape, whilst its absolute freedom from coarseness cusmres its success for table use. Cartercone is a very refuned type. Although maturing early, it stands over a very long period and is not liable to burst, as are many of the ordinary types. (See Photograph.)

  Per pkt., -/6 and l/-; per oz., 1/6
- 343 Giant Green, Carters.-An improved type of Savoy with crimped foliage; the individual leaves are very large, but retain their tender properties louger than any other variety. (See Pholograph.) Per pkt., -/6 and 1/-; per oz., 1/6
- 345 Tom Thumb, Carters Re-selected.-An exceptionally fine-grained type, with a compact heart. Very early. The Royal Horticultural Society's report at Wisley:—"Carters Reselected Tom Thumb Savoy.—A good stock of this dwarf, compact, early, well-known old variety."

Per pkt., -/6 and 1/-; per oz., 1/9

- 344 **Early Dwarf Ulm, Carters.** A fine re-selected stock of this popular Savoy. Extremely early, good flavoured, and very hardy.

  Per pkt., -/6 and 1/-; per oz., 1/6
- 340 Drumhead, Carters.—Good stock; large hearting variety Fer pkt., -/6; per oz., 1/-
- 34) **Dwarf Green Curled.**—Very compact and hardy; one of the best for general use, Per pkt., -/6; per oz., 4/-

#### COLEWORT AND COUVE TRONCHUDA.

- 354 Rosette Colewort, Carters. This valuable Colewort should be given a place in all gardens. Sown in autumn it matures during the winter, and ensures good supplies of succalent greens before Spring Cabbages are fit.

  Per pkt., -/6; per oz., 1/-
- 356 Couve Tronchuda, Portugal, or Sea Kale Cabbage.—
  The thick fleshy mid-ribs of the largest leaves are sometimes used and prepared in the same manner as Sea Kale. Per pkt., -/6; per oz., 1/-

355 Hardy Greon Colewort, Carters—Valuable for autumn sowing.

Per pkt., -/6; per oz., 1 -

The above are packed in 6d. 1/- and 1/6 packets

and in other quantities as above.

### CARROT.

FRENCH-Carotte.

The Cultivation of Carrot.—For early forcing sow in January in frames, in February on warm border. Make successional and main crop sowings during March and April in deep, well-conditioned soil to which manure has not been recently applied. Cover the seed very lightly in 2-in, drills, and as soon as the plants are strong enough to handle, thin out from 4 to 9 in., according to sort. Further sowings may be made up

#### EARLY VARIETIES.

Forcing Varieties (F).

- 365 Long Foreing, Carters (F).—A dainty long Carrot (small). Long Forcing, Carters (r).—A dainty long Carrot (small), with the same depth of colour and firmmess of texture in its carliest stages as other Carrots possess in their later growths. This forcing Carrot is one of the most distinct and valuable that we possess, and when better known it is sure to be extensively grown. "It is the quickest variety that I know of, and makes but very little top, and the quality is excellent. As a Carrot coming into use early in the year, and for exhibition, it is an acquisition,"—If, B. in Gardeners' Chronicle. (See Photograph.)

  Per pkt., "Is and II"; per oz., 1/6

  Coldon Ball Conton (r).
- 362 Golden Ball, Carters (F).—A most distinct and small early wariety, specially adapted for forcing and framework. The roots are almost as round as a furnip, flavour excellent and melting. Awarded First Prize as the best early Carrot, R.H.S. Great Antinum Exhibition. During 1913-14 Gold Medal Exhibits of Carters Vegetables contained this excellent Carrot. At the Eastbourne, Cardiff, and York Shows, 1914. Carters Golden Bull attracted special attention in our Exhibits of Vegetables, Gold Medals being awarded for each collection. (See Photograph.)

#### MID-SEASON.

376 Summer Favourite, Carters.—Awarded Royal Horticultural Society's Silver Medal, and included in the Large Gold Medal Exhibit, Shrewsbury, 1912. A splendid half-long, producing handsome, well-grown bright cochineal-searlet Carrots very early in the season. The quality is superb, and as an exhibition variety coming into use early it will be found invaluable for showing in the summer months. 86 First Prizes reported to us last season. Gold Medals were awarded to Carters Exhibits of Vegetables at Cardiff, Eastbourne, and York, 1914, and included Snmmer Favourite Carrot. (See Photograph.)

- 381 Stump-rooted Intermediate, Carters Fine form and Per pkt., ~/6 and 1/~; per oz., 1/3

### CRESS.

The Cultivation of Cress.—Use boxes of good line soil, make the surface flat, and sow the seed rather thickly over the top, just pressing it into the surface, but without using any covering material. After sowing, water it well. Place the box in moist heat, and cover with boards or thick paper until the seed germinates. Use shallow boxes half filled with soil. Frequent successional sowings should be made all the boxes, and covering the seed when sown with boards or in its mutil it germinates.

Use, Cut as soon as ready with a sharp knife.

Watercress in it be successfully grown if sown in rows in a shady border and well watered.

- 536 Parsley Curled, Carters. -This selection of Curled Garden Cress is comparable with nothing less than a finely Curled Parsley—hence its name; a distinct advance on the Triple Curled. (See Photograph, page 24.)

### CAULIFLOWER.

The Cultivation of Cauliflower.—Sow in pans on a gentle heat in February and March, to be pricked out in April on a warm border. Sow in the open in April and May for succession, and again in August for winter and spring use under glass.

#### FIRST EARLY VARIETIES.

No.
393 Forerunner, Carters.—The quickest Cauliflower ever grown. Ten days earlier than others. Large white head, solid, and good size. Sow in middle of February, transplant when first leaves drop, under glass, plant in open ground end of April or beginning of May, and the first heads will be ready by the middle of June. of May, and the first heads will be ready by the middle of Jime. The leaves protect the head from the summer sin. Included in the First Prize and Champion Exhibit of Vegetables, Shrewsbury, 1912, and also a feature of the Large Gold Medal Exhibit at the same critical meeting. Staged in five Gold Medal Exhibits during 1913 and 1914. (See Photografh.) Per pkt., -/6, 1/-, 1/6, and 2/6

"I have much pleasure in telling you that I have cut about 600 very nice Canlillowers from a 1/6 packet of your Forerunner, and although they had no rain from the time they were planted out until three weeks after they came in ready for use, the heads were of good size and the quality excellent. "I made two batches of them and cut first week in June until the last week in July."—James Gough, The Gardens, Bilton Grauge.

The Royal Horticultural Society, reporting its trials at Wisley, says:—"Carters Early Forerunner.—A very early variety of dwarf, compact habit; sturdy, with rather small, solid, handsome, pure white heads."

- 395 Defiance Forcing, Carters.-This superb variety is, without doubt, one of the finest forcing varieties ever introduced; produces fine solid heads. In perfection during early summer.

  Per pkt., -/6, 1/-, 1/6, and 2/6
- 397 First Crop. Very early, fine white heads. Per pkt., -/6, 1/-, and 1/6
- 398 Snowball.—Superb early variety. Per pkt., -/6, 1/-, and 1/6

#### SECOND EARLY VARIETIES.

- 404 Extra Early Autumn Giant, Carters.—This magnificent Extra Early Autumn Giant, Carters.—This magnificent Caulillower is more dwarf, considerably earlier, and in every respect better than the old Antunun Giant. It produces enormous snow-white heads, and is admitted to be the largest and the earliest of lhe giant forms that are of such value during september and October. Our Exhibits of Vegetables at Leamington and Bristol, 1913, were awarded Gold Medals, and contained some splendid specimens of this variety, whilst the Gold Medal Exhibit at Holland House Show was also conspicuous for the very fine heads of this Caulifower. We have records of 379 First Prizes having been won by customers. (See Photograph.)
- 405 Mont Blanc, Carters. Magnificent snow-white heads, well protected by the leaves; one of the best for soils of heavy or retentive nature.

  Per pkt., -/6, 1/-, and 1,6
- 394 Early Emperor, Carters. A superb strain for the early sminner. A giant Canliflower for outdoor work, coming in unional strain for the early sminner. A giant Canliflower for outdoor work, coming in unional between Carters Forerunner and Carters Antumn Giant. The Royal HortienHunal Society's report reads:—"Carters Early Emperor.—Plants dwarf, sturdy, with semi-protecting foliage; heads medium to large in size, firm, and of excellent shape."

  Per pkt., -,6, 1/, 1/6, and 2/6
- 406 Dwarf Mammoth, Carters -One of the best for early work, producing the largest heads.

Per pkt., -/6, 1/-, and 1/6; per oz., 3'-

408 Early White London. - Useful for general cultivation. Per pkt., -/6, I'-, and 1/6; per oz., 3/-

### MAIN CROP VARIETIES.

- 415 Autumn Giant.-Well known. One of the most popular Caulillowers in cultivation, succeeding immediately our Extra Early Autumn Giant; heads of coormons size and fine texture. Per pkt., -/6, I/-, and 1/6; per oz., 2/6
- 417 Eclipse.—Distinct; splendid compact heads. Per pkt., -/6, 1/-, and 1.6
- 418 **Walcheren.**—A splendid mid-season variety, with solid large white heads. Per pkt., -/6, 1/-, and 1/6; per oz., 3.

### CELERY.

French-Céleri.

The Cultivation of Celery.—Sow in February on a mild hotbed for earliest crop, to be pricked out on bottom heat when ready, and transferred to trenches in June. Sow in March in seed pans for main, and in April for late crop. The trenches should be bottomed with rich soil, and the plants liberally watered in August; earth up gradually during August and September, and commence lifting in November.

#### WHITE VARIETIES.

- 424 Solid Ivory, Carters. One of the most remarkable features Solid Ivory, Carters.—One of the most remarkable features of Carters Solid Ivory Celerv is its extreme dwarf compact tabit and beautiful white colour. If the heads are tied with a little rough matting, the same as with Cos Lettnees, it will assist not only in keeping the Celery perfect, but also to exclude superabundant moisture. We have records of no less than 482 First Prives awarded this variety during the past few seasons in open competition. A feature of our greatly admired (Kalibit of Vegetables at Cardiff, 1914, which was awarded the Large Gold Medal. Heads of Carters Solid Ivory were conspicuous in the following Gold Medal Exhibits:—Chelsea, Leamingtou, Holland Honse, and Bristol Shows, 1913. (See Photograph.)
- 425 Sandringham Dwarf White, Carters.-Dwarf habit. solid, sweet and nutty flavour. Per pkt., -/6, 1/-, and 1/6
- 429 **Henderson's White Plume**.—Inner leaves being white, little blanching is required. Per pkt., '6, 1/-, and 1/6
- 427 White Celery, Carters. -A select stock producing very large heads of good flavour. Per pkt., 46, 1/-, and 1/6 Per pkt., /6, 1/-, and 1/6
- 431 Wright's Grove Giant White -Large growing; of fine, juicy Havour. Per pkt., 6, 1 -, and 1/6

#### VARIETIES, RED

- 440 Incomparable Crimson Celery, Carters -A dwarfgrowing, rich coloured Celery, of clean and refuned appearance, very crisp eating, and of delicions flavour. 279 First Prizes reported during the past few seasons. This fine variety was exhibited in no less than four Gold Medal Exhibits of Carters Vegetables during 1913. (See Photograph.) Pkt., -/6, 1/-, and 1/6
- 441 Standard Bearer. The finest type of Giant Red Celery that Standard Bearer. —The finest type of Giant Red Cetery that we know of. First Class Certificate, R.H.S. Some grand heads were included in the First Prize Collection of Vegetables at the Royal Hortienthral Society, October, 1905, and this variety also gained the first prize in the open class for Celery at Shrewsbury. 49 First Prizes reported by enstoners during 1920. Splendid specimens were also included in the Gold Medal Collection of Vegetables at the Hortienthral Society's Holland House Show, 1913, and in Carters Gold Medal Exhibit at Learnington.

  Per pkt., —/6, 1/-, and 1/6

450 Celery Seed for flavouring somps ...

442 Giant Pink, Carters. - A superb large-growing variety specially recommended for Exhibition. Heads of this variety formed part of the Champion Exhibit of Vegetables (open to the world). Shrewsbury, 1912, and it was also included in the Large Gold Medal Exhibit at the same Show being greatly admired. During 1913 it was included in three separate Gold Medal Exhibits of Carters Vegetables. (See Photograph). Per pkt., -/6, 1/-, and 1/6

444 Major Clarke's Red.-Well-known large-growing variety.

Per pkt., -/6, 1/-, and 1/6

- 446 **Sulham Prize.** -Pink variety of good close habit; erisp and sweet flavoured. Per pkt., -/6, 1/-, and 1/6
- 448 **Wright's Grove Red.**—One of the best varieties; good firm hearts.

### TURNIP-ROOTED CELERY.

432 **Celeriac, Carters Improved** (or Turnib-rooted Celery).—Pure white root, refined flavour. It is now becoming popular in this country. Seeds should be sown in pans in March, and the plants set out in shallow trenches to mature.

Per pkt., -/6, 1/-, and 1/6

### FRAME CUCUMBER.

The Cultivation of Frame Cucumber. - Sow in a pot or pan during February or March in heat for summer use, keeping the seed-pan shaded from strong light until the seedlings appear, then transplant to well-prepared hot-hed or other position when the plants are sufficiently established. If intended for cold-frame culture the plants must not be put out until all danger of frost is past. Sow again in September for winter use on a hot-bed.

- 456 Model, Carters.—Is one of the handsomest Cucumbers grown, embodying the fine form and general characteristics of Tender embodying the fine form and general characteristics of *Tender* and *True* with the prolific habit and strong constitution of the *Telegraph*. Perfect in ontline, with scarcely any neck, and of fine flavour, this variety has become popular both for exhibition and table purposes. Splendid specimens of this fine Canumber were conspicuous in the First and Champion Prize Exhibit of Carters Vegetables dopen to the world) at Shrewsbury. The Large Gold Medal Exhibit at the same Exhibition also contained some remarkable fruit of this variety. Gold Medal, York, 1914. 42 First Prizes reported this past season.

  (See Photograph) Medal, York, 1914, 42 (See Photograph.) Per pkt., 1/6, 2/6, and 3/6 First Prizes reported this past season.
- 459 Ideal, Carters.—Raised by that champion cultivator, Mr. E. Beckett, head gardener to the Hon. Vicary Gibbs. It is quite an aristocratic variety, in colour, shape, and flavour. It gained a Cultural Commendation after growth at Wisley. 36 First Prizes reported by customers during 1920. (See Photograph.)

  Per pkt., 1/6, 2/6, and 3/6

  Cardiff Castle, Carters.—Awarded a Cultural Commendation
- by the Royal Horticultural Society. The fruit is of a rich curerald colour, perfect in form, growing to a reason remarkably free-bearing and very early.

  Per pkt., 1/-, 1/6, and 2/6

No.
457 Improved Telegraph, Carters.—Our highly-selected stock is the finest obtainable of this popular variety. Unquestionably one of the best winter Cucumbers; indispensable for forcing, and a great cropper. Gold Medal, York, 1919.

Per pkt., 1/-, 1/6, and 2/6

461 Royal Osborne, Carters.—This grand introduction of ours has now become thoroughly established, and as an all-the-year-round variety the professional gardener will find it one of the best. It is very prolific and of a rich deep green colour.

Per pkt., 1/-, 1/6, and 2/6

- 460 Earliest of All, Carters.-Has produced perfect fruit in a trial, nine days in advance of all others. It is of good colour and handsome form. Per pkt., 1/-, 1/6, and 2/6
- 462 Lockie's Perfection. A remarkably productive variety, bearing fruit 15 in. in length, perfect models in shape, and of high quality.
  Per pkt., 1/- and 1/6
- 464 Frame, Carters ... Per pkt., 1/- and 1/6
- 471 Rochford's Market Per pkt., 1/- and 1/6 ...
- 474 Tender and True ... Per pkt., 1/- and 1/6

#### RIDGE OR HARDY CUCUMBER.

The Cultivation of Ridge Cucumber.—Sow on gentle heat in April, and plant out in June into a raised mound in a sunny spot, or sow where intended to grow in early June or sooner if weather is warm.

- 480 Outdoor Cucumber, Carters.-The longest hardy Cucum-
- ber. Fruits a good shape and colour, and of fine flavour.

  Per pkt., 1/- and 1/6
  481 Best of all Ridge, Carters.—A prolific and useful hardy Cucumber. Per pkt., -/6, 1/-, and 1/6
- 482 Miniature Cluster, Carters. The best for pickling or salad. Per pkt., -/6, 1/-, and 1/6 483 Prickly Ridge, Carters... Per pkt., -/6 and 1/-Per pkt., -/6 and 1/-
- 484 Stockwood, Carters ... 485 Gherkin.—For pickling ... ... ... Per pkt., -/6 and 1/-

### CHICORY.

FRENCH-Chicorée.

The Cultivation of Chicory.—Chicory is a leading ingredient in French salads, and the plant is so easily cultivated that it should be more popular here. The seed is sown in late spring, in a sheltered position on a nice soil, very similar to Carrots, the plants thinned out to about 9 in apart, and left to grow on until the end of summer, when the growth will die down, leaving a root somewhat like a Parsnip. These are taken into a slied and kept in a heap of soil away from frost, and transferred to a hothouse when needed to produce their blanched heads during winter. They may also be grown in boxes.

548 Seed ... ...

Per pkt., -/6, 1/-, and 1/6 | Roots for Foreing. Only available in Witter. ... Per doz., 7/6

### CORN.

FRENCH-Mais.

The Cultivation of Corn.—Sow thiuly during April in boxes in slight heat, harden off in cold frames before planting out at the end of May or beginning of June, in rows 3 ft. apart and 18 in, between plants. Give plenty of water until established in dry sensous.

500 Carters Improved Sweet.-This Maize is a favourite Vegetable dish in Canada, and we are now able to offer an improved type acclimatised and saved in this country. The demand is increasing as it is more widely known. The cobs are cooked and served whole, and the peculiar sweet unity flavour is so appreciated that after a trial it will, no doubt, find a permanent place in the kitchen garden, in 2 Gold Medal Exhibits of Carters Vegetables during 1914. (See Photograph.)

Per pkt. -/6. tchen garden. - Inchided Per pkt., -/6, 1/-, and 1/6

### ENDIVE.

FRENCH-Chicorée,

Two First Class Certificates awarded by the Royal Horticultural Society for our steeks of Endive,

The Cultivation of Endive. Sow for early crops in middle of May, and for succession to beginning of Angust; transplant from the seedbed into warm situations, and give protection to the late crops required for spring use. A simple method of blanching is to put an inverted pot over each plant and cover it with leaves or straw.

- 555 Model, Carters.-'The most beautiful and perfect form of Curled Endive yet introduced. It is exceedingly ornamental, of a distinct colour, and blenches admirably. Carters Model Endive was greatly admired in our Gold Medal Collection of Vegetables at the Royal Horticultural Society's Exhibition in Chelsea Gardens, May, 1913. (See Photograph.)
  Per pkt., -/6, 1/-, and 1/6
- 558 Covent Garden Green Curled, Carters.- Grown exten-Per pkt., -/6, 1/-, and 1/6
- 557 French Mossy Curled, Carters. Leaves prettily and 1/6 finely serrated.

### CABBAGE LETTUCE.

FRENCH-Laitue pommée.

The Cultivation of Lettuce.—Sow in pans on a gentle heat in February, and prick out into a well-manned and warm border. Sow again during March in a protected situation out of doors for early use, and in succession to the end of Angust for late crops. Young and tender plants may be grown in boxes or frames, and pulled and eaten when small; in this form they make a delicate salad. Water liberally in dry and warm weather.

- Holborn Standard, Carters.—A Lettuce of extraordinary size and duration. It forms well-developed heads in its early stages, and is one of the very last to start for seed. Its leaves are crimpled and crisp, while it is very tender and of excellent flavour, and will provide an abundance of salad during the hottest of English summers. 236 First Prizes reported during the past few seasons. The Royal Horticultural Society, reporting its trials at Wisley, says:— CARTERS HOLBORN STANDARD.—Hearts large, solid, crisp, good flavour, with crimpled outer leaves tinged with brown. This variety stood the drought well without running to seed." During 1913 and 1914 onr Holborn Standard was included in 6 Gold Medal collections at important Exhibitions. Award of Merit, R.H.S., 1920. (See Photograph.)

  Perpetual Carters.—Award of Merit, R.H.S., This is a large 589 Holborn Standard, Carters.—A Lettuce of extraordinary
- 598 Perpetual, Carters. Award of Merit, R.H.S. This is a large handsome Cabbage Lettuce, equally suitable for foreing and for handsome Cabbage Lettnee, equally snitable for foreing and for open ground. Its great attraction to us is its resistance to drought. It produces very fine heads of a lively green colour, and retains its crisp and tender flavour to the last, its deeply crimingled leaves giving it great substance. 26 First Prizes reported during 1920. The Royal Horticultural Society, reporting its trials at Wisley, says:—"Cartras Prapertyla.—Foliage beautifully curled; a fine stock." Some very fine specimens of this variety were contained in the 4 Gold Medal Exhibits of Carters Vegetables during 1913 and 3 Gold Medal Exhibits in 1914.

  Per pkt., -/6, I/-, and I/6; per oz., 3/-
- 592 Round-leaved, Carters.—A hardy flat-shaped variety that can be sown at almost any season. The heads are very compact and firm, solid and white; slow to run to seed. In our own trials we have repentedly seen this variety standing firm when others have bolted. This fine Lettnee was included in the Gold Medal Exhibits during 1913 at Leamington, Bristol, and Holland House Shows.

  Per pkt., -/6, 1/-, and 1/6; per oz., 2/6
- 590 Harbinger Foreing, Carters.-Valuable on account of its extreme earliness. It is not a hearting variety, but being of quick growth produces a quantity of tender leaves, which are so much in request for early salads. Awarded 3 Gold Medals at Chelsen, Holland House, and Cardiff, 1913 and 1914.

  Per pkt., -/6, 1/-, and 1/6; per oz., 3/599 Endive-leaved, Carters.—This Lettnee is quite distinct. Its leaves are deeply serrated and letiniated, which gives it the appearance of Endive-indeed, a prominent gardener suggested that it might be used in early summer salads and few could

- tell that it was not Endive. The Royal Horticultural Society, reporting its trials at Wisley, says: CARTERS ENDIVE-LEAVED. —l.caves beautifully cut and divided; a very handsome variety."

  Per pkt., -/6, 1/-, and 1/6

  Green-fringed, Carters.—Of a very delicate and peculiar
- shade of green, inner parts of the leaves being white; the edges are prettily fringed and serrated, the appearance being very striking and pleasing. Useful summer variety. Exhibited in the Gold Medal Exhibit (all Carters Vegetables), R.H.S., Holland Honse Show, 1913. Per pkt., -/6, 1/-, and 1/6
- 593 All the Year Round, Carters.—This is a superb stock, the heads being very solid, white and erisp, and slow to run to seed.
- Per pkt., -/6 and 1/-; per oz., 1/9

  S94 **Commodore Nutt.**—Compact and carly; hearts solid and of good flavour.

  Per pkt., -/6 and 1/-; per oz., 1/9

  Per pkt., -/6 and 1/-; per oz., 2/9
- 596 Continuity.-Distinct brown-tinged variety; useful for hot dry
- 596 Continuity.—Distinct brown-tinged variety; nscfnl for hot dry seasons. Award of Merit, R.H.S., 1920. Per pkt., -/6, 1/-, and 1/6
  597 Early Paris Market.—Quick growing; for frame work is one of the best; distinct tinted edge. Award of Merit, R.H.S., 1920. Per pkt., -/6, 1/-, and 1/6
  616 Golden Queen.—A very fine forcing variety and one of the best for frame work. The onter leaves are golden green, enclosing a very firm heart of particularly delicions flavour. Per pkt., -/6, 1/-, and 1/6; per oz., 2/6
  595 Grand Admiral.—Hardy; grows to good size; recommended for spring or antumn sowing. Per pkt., -/6 and 1/-; per oz., 1/3
  502 Hardy Hammersmith.—The hardiest cabbage variety; for antumn sowing it is invaluable; of compact habit. Per pkt., -/6 and 1/-; per oz., 1/3
  604 Improved Drumhead or Malta.—Grows to large size, colour light green.
  607 Mixed Cabbage.—Comprising all the best varieties.
  Per pkt., -/6; per oz., 1/Per pkt., -/6; per oz., 1/-

- 607 Mixed Cabbage.—Comprising all the best varieties.
  614 Perfect Gem.—A very solid-hearted variety. Deep green, and very slow to bolt. (See Photograph.) Per pkt., -/6, 1/-, and 1/6
  605 Tom Thumb.—Re-selected; fine stock of an old favourite. Hearts compact, solid, and crisp. Highly Commended, R.H.S., 1920. (See Photograph.) Per pkt., -/6 and 1/-; per oz., 1/8
  600 Wayahead.—A new extra early Cabbage Lettuce with large head; outer leaves light green, heart of light greenish yellow tint. Highly recommended. We exhibited some splendid specimens of this fine Lettuce, in conjunction with our other Vegetables, at York Show, 1914, and were awarded the Gold Medal.
  Per pkt., -/6, 1/-, and 1/6; per oz., 2/6

### LETTUCE.

FRENCH-Laitne Romaine.

- 617 Giant White Cos, Carters. This remarkably fine Lettuce Gart White Cos, Carters.—This remarkably fine Lettinee becomes more popular every season, and is without doubt the best and finest flavoured Cos Lettinee in entitivation. Owing to the self-folding habit it possesses, no tying is required. The heads are very solid and crisp cating. It does not run to seed as quickly as other Cos varieties. 57 First Prizes reported by customers during one season. Some remarkable specimens were greatly admired in the following exhibits of Carters Vegetables during 1913: awarded 4 Gold Medals and a Silver Cup, Chelsea R.H.S., Leamington, Bristol, and Holland Hense Shows. This fine Lettinee was staged in 36 First Prize Exhibits during 1920. See Photograph.)
- 624 Jumbo Cos, Carters. A distinct summer Lettuce of enormons size. During the hottest period of the year we have seen this Lettuce standing as firm as a rock, and many of the heads when fit to ent weighted from 5 to 6 bb. each. The Royal Horticultural Society, reporting its trials at Wisley, says:—"Folinge deep green; hearts immense, solid. Excellent flavour. Stood the drought well. Ready July 1st. The largest Lettuce in the
- maine.
  collection (39) varieties)." 72 First Prizes were reported by our
  customers in 1920. This fine Lettuce figured prominently in
  three Exhibits of our Vegetables at Eastbourne, York, and
  Cardiff, 1914, awarded 3 Gold Medals. (See Photograph.)
  Per pkt., -/6, I/-, and I/6; per oz., 3/-
- 629 Superb White Cos, Carters.-Fine large-hearting variety, blanches well, very crisp. (See Photograph.)
- Per pkt., -/6 and 1/-; per oz., 2/-621 Black-seeded Bath Cos.—Fine hardy winter variety. Per pkt., -/6 and I/-; per oz., I/6
- 620 **Dunnett's Giant Winter Cos.**—Very hardy and crisp; fine for end of summer sowing. Per pkt., -/6, 1/-, and 1/6; per oz., 2/6
- 622 Hicks' Hardy Winter White Cos. Splendid large variety for winter use. Per pkt., -/6, 1/-, and 1/6; per oz., 2/6
- 625 London White Cos. Tall growing and compact. Per pkt., -/6 and 1/-; per oz., 1/3
- 631 Mixed Cos.—Embracing the best varieties.
- Per pkt., -/6; per oz., 1/Per pkt., -/6; per oz., 1/white hearts.

  Per pkt., -/6 and 1/-; per oz., 1/3
- 630 White Cos.—Solid white hearts, Per pkt., /6; per oz., 1/-

### EEK.

FRENCH-Poircan.

The Cultivation of Leek.—Sow February to April, and transplant into trenches of well-manured soil, say 1 ft, in depth, and 20 in, between the plants. In warm weather liberal dressings of liquid manure will be of service, and the plants should be afterwards carefully earthed up to blanch the stems. For exhibition, sow in January in boxes under glass, and transplant early into rich soil.

- 637 Holborn Model, Carters.—The best both for exhibition and Holborn Model, Carters.—The best both for exhibition and table. The stems are remarkably solid, not quite so long as Carters Selected Musselburgh, of the clearest white colour, whilst the flavour is exceedingly delicate. It was a conspicuous feature in the First Prize and Champion Exhibit of Vegetables (open to the world), Shrewshury, 1912; and also included in the Large Gold Medal Exhibit at the same show. Since then it has been conspicuous in many Gold Medal Collections throughout the country. 461 First Prizes reported by customers. (See Photograph.)

  Per pkt., -/6, 1/-, and 1/6; per oz., 3/6
- . 638 Musselburgh, Carters Selected. A splendid selection of this well-known and popular variety; grows to large size, and is recommended for exhibition. (See Photograph.)

  Per pkt., -/6, 1/-, and 1/6; per oz., 2/-
- 639 **The Lyon Leek.**—A very popular large variety; widely grown in the North, where it takes many of the leading prizes each year. Per pkt., -/6, 1/-, and 1/6; per oz., 2/6
- 642 Welsh, Carters.—Fine large variety: great advance upon Welsh ordinary. Per pkt., -/6: per oz., 1/great advance upon

The above are packed in 6d. 1/- and 1/6 packets,

and in other quantities as above

# KOHL RABI OR KNOL KHOL.

FRENCH-Chon-rave.

A useful vegetable, not nearly so much cultivated in this country in gardens as it would be were its merits known. Used as a substitute for Turnips, especially in hot dry seasons. The bulb grows entirely out of the ground. Included in our Gold Medal Exhibit at York Gala Show, 1914.

Cultivation.—Prepare a breadth of good well-manned soit. Drill the seeds in rows about 15 in, apart in May, and thin out to about 9 in.

They are ready for use when they attain the size of a small Turnip.

583 Earliost Purple, Carters. - Garden Kohl Rabi.

Per pkt., -/6, 1/-, and 1/6

582 Earliest White, Carters.—Garden Kohl Rabi,

Per pkt., -/6, 1/-, and 1/6

### VEGETABLE MARROW.

FRENCH-Courge à la Moelle

The Cultivation of Vegetable Marrow.—Sow in heat during April, and transplant into highly manned bed when ready and all chances of frost are past; or sow under a hand-glass in May upon a righly-manured border.

No.

NOVELTY.

Vegetable Marrow - Custard Hybrids.--We secured from Mr. Herbert Chapman, the whole stock of his new

Hybrid Vegetable Marrows, which were manimously awarded a Silver-gilt Knightian Medal by the Royal Horticultural Society. These are the result of crossing the Custard Marrow with a small clongated form of superior quality. The distinctive flavour of the Custard parent has been retained in the hybrids, which exhibit a remarkable diversity of form. It will be found that even those varieties approximating more nearly to the clongated Vegetable Marrow are very much better flavoured than existing varieties. Our enlinary staff are manimous in their praise of the superior flavour of these hybrids. Per pkt., -[6, 1]-, and 1/6

657 **Epicure**, **Carters**, After repeated entinary trials in our kitchens, we consider this one of the best flavoured varieties in enlivation. Small specimens, cooked whole, are deticions, but in order to enjoy the full flavour, fruit should be cut when about 8 in. in diameter. As a forcing kind it is splendid, and to illustrate its prolific character, we may state that from plants which started bearing in May we have cut good fruit on September 30th, the frames having been taken off the plants during June. Fruits are green, flecked with white, habit semi-trailing. (See Photograph.)

Your Marrow *Epicure* is excellent either for forcing or mainerop ontdoors, of superior flavour and exceptionally prolific,"— Mr. W. Hedley Warren, Per pkt., - 6, 1/-, and 1/6 No.

558 Trailing White, Carters.—One of the quickest-growing varieties we know of. The fruit will extend to a great length whilst retaining all the tenderness of small young Marrows. (See Photograph.)

Per pkt., -/6, 1/-, and 1/6

- 664 Long Green Striped, Carters, —A giant prolific variety, the very best for gardens that lie in a bleak and exposed position. Included in two of our Gold Medal Collections, 1914. (See Photograph.) —Per pkt., —/6, 1/-, and 1/6
- 665 **Improved Custard.**—Curions and ornamental fruit, of fine delicate flavour. Awarded, with Carters other Vegetables, three Gold Medals in 1914. Per pkt., -/6, 1/-, and 1/6
- 667 **Large Cream.** Cream-coloured fruit, growing to large size, Per pkt., -/6, 1/-, and 1/6
- 668 Long White. For general use ... Per pkt., -/6, 1/-, and 1/6
- 639 Long Yellow. -Good flavour ... Per pkt, -/6, 1/-, and 1/6
- 661 Moore's Vegetable Cream. -Fine variety of creamy colour and of delicate flavour. Per pkt., -/6, 1/-, and 1/6
- 659 Muir's Prolific.—A distinct variety, with small globular fruit, creamy white in colonr, and solid flesh. Per pkt., -/6, 1/-, and 1/6
- 660 Pen-y-byd (The Best in the World). -A round-fruiting Marrow, creamy-white in colour; very superior. Per pkt., 6, 1/-, and 1/6

### BUSH OR CLUSTER VARIETIES.

The Bush or Cluster Vegetable Marrow is most useful for small gardens, being compact and economical in the amount of space it takes up.

672 Long Green Bush, Carters. -Fine flavour, compact birshy grower. -Fine flavour, compact birshy for per pkt., -/6, 1 -, and 1/6

671 Long White Bush, Carters.—Delicate flavour. Useful for small garden.

Per pkt., -/6, 1/-, and 1/6

# MUSHROOM SPAWN.

(CARTERS "RELIANCE" BRAND.)

Cultural Hints.—To grow Mushrooms successfully the following requirements are essential:—Procure fresh stable mannine (straw litter mannine, not peal litter), shake out well, leaving as little straw as possible; the better the mannine the better the bed will bear. After shaking out, stack your short mannine closely like as for the preparation of a hot-bed, and there let it remain for a week to have a good heating, then turn it over and place what has been outside the heap into the centre; repeat this turning at intervals of three days from turnings should be sufficiently, and if dry, use water enough to moisten it gradually at each turning; this will get the material into right condition for the beds, as moisture is one of the most important points to study, and the right texture of the material depends almost entirely moon this proper state of moisture. If you get your material right in this respect, whatever shape you make your beds, whether flat beds or ridges, you will not be likely to experience any trouble afterwards. It should be remarked here that the ideal temperature looks, but Mushrooms do come at a much lower temperature very slowly; a higher temperature than 60' should be avoided if possible. Where Mushrooms are grown continuously indoors the place should be disinfected or linewashed occasionally to prevent mildew and other injurious fungi attacking the beds.

Carters Reliance Mushroom Spawn.—1 brick, -/8, post free, 1/5; 4 bricks, 2/6, post free, 3/6; 8 bricks, 4/6, post free, 6/-;
16 bricks (1 bushel), 8/6, packing and carriage free, 10/-

Special prices for quantities. Mushroom Culture (Hlustrated) cuclosed with all orders.

CANVAS MATS FOR COVERING FRAMES, &c., are offered in the Horticultural Sundries Section at end of book.

# MUSTARD.

FRENCH- Montarde.

Mustard and Cress are two of the most popular salad plants in cultivation, being in season all the year round. They are both cultivated in the same manner,

649 Finest White, Carters. Very popular for salads.

Per quart, 3/6; per pint, 2/-; per oz., -/5
650 **Brown.**—Very pungent; the seed largely used for grinding.

### MELON.

FRENCH-Melon.

The Cultivation of Melon.-Sow for first crop in January, and plant when ready into pits or on slabs filled with good maiden loam and The Chittation of Meion.—Sow for first crop in January, and paint when ready into pits or on stabs filed with good maiden foam and well-rotted manner, adding a dressing of fine soil to the surface and bringing the plants as near the light and glass as possible. It is essential that a regular temperature be secured rather than a high degree of heat. Keep a moist biogant atmosphere during growth, and give air freely when fruit is ripening, checking the supply of water to develop flavour. The frame varieties are sown later, and kept under glass until the season is sufficiently advanced for them to be put out on a warm heap of soil in the frame.

#### GREEN-FLESHED VARIETIES.

702

Godden Green Queen, Carters.

NOVELTY.

Godden Green Queen, Carters—New Green Street Melon. Raised by Mr. F. Woodward, gardener to Mrs. decided acquisition to the green-fleshed Melons. In addition to having an exceedingly handsome appearance, it is of remarkable flavour, and has found favour wherever grown. The Photograph shows its general appearance, but the delicacy of the netting is more intense. It has all the good qualities of a first-class variety, being a free and easy setter and good grower. (See Photograph.)

'I am writing to say how pleased I am with your Melon Godden Green Queen. In my opinion it has all the good points necessary in a Melon. The fruits are large, nearly round, and beautifully netted. The flesh is pale green and of most exquisite flavour.—
J. Shielton, Gardener to Lord Hillingdon.

J. SHELTON, Gardener to Lord Hillingdon. I feel I must write you a few words of praise on the exquisite Melon Godden Green Queen, which you sent me for trial. I find site on Godden Green Queen, which you sent me for trial. I find it a very robinst grower, free setter, very finely netted, and perfect flavour. I am glad you are sending it out, for I am convinced it will become a great favourite with all Melon growers."

— L. LAWRENCE, Gardener to R. Gregory, Esq.

Extract from Kent Messenger and Sevenoaks Telegraph for August 1st, 1913 (Seal Horticultural Show): "Mr. Woodward, gardener to Mrs. Hudson, showed some very fine fruit, including a Melon of his own raising. Caldon Cean Onean which excited

a Melon of his own raising, Godden Green Queen, which excited envy among the professional gardeners," Per pkt., 1/6, 2/6, and 3/6

703 **Delicatesse, Carters.**—A new green-fleshed round variety, Delicatesse, Carters—A new green-nested round variety. This superb new Melon was sent ont by us for trial during the season 1912 as King George V. It has, however, been re-named to prevent confusion with a variety having a simular title. From all quarters we have received most favourable reports, remarking on the excellent constitution of the plants and the delicions favour of its freely produced and handsomely netted fruits. Visitors to our establishment have been delighted with this variety, which will also produce fruits of excellent quality when cultivated in frames. (See Pholograph.) when cultivated in frames. (See Pholograph.)

Per pkt., 1/6, 2/6, and 3/6

711 Earl's Favourite Molon, Carters.-Awarded the First Class Certificate, Royal Horticultural Society. This fine Melon is a strong grower, free setter, and the fruit is large and beautifully netted, whilst the flavour has been pronounced by many lovers of this luscious fruit to be the very best possible.

"I thought you would like to see a sample of your Earl's Favourite Melon. They were grown in a cool frame by myself, an amateur. I cut 42 melons off six plants. There is little doubt this is the best green-flesh Melon grown."—R. P. HUGHES, "Pro Old House." Per pkt., 1/6 and 2/6

769 Emerald Gem, Carters. Very prolific. rolific. Green-fleshed Per pkt., 1/-, 1/6, and 2/6

### SCARLET-FLESHED VARIETIES.

- 704 Blenheim Orange, Carters. The best scarlet-fleshed Melon. Awarded the First Class Certificate of the Royal Horti-cultural Society. The finest flavoured and most popular scarled-fleshed Melon in enlitvation. Remarkably profife, has a grand constitution, is a very fine setter, and may be described as a perpetual bearer, ripening in a short space of time. The frint is superbly netted, the flesh deep and solid, and a special and distinctive feature is the evenly-defined and thin rind. 114 First Prizes have been reported by customers during the past few scasons. (See Photograph.)
- 713 Gunton Searlet.-Finely netted medium fruits, thick flesh and splendid flavour, Per pkt., 1/6 and 2/6
- 712 King George. A new scarlet-fleshed variety, green skin, finely netted large fruits on strong plants. Per pkt., 1/6 and 2/6
- 716 Little Heath. Hardy, scarlet flesh. Per pkt., -/6, 1/- and 1/6

#### WHITE AND PALE-FLESHED VARIETIES.

- 710 Barnett Hill Favourite, Carters.—A superb white-fleshed Barnett Hill Favourite, Carters.—A superb white-fleshed Melon. It is superbly netted, orange-yellow in colour, with white flesh, and a splendid flavour. The raiser, Mr. A. Mitchelson, states that the Melon has a strong constitution, is a free setter, inicy and splendid flavour, above the average size, with a rich orange colour, handsomely netted, and is a grand exhibition variety. Extract from Gardeners' Chronicle:—"Melon Barsett Illal. Favourite.—The fruit of this variety much resembles Bleuheim Orange. It has a rich yellow and handsomely netted rind, but white flesh. When the variety was first sent to the Committee last year for opinion, it was decided to try it at Wisley. Plants have been enlitivated there this year, and a fruit was tasled at Wisley by a deputation from the Committee. The fruit then proved to be so good it was manimonsly granted an Award of Merit."

  Per pkt., 2/6 and 3/6
- 705 British Queen, Carters. This grand cream-flesh Melon is a cross between Hero of Lockinge and Royal Ascot, and was awarded the First Class Certificate of the Royal Horticultural Society. Pronounced by the Committee to be the very best flavoured white flesh Melon ever submitted. Also awarded a Gold Medal, Royal Caledonian Horticultural Society, in associa-
- tion with other fruit exhibited from the Royal Gardens, Windsor.

  Per pkt., 1/-, 1/6, and 2/6

  Holborn Favourite, Carters.—Fruit of the largest size, roundish ovate; rind lemon colour, heavily netted; flesh greenish-white; flavour sweet, melting, and inicy; bablt of plant strong and vigorous; a free setter and a great bearer.
- Per pkt., 1/-, 1/6, and 2/6 First Class Certificate, Per pkt., -/6, 1/-, and 1/6 714 Hero of Lockinge. Pale flesh,

### HARDY FRAME MELON.

718 Hardy Frame Melon, Carters. -It is many years since the Royal Horticultural Society awarded us their First Class Certificate for a Melon that could be easily grown without heat. In Carters Hardy Frime we offer a variety specially suitable for anateurs who do not possess the convenience necessary for cultivating the more tender Melons. The fruits are large, ribbed, and the flesh a rich scarlet colour. Everyone who has a frame is recommended to give it a trial, Per pkt., -/6, 1/-, and 1/6

### ONION.

FRENCH-Ognon.

#### STANDARD VARIETIES FOR SPRING SOWING.

The Cultivation of Onion.—The ground cannot well be too rich for this crop, nor the soil in too fine a condition. February and March are the chief seasons for sowing. The soil must be made firm before the operation is undertaken in either beds or drills. The seed should be sown thinly and covered lightly, the drills 12 in. apart, and the young Onions thinned ont to about 6 in. apart, according to the variety. In very dry weather a good watering is very beneficial. Growers of Onions for exhibition generally transplant, and this is also a sure means of checking the onion grab, so troublesome in some districts. Some of the larger growing varieties are generally sown in autumn and transplanted in spring, when each foir conditions are sensors with this conditions can be a some districts. when under fair conditions enormous exhibition specimens are obtained.

752 Ailsa Craig, Carters Sciected. We offer a very fine strain Alisa Craig, Carters Sciected.—We ofter a very fine strain of this popular onion, which, on account of its enormons size, is in great demand amongst exhibitors of vegetables. It is a good keeper, and is much liked and recommended on account of its delicate flavour. Snitable for autumn or spring sowing. It made a special attraction at the great Shrewsbury Show, being staged with Carters other Vegetables in both the Champion and Large Cold Medal Exhibits. Since then it has been awarded no less than 449 First Prizes. Awarded 10 gold medals with our Vegetable Exhibits in two years. (See Photograph.)

Per pkt., -/6, 1/, 1/6, and 2/6; per oz., 3/9

753 Record, Carters. - Continues to hold its prominent position in public favour as the largest globe-shaped Onion in cultivation. public raysar as the largest globe-shaped offion in cultivation. It can be sown either in the antimin or spring, but if large bulbs are desired autumn sowing is recommended. It shows a disposition to vary in colour in a small percentage, which can be climinated at time of transplanting. It will be remembered that a specimen, illustrated in the Gardening World, turned the scale of the behavior specially and the first of the scale of the specimen of the scale of the scal at  $4\frac{1}{2}$  lb.; this was probably the heaviest Onion ever grown. We hold records of 64 First Prizes having been gained by customers in open competition with this fine Onion during the past year. (See Photograph.)

I bought a shilling packet of your Record Onion off you last autumn, and I have now nearly 3 cwt. of splendid onions, averaging I lb. each, from the packet of seed and in splendid condition. Everyone in the neighbourhood who have seen them say they are the best lot in the district. It is only fair to you to give you this unsolicited testimonial. "—S. Hendy, Esq.

Per pkt., -/6, 1/-, 1/6 and 2/6; per oz., 3/9

747 Holborn, Carters.—Equally valuable for exhibition and for rable purposes. Perfect in shape, it grows to a large size, and is distinct in colour of skin from other globe varieties. It is a capital keeper, and the delicate flavour approaches that of the imported Spanish Onions sold by grocers and fruiterers. May also be sown in the autumn. This fine Onion was included in the Large Gold Medal Exhibit at Shrewsbury, and more recently in 3 Gold Medal Exhibits of Vegetables. (See Photographs)

graph.)
"Your Holborn Onion is a fine variety; from one onnee of seed, of which I sowed two thirds, we had upwards of 5 cwt. of splendid bulbs. I am still using them. 9—Frederick Cuilds, Gardener to Mrs. J. Wilson. Per pkt., -/6 1/- and 1/6; per oz., 3/-

748 Long Keeper, Carters.—Will remain sound the year round if properly kept. "Your Long Keeper Onion did splendidly with me last year. The name is quite right, as the bulbs kept in excellent condition."—F. MACAPLAY, Gardener to J. WH.SON. [Esq. (See Photograph.) Per pkt., -46, 1/- and 1/6; per oz., 3/6

754 White Spanish, Carters-A Re-selected Stock.-Our stock of this popular Onion has been very carefully selected by us, and is offered as the most perfect form of the Banbury type it is possible to procure. It grows to a very large size, is of a pale yellow colour, and good flavour. Some very fine specimens were exhibited by us in our Exhibit of Vegetables at Bristol, 1918, which was awarded the Royal Agricultural Society's Gold Medal and the Royal Hortienltural Society's Silver Cup.

Per pkt., -/6, 1/- and 1/6; per oz., 2/6

762 Bedfordshire Champion.—This is an old favourite with many gardeners; a splendid keeper; of mild flavour. Per pkt., -/6, 1/-, and 1/6; per oz., 2/6

755 Blood Red, Carters. Splendid deep blood-red colour, of Per pkt., -/6 1/-, and 1/6; per oz., 2/6 medium size

756 **Brown Globe, Carters.**—Fine shape and colour, good flavour.

Per pkt., -/6, 1/-, and 1/6; per oz., 2/flavour.

763 **Cranston's Excelsior.**—A fine variety, of good shape, suitable for exhibition. Per pkt., -/6, 1/, and 1/6; per oz., 3/-

766 James's Keeping.-Much valued for its long-keeping qualities, remaining hard till the following summer.

Per pkt., -/6, 1/- and 1/6; per oz., 2/3

774 **Nuncham Park.**—One of the best flat Onions; good keeper and mild flavour. Per pkt., -/6, 1/- and 1/6; per oz., 2/-

769 Rousham Park Hero. -Best described as an ennobled strain of white Spanish type ( handsome in form, mild in flavour, Per pkt., -/6, 1/- and 1/6; per oz., 2/-

776 Spring, Carters Selected.—A favourite variety for pulling small and for early salads. Per pkt., -/6, 1/- and 1/6; per oz., 1/6

775 Up-to-Date-Carters Re-selected. A very fine stock of this globe-shaped variety. Splendid for main crop use. (See Per pkt., -/6, 1/- and 1/6; per oz., 2/6 Photograph)

758 White Globe, Carters.—Good medium-sized variety, of mild flavour, Per pkt., -/6, 1/- and 1/6; per oz., 2/-

771 White Spanish. -Ordinary, Fer pkt., -/6 and 1/-; per oz., 1/6

#### PICKLING VARIETIES.

764 Pearl Pickler, Carters.-This is the gennine miniature Onion that is preserved in white vinegar, and found on the tables at the leading hotels. Included in Carters Gold Medal Exhibit at Eastbourne, 1914, Per pkt., -/6, 1/- and 1/6; per oz., 2/6 765 Covent Garden Pickling.—A splendid pickling variety, much in demand. Per pkt., -/6, 1/- and 1/6; per oz., 2;-

#### AUTUMN SOWING. ONIONS FOR SPRING 0R

These varieties, if sown in spring, will produce a good crop, but the Onions will not be so large as if sown in the autumn and transplanted.

752 Ailsa Craig, Carters Selected. -Our magnificent strain of this line Onion is unsurpassed. Fer pkt., -/6, 1/-, 1/6 and 2/6; per oz., 3/9

753 Record, Carters.—A large growing variety. As illustrated, and described above. Per pkt., -/6, 1/-, 1/6 and 2/6; per oz., 3/9

781 White Emperor, Carters. - Unquestionably the finest form of flat Onion in cultivation, with silvery white skin and flesh of a most agreeable mild flavour. Included in the Champion Gold Medal Collection of Vegetables, Shrewsbury, 1912; greatly admired in our Gold Medal Exhibit of Vegetables at the Royal Horticultural Society's Exhibition, Chelsea, 1913. During 1914 it figured prominently in our Exhibits at Cardiff, Eastbourne, and York, 3 Gold Medals being awarded.

Fer pkt., -/6, 1/- and 1/6; per oz., 2/6

782 Golden Globe Tripoli, Carters. -A large variety, similar in size to the Giant Rocca. The skin is of a transparent goldenstraw colour, and it will be found invaluable in exhibition collections.

Per pkt., -/6, 1/- and 1/6; per oz., 2/6 collections.

783 Giant White Tripoli, Carters. Especially suitable for culinary purposes and exhibition; a rather tender Onion on heavy soils; ripeus very early

Fer pkt., /6, 1/- and 1/6; per oz., 2/-

780 Autumn Giant, Carters. —A very large white-skinned Onion; mild and agreeable flavour. Per pkt., '6, 1/ and 1/6; per oz., 3/-

791 Giant Lemon Rocea. Per pkt., -/6, 1/- and 1/6; per oz., 2/6

784 Giant Rocca.-A fine large Onion. The original variety. Per pkt., -/6, 1/- and 1/6; per oz., 2/

787 Large Red Italian Per pkt., /6 and 1/ -: per oz., 1/9

788 Lisbon ... Fer pkt., /6; per oz., 1/-

790 Silver Skin ... Fer pkt., -/6, 1/- and 1/6; per oz., 2/-...

#### The above are packed in 6d. 1/- and 1/6 packets

and in other quantities as above,

Carters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19.

### PARSLEY.

PRENCH - Persil.

The Cultivation of Parsley.—Sow the seeds thinly in beds any time from February until the end of June. In dry seasons it is an advantage to water the beds, as the seeds will sometimes lie a long while dormant.

- 814 Crested Bouquet, Carters Re-selected. This superb variety has again been re-selected and improved by us, and our stock is now without question the most perfect type of Parsley ever offered, Numerons visitors to our Trial Grounds at Raynes Park have freely endorsed our opinion. It is of dwarf, compact habit, the exquisite end of the leaves giving it a very attractive crested appearance. The Royal Horticultural Society's report at Wisley reads:—"CARTERS CRESTED Bouggert Parslay.—A beautifully deep curled variety of sturdy, compact habit." (See Photograph.)

  Per pkt.,—/6, 1/- and 1/6
- 817 Perpetual, Carters. This splendid variety was introduced by us some years ago, and has attained a large sale on account of its excellent some years ago, and has attained a large sale on account of its excellent quality and its characteristic of being remarkably slow to run to seed. The photograph gives a very fair idea of the large and handsome enried leaves produced by this variety. It is rather taller and more branching in growth than our *Crested Bouquet*. (See *Photographo* Per pkt., -/6 and 1/-; per oz., 1/6

# GARDEN PEAS.

FRENCH-Pois.

Hints on Cultivation.—Early round Peas may be sown out of doors any time from November onwards, but the spring is generally the season Hints on Cultivation.—Early round Peas may be sown out of doors any time from November onwards, but the spring is generally the season when the largest quantities of both early and maincrop Marrow Peas are put in, extending to June for the latest crops. They thrive best in ground that has been deeply trenched and manured for a previous crop. The seeds should be plauted from 1½ to 3 in, deep, in either single or double rows, and the taller varieties must be staked when they are from 4 to 6 in, high; the taller kinds should not be less than 6 ft, apart in rows, and the dwarf varieties half this distance. Peas will stand a good deal of drought if the roots find their way into some nice rich material.

## FOR FORCING OR BORDER WORK.

No. 872 Eight Weeks, Carters (Green Round. 11t. 14 ft.).—This is THE EARLIEST DWARF PEA IN THE WORLD, proved not only from our own trials, but from the expert reports we receive from time to time. A very hardy Marrowfat, possessing all the good points of the best type American Wonder, which was one of its parents. As both a foreing and an early border variety it has parents. As both a toreing and an early border variety it has become a boon to gardeners whose demands are heavy early in the season. The seed is slightly dented, and of the same colour as its other parent William the First. The pods are freely produced, and well filled with sweet-tasting pens. It is a splendid forcer. Per ½-pint, 1/6; per pint, 2/6; per quart, 4/6

No.

873 Forcing Pea, Carters (Wrinkled Marrowfat. Ht. 1 ft.).—

A valuable Marrowfat Pea for under-glass enture. Its stocky growth is rarely more than 1 ft. in height. It commends itself to worder with the required to worder. not only to professional gardeners who are required to produce peas nearly the year round, but also to amateurs having a greenpens agains the year found, but also to amateurs naving a green-house or vinery doing practically nothing during the winter mouths, and who can, with this stardy Pea, raise supplies for their table very early in the year. Per \$\frac{1}{2}\$-pint, 1/3; per pint 2/3; per quart, 4/3

# EARLIEST GARDEN PEAS.

887 **Daffodil, Carters** (Wrinklet Marrowfat, 11t, 1½ ft.).—A dwarf and very profile Marrowfat Pen with the highest possible

NEW MODEL SELECTION.

New Moder and the New types of English Wonder and the new types of English Wonder. It is a first early of bushy Wonder in the necessity for sticks and rendering it serviceable for borders. Its pods are larger than most of the well-known Peas of the early dwarf class, while the quality and flavour of the Pea is delicions. A well-known gardener reports that it forces well. Per ppint, 1/6; per pint, 2/6; per quart, 4/6

- 875 Early Morn, Carters (Wrinkled Marrowfat. 41t. 3 ft.) -A SUPERB FIRST EARLY GLANT MARROWFAT. This grand introduction maintains its position as one of the best early Marrowfat Peas ever raised. Although very early, the seed should not be sown until the soil is in a fit state to receive it in April, as it is a rapid grower. The pods are very large and well filled, and are often ready to pick during June. (See Photograph.) Per ½-pint, 1/6; per pint, 2/6; per quart, 1/6
- 874 Giant Lightning, Carters.-It is now many years since Giant Lightning, Carters.—It is now many years since our House first introduced Carters Lightning (white round) and Carters Express (blue round), two Peas which soon became popular as the earliest of the white and blue round section, After several years' patient labour we introduced the magnificent Peas Giant Lightning and Giant Express. There is no doubt that these types displace the smaller podded varieties, as, in addition to the increased size of pod, the hanlm is stronger, the cropping properties are much heavier, and the flavour is superior to the older varieties. In large establishments where Peas are required very early, these grand Giant introductions will be much appreciated, as it is well known that the round Peas are hardier and generally can be sown earlier than the wrinkled Marrowfat varieties. than the wrinkled Marrowfat varieties.

886 Early Duke, Carters (Wrinkled Marrosefat. 11t. 3 ft.-

### NOVELTY.

Blue Express + Duke of Albany

Early Duke

11CW and absolutely distinct first early. This unique variety, selected from a cross as shown nt side, is offered after several seasons tests, both at Raynes Park, Mortlake,

at Raynes Park, Mortlake, and the grounds of the leading growers throughout the conntry. For quality it is unequalled, the foliage and pods being of an exceptionally deep rich green, being fit to pick about the same time as Carlers Early Morn. It forces well, and is then several days before that well-known variety. The distinct and handsome pods are not quite so large as Early Marn, but contain peas of exceptional colour and quality. The remarkably prolific habit is the main feature of this grand first early, which we claim is the most distinct and striking first early Marrowfat introduced for many years.

NOTICE.—Our Stock of Seed this year is again very limited, and to give as many of our customers as possible the opportunity of growing this very fine Pen, we are distribut-ing the seed IN 1/- PACKETS ONLY. 902 Earliest of All (Blue Round. ### SECOND EARLY PEAS. GARDEN

924 Daisy, Carters (Wrinkled. 11t. 15 in.)-The most famous second early Marrowfat in cultivation. This grand dwarf Marrowfat Pea has been before the public for some years, and still stands at the head, as confirmed by the great independent trial of Peas conducted by the Royal Horticultural Society.

Their experiment comprised over 80 varieties, and Carters Over 80 varieties, and Carters Dates with the life these

Awarded First Class Certificate, R.H.S.

Daisy gained the First Class Certificate given by the Society. Carters Daisy Pen is an early maincrop, growing about 11 ft. high. The hanlin is very

robust, and the crop of giant, well-filled pods of good colour is enormous. An excellent forcing Pen.—"Carrer Datay Pea. So many satisfactory accounts have been given in these pages of this variety of Pea that it may seen superfluons to again write its praise, but having grown it for several seasons I can confidently recommend it as one of the best second early dwarf varieties at the present time. It is of robust growth, teaching nearly 3 ft. in height last year, but in ordinary summers the plants do not get unuch above 2 ft., and are literally crowded with line pods nearly 6 in, long, each containing from eight to ten fine peas of excellent flavour. I have been much impressed by the length of time the pods will hang without getting dry, having saved the crop for seed. The pods are usually borne in pairs, and the raisers are certainly to be congratulated upon giving us such a good Pen. I advise those who have not yet grown this Pen to procure a quart of seeds from the raisers and sow as soon as the state of the soil will allow, and I will vouch for it they will not be disappointed."—Mr. J. MANNE, in the Gardeners' Chronicle. (See Photograph.)

## MAINCROP GARDEN PEAS.

No. 961 Buttercup, Carters (Round Blue, 11t, 1½ to 2 ft.).—A hardy type of *Daisy* Pea. May be described as an early maincrop; fine robust habit, long well-filled pods, produced in pairs, averaging ten peas in each; remarkably free bearing. The large aging ten peas in each; remarkably free bearing. The large deep-green seed, which is almost round, retains the sweet marrowfat flavour when cooked. This fine Pea was much admired in our Gold Medal Exhibit at Leamington, 1913, and also at Bristol Royal Show, where we were awarded a Gold Medal and Silver Cup.

Per ½-pint, 1/6; per pint, 2/6; per quart, 4/6

962 Commonwealth, Carters (Wrinkled Marrowfat. 2 ft.).—We have a most perfect re-selected stock of this popular maincrop Pea. It is a strong grower and a prolific bearer of large exhibition pods of a fine deep colour, besides being a first-cluss table Pea. Strongly recommended. (See Pholograph.)

Per ½-pint, 1/6; per pint, 2/6; per quart, 4/6

955 Duke of Albany, Carters Re-selected (Wrinkled Marrowfat. 11t. 5 ft.). A great advance on the original stock, Marroweld. III, 5 ft.). A great advance on the original stock, the pods being straighter and longer, and should be grown by all who know the original variety. The Royal Hortienthural Society, reporting its trials at Wisley, says:—"Carters Dukk OF Albany Resultered. Dukk Of Albany received an A.M., Inly 5th, 1901. This is a fine true stock of this now well-known excellent variety.

excellent variety."

Per 2-pint, 1/6; per pint, 2/6; per quart, 4/6

953 Exhibition, Carters (Wrinkled Marrowfat, 11t. 5 ft.)-Seed Exhibition, Carters (Wrinkled Marrowfut, 11t. 5 ft.)—Seed large, green, and wrinkled. A magnificent Pen, the result of a selection from Carters Model Telephone, the selection having been made for the purpose of obtaining an Exhibition Pen possessing all the good points of that celebrated variety, but bearing even a larger and richer-colonred pod. We claim that in every respect we have been successful. This superb variety bears junnense tich deep-green pods, perfect in shape, and well filled with large green peas of excellent flavour. 78 First Prizes reported during 1920. 18ce Photograph.)

Per ½-pint, 1/6; per pint, 2/9; per quart, 5/-

950 Harvestman, Carters (Wrinkled Marrowfal. 41t. 5 ft.) .-This grand Pen, which is a cross between Express and Duke of Albany (Seedling No. 214), possesses all the qualities of

Express + Duke of Albany

Carters Harvestman

So tall, and altogether superior.

Award of Merit,

R.H.S.

Raybury Carters Harvestman

Possesses all the qualities of Duke of Albany, but the pods are distinct in shape, more regular in growth, not quite appearance and cropping or any of a similar class, and we are confident that there is a great future before it. For market or garden it is a most profitable Fea. (SeePhotograph.)

1'er ½-pint, 1/6; per pint, 2/9; per quart, 5/-

952 International, Carters (Wrinkled Marrowfat. 18t. 5 to 6 ft.).-This magnificent Pea is the result of a cross between Early Morn+Duke of Albany

our well-known Early Morn and Duke of Albany. It is quite distinct, both in shape of pod and habit; the pods are Carters International of pot and name; the pools are of a richdeep green, containing eleven peas of excellent size and flavour. This is undoubtedly the largest enryed pol Marrowiat Pea at present offered to the public; it is quickly becoming the most famous early mainterop. Pods of this variety (under Seedling No. 211) were exhibited at

the Royal Agricultural Society's Show at Newcastle, and at the Royal Horticultural Society's Show at Holland House, and attracted much favourable attention. Included in the large Gold Medal, Exhibit, Shrewsbury, 1912.

Award of Merit, R.H.S.

"I grew this variety last year and was greatly impressed with it as a first-rate cropping sort, and it has fully maintained this

season the high opinion I formed of it then,"-Mr. G. Taylor, Head Gardener to Sir J. F. Ramsden, Bart.

NOTICE.-Our Stock of Seed this year is again very limited, and to give as many of our customers as possible the opportunity of growing this very fine Pea, we are distributing the seed IN 1/- PACKETS ONLY.

No. 951 Quite Content, Carters.—A giant-podded maincrop, deep green. Pods longer and larger than any other Pea in cultivation.

Awarded First Class

Certificate of the Royal
Horticultural Society.

Pods are considerably larger than any other Pea in cultivation.

Awarded First Class of the Royal Horticultural Society. It, 5 to 6 ft, This grand Pea, which has caused such a stir in the horticultural world, is the outcome of a cross ketween Alderman and Edwin Beckett. In general character it resembles the former, but the product of the Royal Horticultural world, is the outcome of a cross ketween Alderman and Edwin Beckett. In general character it resembles the former, but the product of the Royal Horticultural Society.

trials it has amply demonstrated its wonderful superiority, and when exhibited in the open class at Shrewsbury, it easily secured

the First Prize, and was pro-nounced by leading experts to be without doubt the finest Pea ever seen. It is exceedingly pro-lific, and the pods hang mostly in pairs. During the past few seasons this magnificant Pea has

SEE PHOTOGRAPH. PAGE 37.

in pairs. During the past few sensons this magnificent Pea has been included in exhibits awarded 12 Gold Medals and a total of 746 First Prizes reported by customers in all parts of the country.

THE LARGEST PODDED PLA.—"I have tried Carters Quite Conlent Pea, which is without doubt the largest podded Pea I know of,"—Mr. JAMES GIBSON, Head Gardener to His Grace the Duke of Portland.

AN AMATEUR'S DESCRIPTION.—" Von have been kind enought to highly commend my garden peas Quite Content. They were sown in a box and put in a deeper one with an odd piece of glass over the top. When up a few inches were hardened off and planted in the open ground about 12 inches, about on baster Saturday, 22nd April, 1916. As you know, I have had no experience with vegetables at all, but cultivate flowers rather well for an amateur. The row is 12 yards long and had 51 pen plants, afterwards reduced to 47, 4 went wrong. The enclosed photograph was taken on July 22nd. Owing to the light it could only be taken one side of row, the other side has twice the crop. They grew 10 feet high when they were pinched at the top and cropped from 2 feet npward as thick as they could hang. No side shoots or laterals were removed, peas were picked July 12th. AMATEUR'S DESCRIPTION .- "You have been kind enough cropped from 2 feet upward as thick as they could hang. No side shoots or laterals were removed, peas were picked July 12th, 15th, and 22nd, and there is still an immensecrop. Laterals keep flowering and carry large pods. I took them to Elstree Show on July 12th, when the judges informed me they were the best in the tents. These pods nearly all measured 7 inches and quite full. The majority are 6½ to 67 inches. "T. E. E.XMES.

# LATE GARDEN PEAS.

1004 Dreadnought, Carters (Wrinkled Marrowfat. Ht. 3 ft.).— This remarkable new late Pea has been selected by us as a This remarkable new late Pea has been selected by us as a grand edition to the late maincrop section. It is the practice of our house to make comparative tests of all the new Peas introduced by growers both at home and abroad. After careful comparison we have failed to find a Pea that pleases us more as a variety to come in between the maincrops and the very late Peas than Dreadmought. It has large bold pods well filled with Peas of delicious flavour. We have been instrumental in introducing many Peas which have become standard varieties, such as Tetephone, Telegraph, Stratagem, Pride of the Market, and Daisy, known all over the world, and we undertake to prophesy that this novelty is destined to take an equally permanent place, not only among amateurs, exhibitors, and comnoissents at the table, but also as a profitable market Pea. Its large, deep green, well-filled pods, and its resistance to mildew and drought, are its distinguishing characteristics. distinguishing characteristics.

1006 Michaelmas, Carters (Wrinkled Marrowfat. Ht. 21 ft.). i Michaelmas, Cartors (Wrinkled Marrowfat. Ht. 2½ ft.).

—This grand Pea quite oversteps the boundary hitherto set by the times and seasons, and is absolutely distinct. Late varieties of Peas of past fame have been late mainly by reason of their strawy character. The constitution of Carters Michaelmas Pea is not run through in straw, but we have fixed a dwarf bushy growth of 2½ ft., which holds back its natural force and throws it into the pods: consequently, while being very prolific, its colour in pod is of the deepest green, and its pods are large and well filled. We have proved this Pea to possess a reserve of strength which will enable it to resist the drought and the mildew to a degree hitherto unknown in a Pea. The Royal Hortienthral Society, in its report of trials at Wisley, says:—"Carters Michaelmas,—III. 2½ ft.; hanhu and pods very dark green; very sturdy; pods in pairs; henvy crop."

Per ½-pint. 1/6; per pint, 2/6; per quart, 4/6

H03 Round.—For summer use. Per oz., -/6; per pint, 3/-

## SALAD PLANTS.

Everyone should enjoy the pleasure of salad several days a week, at all events during the summer season, with but trifling expense. It is a wholesome addition to more substantial diet, rendering it grateful to the palate, and it is a pity that it is so rarely brought to the average table. We enumerate a few (some almost unknown), with cultivation notes.

Something like Watereress. See Cress, page 17. Per pkt., -/6

something like Watercress. See Cress, page 17. Per pkt., -/6

Bect.—See page 11.

422 Celeriae, Carters Improved (or Turnip-rooted Celery).—

Pure white root, refined flavour. It is now becoming popular in this country. Seeds should be sown in pans in March, and the plants set out in shallow trenches to mature. Pkt., -/6 & 1/
1300 Chervii is used for seasoning some and mixing in sadads. It is grown from seed sown in spring and in summer for successional crops. The soil should be rich and light, and the bed 4½ ft. wide, with an alley on each side. Sow seed in shallow drills across the bed, 9 in, apart, and rake over the surface. When the leaves have grown an inch or two, cut off for use as required.

Per pkt., -/6

when the leaves have grown an inch or two, cut off for use as required.

548 Chicory.—The majority of people know Chicory as an adulterant of Coffee, but few are aware of the part it plays in the salad bowl, to which it adds a pleasing flavour. Chicory is so easily grown and so useful, that it should receive more attention from amateurs who desire to grow salads. This plant is sown in late spring in the open ground, and thinned out to about a foot apart to grow through the summer, well watered in dry weather. With the change to a colder senson, the leaves decay and nearly all drop off. The roots are then lifted, and a few at a time placed in boxes of rich sandy soil, leaving grown well above the surface. After a good watering these boxes are stored in a perfectly dark place, and in a few weeks, according to the heat, some nicely blanched leaves will be fit to gather. More roots, kept in a cool place until wanted for bringing along in heat, may be similarly treated.

1319 Whittoef is a distant variety of Chicory largely grown in the suburbs of Brussels, and chiefly noted for the quality of its leaves.

Chicor is a basile perganial found in rocky medius. It is Per pkt., -/6 cory as an

leaves.

Chives is a hardy perennial found in rocky pastures. It is grown in gardens for its leaves, as a substitute for early onions. Propagate by dividing the roots into chunps in spring and antumn, and plant from 8 to 12 in, apart. The leavest obe tender and succeilent should be offer and

antumn, and plant from 8 to 12 in, apart. The leavest to be tender and succentent should be often ent.

Plants each -/9

B301 Corn Salad or Lamb's Lettuce.—This is a hardy animal, and is in great demand as a salad plant on the Continent. In France it is preferred, admired, and relished in winter and spring, instead of Lettuce, but not nearly so highly appreciated in Britain as it deserves. But when Endive is scaree Corn Salad is of great service, and for early use should be sown in frames or in boxes and placed in slight heat. For summer use it may go on the border or in lines in a sunny spot, amongst the ordinary low-growing vegetables.

Per pkt., -/6

Crcss.-See page 17. Cucumber.-See page 21,

1302 Dandelion.—The common Dandelion is a useful salad plant, pandenon.—The common pandenon is a userm smart pand, especially when Endive and Lettuce are scarce in winter. The roots are grown in a similar manner to Chicory, and large quantities of the blanched leaves are sold in the markets for this esculeut. Per pkt., -/6

Endive. -See page 21. Lettuce.—See page 23.

Mustard.—See page 25.

Nasturtium, of which the green seeds make a delightful salad. This plant is both a dwarf and a climber, and very ornamental as well as useful. The flowers are often used in salads, occasionally for decorating, and the leaves and young green plants are frequently pickled.

Per pkt., -/6 and t/-

Purslain is a succulent plant and raised from seed, which may be sown in light garden soil in March on a warm sheltered border in a bed, and attended to in the same way as for Chervil.

Radish.—See page 43,

1311 Rampion.—A plant producing a spindle-shaped root of light colour and of agreeable flavour. It may be raised from seed if sown in a bed in an open warm aspect, and in soil of a rich compost, of a light open texture. Water well in dry weather Should the season prove mild, the plants will be ready for use in Mayoundar. Per pkt., -/6

November.

Shallots.—The Shallot is much in favour as a relish for somps and for pickling. Offsets are often planted in the antinum, but the main crop is usually got in early in the year. The bulbs may be planted at any suitable time during this period, 12 in, between each row, and 6 in, from set to set. The bulbs should be firmly pressed in just beneath the surface of the soil, and here they remain. As the growth matures in the spring, gently draw away the soil round the bulbs when they have become established, and if they look sickly, apply soot to the surface soil for maggots, and use the hoe for weeds. Lift, dry, and store erop as soon as ready, probably the end of June. and store crop as soon as ready, probably the end of June.

No. 1111 Carters Sunrise Tomato in Canada.

Centlemen —I am enclosing herewith photograph showing a row of Carters Sunrise Tomato grown by the writer from your seed. You will notice that the plants are all trimmed to a single summand grown in the open at Montreal West, and each plant has practically the same quantity of fruit on it. There is about 16 lbs. of fruit to a plant. The observative will give you some bious so to the quantity of fruit hat it should be pointed out that there is the same amount of fruit on the other side of the plant. I might mention that the photo shows a small pertion of the Championship sarden of Montreal West, editivated by the writer. —Yours truly. Signed) GEO. L. LEIGHTON

# TOMATO.

FRENCH-Tomate.

The Cultivation of Tomato—Sow seed in February and March, and transplant into pots to harden off; afterwards plant out against a south wall in good soil; or they may be planted in a warm border, and carefully staked to keep the plant and fruit from straggling on the earth. If a suppose the battest part of the suppose.

## RED VARIETIES.

No.
IIII Sunrise, Carters.—First Class Certificate, R.H.S.—indoor Sunfise, Carters.—First Class Certificate, K.H.S.—indoor cultivation, F.C.C. confirmed as Outdoor variety after growth at Wisley. An extensive trial of Tomatoes was made by the Royal Horticultural Society, 71 varieties being sent in by the leading houses. The only First Class Certificate was given to Carters Sunrise, and the following note is attached to the report:—"Tomatoes have reached such perfection that it is now very difficult to raise a variety superior to those already in very difficult to raise a variety superior to those already in commerce. In this trial only one stood out as being of ex-

R. H. S.

ceptional value, viz., Sunrise, It is some time since such a high honour has been granted to a Tomato.

QUALITY IS UNSURPASSED,-"I have grown your Sunrise QUALITY IS UNSURPASSED.—'I have grown your Sunrise Tomato since first it came out, and I consider it the best Tomato ever sent out. It is earlier than most, no trouble to set, nice even size, and very heavy cropper. Above all, the quality is misurpassed.'9—Mr. W. H. Blake, Head Gardener to the Right Hon, the Earl of Ouslow,

FINEST I HAVE SEEN.—"We have just finished Sunrise. It is a capital Tomato, a wonderful setter, fine quality and flavour. They are the finest lot I have ever seen."—Mr. E. BECKETT. Head Gardener to the Hon. Vicary Gibbs.

"Your Tomato Suorise has done splendid; as a winter cropper it has no equal. 'Xims week 1 gathered 30 lbs., to-day have gathered 12 lbs., could easily have gathered a bushel had they been required. The fruit is of the richest colour and flavour. I wish you could see them. Several people have seen them. Their first enquiry is, 'What is the mane?' "—Mr. J. J. Thompson, Cardoner to His Grace the Duke of Devonshire Comoton Place. Gardener to His Grace the Duke of Devonshire, Compton Place.

THE CHIEF POINTS IN SUNRISE ARE-

ITS EARLINESS.—It ripens several days earlier than most

ITS CROPPING PROPERTIES.—See Photograph and Testimonials.

Its Healthy and Robust Constitution.—No trace of disease,

ITS PROLIFIC CHARACTER.—See Photograph.

ITS SOLID BUT DELICATE FLESH.—Contains very few seeds and practically no eye.

ITS EVENNESS OF SIZE as a dessert fruit,

ITS BRIGHT SCARLET COLOUR and rich acid flavour.

Its Equal Value for Indoor or Outdoor Cultivation, GOLD MEDAL, Bristol, 1913; Learnington, 1913.

Sunrise, Carters.—The finest Tomato for indoor or ontdoor cultivation. Per pkt., -/6, 1/-, 1/6, and 2/6

No.
1112 Duke of York, Carters.—Awarded the First Class Certificate Duke of York, Carters.—Awarded the First Class Certificate of the Royal Horticultural Society: included in three Gold Medal Collections during 1914. This grand variety still holds a very high position in public favour. Colon rich scarlet, splendid cropper, almost globular in shape; flesh very firm, fine flavour. A leading feature of this superb variety is that it ripens its fruit with the most pronounced uniformity, whilst the profusion of clusters, averaging six and ten evenly-formed fruit each, makes it conspicuously handsome. These clusters contain variously sized fruits, large and medium, both for the table and exhibition. It can be grown in the open, but does not ripen so quickly as our Outdoor variety. Invaluable as an exhibition variety as for private growers and market purposes. 46 First Prizes reported during the past season. (See Photograph, page 44).

"Corters Duke of York Tomato has been grown by us for several years, and we have won many prizes with it, and consider it the Tomato for all purposes,"—Mr. W. L. Bastin, Head Gardener to the Right Hon, Lord Faringdon.

I have been most successful with your Duke of York, having taken First for the past four years at Strannaer Show."

Mrs. Cowan.

Per pkt., -/6, 1/-, 1/6, and 2/6

- 1115 Perfection, Carters Quite distinct from any other variety named *Perfection*. It is very handsome in form, distinct in colour, exceedingly prolific, and of exquisite flavour. 156 First Prizes reported. (*Photo, page 44.*) Per pkt., -/6, 1/-, 1/6, and 2/6
- III3 Outdoor, Carters. -This variety readily fruits under the warmth of a sonth wall, or along the front of a greenhouse, in any situation where the full influence of the sun is felt and away from cold winds. In shape the fruit is not so round as our *Duke of York* or *Sunrise*. Per pkt., -/6, 1/-, 1/6, and 2/6

1127 Comet—Good flavour ...Per pkt., -/6, 1/- and 1/6

1131 Large Red ... Fer pkt., -/6, 1/-, and 1/6

1119 Market Favourite, Carters. -Well known; fine fruit and Per pkt., -/6, 1/-, and 1/6

1123 Peach, Carters. -A curious variety, quite distinct from any other sort grown; quite peach-like in appearance, Per pkt., -/5, 1/- and 1/6

1122 **Plum, Carters.**—Phun-shaped, of prolific habit and good flavour.

Phun-shaped, of prolific habit and good Per pkt., -/6, 1/-, and 1/6

1121 **Red Cherry, Carters.**—A very prolific variety, about the size of a cherry, Per pkt., -/6, 1/-, and 1/6

1124 Red Currant, Carters.—Smallest growing variety, hanging in long trusses; very pretty for decorative purposes,

Per pkt., -/6, 1/-, and 1/6

## YELLOW VARIETIES.

1147 Golden Sunrise, Carters. -As in the case of its famous prototype, Carters Red Sunrise, this splendid yellow variety has been awarded the First Class Certificate by the Royal Hortienthral Society during 1916—true evidence of its superior qualities. It is a heavy cropper of handsome medium-sized

First Class Certificate, R. H. S.

fruits. The flavour is remarkably good, being slightly more acid than red varieties. This Tomato is now becoming ex-

ceedingly popular. Per pkt., -/B, t/-, 1/6, and 2/6

1113 Blenheim Orange, Carters.—We raised and introduced this extraordinary Tomato, a curious cross between the red and yellow. Gathered when quite ripe it is fuscious and iniev, and vellow. Gathered when quite tipe it is inscious and phic, and the nearest approach to the flavour of a plinit. It contains very few seeds. Per pkt., -/6, 1/-, 1/6, and 2/6

1148 Greengage, Carters.-Introduced by us, and the first of the golden section of any value. Awarded a First Class Certificate by the Royal Horticultural Society.

Per pkt., -/5, 1/-, and 1/6

1150 Large Yellow.—A fine large variety; has special merits.

Per pkt., -/6, 1/-, and 1/6

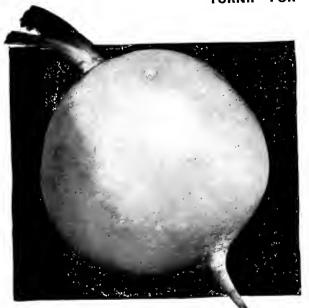

1149 Yellow Cherry, Carters.—Companion variety to our Red Cherry, Colour, bright yellow. In our opinion this yellow variety equals for flavour any of the red kinds that we have Per pkt., -/6, 1/-, and 1/6

# TURNIP FOR THE GARDEN.

FRENCH-Navet potager.

The Cultivation of Turnib.—Sow varieties for early use the first week in March on a gentle hotbed under glass, and later in a warm situation in the open border. For main succession crops, sow every three weeks in the open ground until the beginning of July. For winter use sow early in Angust and again in September.

- F Signifies suitable for framework, also general garden sowings.
- W Those varieties most suitable for winter use.

1158 Early Long Foreing, Carters (F).-Quite a distinct Turnip for frame or ondoor work. Pure white flesh, and of a most deficate flavour. It matures very rapidly, and is fit for table sooner than any other Turnip. Award of Merit, R.H.S., for roots sown in cold frame March 6th and exhibited May 8th. During 1913 and 1914 this fine introduction was included in 6 Exhibits of our Vegetables in different parts of the country, and awarded 6 Gold Medals. (See Photograph.)

Per pkt. -/6; per oz., -/10; per 2 oz., 1/6
Little Marvel, Carters.—A New Early White Turnip.

A cross between Early White Milan and Iersey Lity. This

A cross between Early White Milau and Jersey Lity. This is a highly re-selected stock, the tendency to flatness in some of the roots having been entirely eradicated; the tops are small and compact. It is undoubtedly the quickest white globe-shaped Turnip in enlitvation. Flesh crisp and solid, and, as aptly described by one of our customers, is a little marvel." Very distinct in both limbit and foliage, and is a splendid table Turnip. The Royal Hortienltural Society, reporting from its trials at Wisley, says:—"Carters Little Marvel." Turnip.—White, round, handsome: foliage short and sturdy. A very early variety that should be valuable for forcing." This remarkable cross-bred Turnip closely follows the Milan, and is considerably forwarder than Jersey Lity. It has become popular with gardeners for early work, as it is as good as it looks. 36 First Prizes reported during 1920, and included in three Gold Medal Exhibits. (See Photograph.)

Pet plet.—8; per oz.,—9; per 2 oz., 1/4; per pint, 4/9 White Milan, Carters (P)—This is an exceptionally fine selected stock, strongly recommended for early gurden work.

selected stock, strongly recommended for early garden work, It is as quick as a Radish, clean in growth, and of very fine flavour. This fine Tarnip was included in our Gold Medal Collections of 1913 at Bristol and Chelsca Shows. (See Photograph.)

Per pkt., -/6; per oz., -/9; per 2 oz., 1/3

1166 Jersey Lily, Carters.—The most perfect in outline and the best white garden Tarnip grown.

best white garden Thrnip grown. In shape as round as an orange, of exquisite flavour, with single tap root, and very distinct small top. Awarded Large Gold Medal, Shrewsbury, 1912; two Gold Medals, 1914. Its First Prizes reported by enstoners this past season. Per pkt., -/6; per oz., -/9; per 2 oz., 1/4 winter Turnips. Elesh of a rich golden-vellow colour, with

winter Turnips. Flesh of a rich golden-yellow colonr, with single tap root; flavour most delicate and melting. Awarded a Special First Class Certificate of the Vegetable Conference of the Royal Horticultural Society, included in the large Gold Medal Exhibit, Shrewsbury, 1912, and more recently in our exhibit at Bristol, 1913, which was awarded the Gold Medal and Silver Cub. Awarded at Easthourne, 1914, Gold Medal. Silver Cup. Awarded at Eastbourne, 1914, Gold Medal.

# FRENCH INTENSIVE CULTURE.

One of the great advantages of the French method of intensive cultivation of vegetables under bell glass or in frames is that the produce is the of the great any antages of the French method of intensive endivation of vegetables under being assor in frames is that the produce is leady for the kitchen or the table in succession, and at periods of the year when under ordinary enlitivation it would not be available. Garden produce out of senson is always an attraction. For instance, Celery Self-blanching, which requires no banking up, is ready in July and Angast, The following selection is based upon the experience of French maraichers, both in France and in this country.

Carrot.-No. 1426. - Paris Forcing Round. (Rouge à forcer Parisienne.)

NEW.

# CARTERS HAND-PICKED SEED POTATOES.

Our stocks have been grown and selected with the ulmost vigilance, and under normal conditions of soil and situation will produce first-class crops. Our crops are specially grown for seed purposes; that is to say, they are not over-fed for the sake of producing enormous tubers. They are kept true to name and description.

Potato Orders are often held back on account of frost and other risks of lifting and transit, but we choose the earliest opportunity for dispatching, and no unnecessary delay will be occasioned.

## IMMUNE VARIETIES.

The varieties indicated below as "Immune" are recommended by the Board of Agriculture and Fisheries as being immune from the Wart disease and can be planted on infected land.

## THREE BEST POTATOES.

First Early,—Carters Early Favourite. Award of Merit, R.H.S. Mid-Season.—Carters Royalty, Awarded Silver Medal for best white potato at the National Show. Main Crop.—Carters Longkeeper, Award of Merit, R.H.S.

# CARTERS SELECTED EARLY POTATOES.

\* For Frame and Early Border Use.

Advancer, Carters (Pebble Shape, White Flesh).—Smooth skin, medium haulm. In the trials of the Royal Horticultural Society medium haulm. In the trials of the Royal Horticultural Society a few years since this variety was one of the very few that were selected for fine appearance and good cropping qualities. A heavy producer on all good garden soils, and particularly valuable on light soils. Included in our Gold Medal Collection, Leamington, 1913. (See Photograph.)

Per 14 lb., 8/-; per 28 lb. 15/-; per 56 lb., 27/-

Arran Rose (Oval, White Flesh).-This new Scotch variety is a great improvement on the old Early Rose, being very shallow in the

eyes, a nice size tuber, and of good cooking quality. (IMMUNE.)
Per 14 lb., 8/6; per 28 lb., 16/-; per 56 lb., 28/\*\*Puke of York (Oval, Yellow Flesh).—Very prolific. Recommended for all soils; especially heavy.
Per 14 lb., 8/-; per 28 lb., 15/-; per 56 lb., 27/Early Favourite, Carters (Oval Shape, White Flesh).—
Included in the Large Gold Medal Exhibit, Shrewsbury, 1912, and displayed in our Gold Medal Exhibit at Leamington, 1918. A smooth-skinned Potato, with medium haulm; lirst-class cooker from light and medium soils. This Potato is of great service where shace is limited, for it can be due in an ordinary season in where space is limited, for it can be dug in an ordinary season in July. (See Photograph.)

Per 14 lb., 8/-; per 28 lb., 15/-; per 56 lb., 27/-

Early Puritan (Kidney, White Flesh),—Fine early Potato. Good eating quality. Per 14 lb., 7/6; per 28 lb., 14/-; per 53 lb., 25/-

Eclipse (Oval, White Flesh) .- Good heavy cropper on all good Per 14 lb., 7/3; per 28 lb., 13/6; per 56 lb. 24/garden soils.

**Epicure** (Round, White Flesh).—Useful for digging early.

Per 14 lb., 7/-; per 28 lb. 13/-; per 56 lb., 23/-

NEW. (IMMUNE.) Edzell Blue (Round, White Flesh).-Skin reddish purple; strong, heavy cropper; excellent quality, cooking pure white. Per 14 lb., 7/-; per 28 lb., 13/-; per 56 lb., 23/-

Express (Oval, White Flesh).—Very early. Splendid quality. Per 14 lb., 7/6; per 28 lb., 14/-; per 56 lb., 25/-

\*First Crop, Carters (Kidney, Yellow Flesh).—A perfect type of forcing or Frame Kidney Potato. The hanhu is compact, and the tubers come in remarkably quick when grown in frames or pots. They are beautifully shaped. Fine specimens were exhibited in our Gold Medal Collection, Lemmington, 1913. Per 14 lb., 8/-; per 28 lb., 15/; per 56 lb., 27/-

\*Immune Ashleaf.—This year we are able to offer an immune variety of this well-known heavy cropping early kidney potato. Stock very limited. (IMMUNE.) Per 7 lb., 7/6; per 14 lb., 13/6

May Queen (*Kidney*, *White Flesh*),—First-rate cropper. Per 14 lb., 8/-; per 28 lb., 15/-; per 56 lb., 27/-

Midlothian Early (Oval. Yellow Flesh). — Specially recommended for early crops and for frame work, Per 14 lb., 8/-; per 28 lb., 15/-; per 56 lb., 27/-

\*Sharpe's Victor (Kidney, Yellow Flesh).—Popular variety Per 14 lb., 8/-; per 28 lb., 15/-; per 56 lb., 27/-

Sir John Llewellyn (Oval, White Flesh).—An early white Potato, raised in Wales, many days earlier than some stocks of Barly Ashleaf Kidney. Hanlin fairly tall, eyes shallow. Award of Merit, R.H.S. It has proved a good cropper on various soils Per 14 lb., 7/3; per 28 lb., 13/6; per 56 lb., 24/-

# CARTERS SECOND EARLY AND MID-SEASON POTATOES.

Arran Comrade (Round Flat Shape, White the second early section. It produces a heavy crop of nice-shaped medium-size tubers, having very shallow eyes, white skin, and of splendid enlinary quality. (IMMUNE.)

Per 14 lb., 8/-; per 28 lb., 15/- per 56 lb., 27/-

British Queen (Pebble Shape, White Flesh).—A fine second early variety, very popular, splendid quality.

Per 14 lb., 6/-; per 28 lb., 11/-; per 56 lb., 19/-

Great Seot (White Round).—A heavy cropping Scotch Potato; robust grower, distinct. (IMMUNE.)

Per 14 lb., 6/~; per 28 lb., 11/~; per 56 lb., 19/~

King George (Pebble Shape, White Flesh).—Very heavy cropper, resists the ordinary blight well, but should be used early, as it is not a variety we recommend for keeping. (IMMUNE.)
Per 14 lb., 6/-; per 28 lb., 11/-; per 56 lb., 19/-

Majestie (Ridney, White Flesh).—One of the heaviest cropping varieties. It has a distinct and not very strong hanhu, but the tubers are of a large size, good quality, nice skin, and shallow eyes, (IMMUNE) Per 14 lb., 8/-; per 28 lb., 15/-; per 56 lb., 27/-Royalty, Carters (Oval, White Flesh).—This grand mid-senson Potato was awarded the Silver Medal for the Best White Potato at the National Potato Society's Show. It produces a medium hanhu and is very productive on all soils, the tubers scenning to retain their whiteness, dryness, and fine flavour when cooked under all methods. In the Cheshire County Council Agricultural Experiments it came out first in its class, beating fifteen others, Included in the Large Gold Medal Exhibit of Vegetables. Strewsbury. (See Photograph.)

"I herewith enclose photo of your Royalty Potatoes. The half-

Shrewsbury, tsce Photograph.)
"I herewith enclose photo of your Royalty Potatocs. The half-bushel I had from you last January has yielded 9 cwts. 16 lbs., grown on a plot 13½ feet wide and 68 feet long, being less than a quarter of a chain,"—Mr. T. Craddoock, Gardener to the Right Hon, the Earl of Jersey.

How the Earl of Jersey.

Per 14 lb., 7/; per 28 lb., 13/-; per 56 lb., 23/
The Ally (Oval, White Flesh.)—Very heavy cropper, shallow eye, medium haulm, a distinct new Scotch variety. (IMMUNE).

Per 14 lb., 6/-; per 28 lb., 11/-; per 56 lb., 19/-

Note.—7 lb. Bags of all the above supplied at half the 14 lb. prices, plus 3d.—Carriage paid.

# SCOTCH SEED-CARRIAGE PAID.

We have as usual arranged for the cultivation of Seed Potatoes in Scotland. Although Railway Freights are now exceptionally heavy, these costs are included in our Catalogue Prices, and POTATOES ARE DELIVERED CARRIAGE PAID to our Customers' nearest Railway Station. Please see next page for Maincrop Varieties.

# CARTERS MAINCROP AND KEEPING POTATOES.

Arran Chief (Oval, White Flesh). A Scotch variety of popular merit, being quite distinct from any in cultivation. It is a fine white cooking Potato and a good cropper.

Per 14 lb., 6/-; per 28 lb., 11/-; per 56 lb., 19/

NEW.

Arran Victory (Royad, White Flesh).— Coloured variety, purple skin, new Scotch Potato, strong handin, good cropper, Resists as fine eating quality. (IMMUNE.) blight well, and has fine eating quality. (IMMUNE.) Per 11 lb., 8/: per 28 lb., 15/; per 56 lb., 27/-

Golden Wonder, A white-fleshed kidney of exceptionally good and a splendid keeper. (IMMUNE.) cooking quality, and a splendid keeper. (IMMUNE.)

Per 14 lb., 6/-; per 28 lb., 11/-; per 56 lb., 19/

NFW.

Kerr's Pink (Round, White Flesh). - Pale pink skinned, lale variety, very heavy cropper, strong grower on all soils. Specially recommended tor cooking qualities and its resistance to potato diseases. (IMMUNE.)

Per 14 lb., 7/-; per 28 lb., 13/-; per 56 lb., 23/

King Edward VII (Kidney, White Flesh). White skin, splashed Ag Edward VII (Milley, Wille Flesh). White Skin, Spiasned with red, making it very attractive for exhibition. Very robust, prolific, and succeeds on almost all soils. Good keeper.

Per 14 lb., 6/-; per 28 lb., 11/-; per 56 lb., 19/

Longkeeper, Carters (Oval, Pale Yellow-deshed). The best mainctop Potato for general use. Award of Merit, R.H.S. This is a splendid variety, and its valuable qualities are greatly appreciated by all who grow this choice Potato. Included in the Premier Prize Exhibit of Potatoes (all Carters vanicies), R.I.H. Exhibition, Chelsea, 1912; Gold Medal, Shrewsbury, 1912. (See Photograph.) Hanhu tall with distinct manye with good enting qualities. Hanlm tall with distinct manye flower. Resists blight better than many varieties. Per 14 lb., 6/-; per 28 lb., 11/-; per 56 lb., 19/-

NFW. (IMMUNE.)

The Bishop (Kidney, White Flesh), A new minimal late variety of nice shape and quality. grown on good (IMMUNE.)

grown on good (garden soi); not recommended for heavy soil, Per 14 lb., 10/6; per 28 lb., 18/-; per 56 lb., 32/

The Factor (Ocal, Pale Flesh),—Well-known lab variety.

Per 14 lb., 6/-; per 28 lb., 11/-; per 56 lb., 19/ The Lochar (Round, White Flesh), Heavy cropping Scotch variety, yields medium-sized tubers. (IMMUNE)

NEW.

Per 14 lb., 6/-; per 28 lb., 11/-; per 56 lb., 19/ The Rector (Round, White Flesh).- Pink ksinned. We can recommend this Polato as being a good cropper, having a strong upright keeper and ol good quality, (IMMUNE.)

Per 14 lb., 7/ ; per 28 lb., 13/-; per 56 lb., 23/-

NEW.

Tinwald Perfection (Kidney, White Flesh). This variety produces a fine crop of nice-shaped shallow-eyed kidney potatoes of good

size and quality, and is a splendid keeper. (IMMUNE.) Per 14 Ib., 7,-; per 28 Ib., 13/-; per 56 Ib., 23/-

Up-to-Date (Oval Shape, Pale Flesh).—This is a robust-growing Seotch Polato, almost round, with a pale coloured flesh. It is an enormons cropper and has fine cooking qualities, Per 14 lb., 6/6, per 28 lb., 12/-; per 56 lb., 21/-

Note. 7 lb. Bags of all the above supplied at half the 14 lb. prices, plus 3d. Carriage paid.

Early Potato Trials in our Testing Grounds at Raynes Park. See List of Early Varieties on previous page, and our Testing Methods on pages 2 and 3.

# CARTERS POPULAR BOXES OF VEGETABLE SEEDS

The Seeds offered in our Collections are of the best re-selected stocks only, taken from the same sacks as when general orders are given from our Catalogue. We can supply more Seeds for the money when purchased in this form, because we put up these Collections by the hundred, which effects a great saving in labour. They are ready for immediate delivery, securely packed, and despatched to any Railway Station in the United Kingdom on receipt of remittance.

It is inconvenient to make alterations in these Collections.

# LAWNS.

# LAWN TENNIS.

# Lawns and Field Sports.

Under the above heading we publish a book which deals completely with the making and upkeep of lawns of all sorts, cricket fields, bowling greens, croquet courts, football and hockey fields, tennis courts, and athletic grounds in general, with a special article describing the making of the allpopular CAR-HAR-COURTS (Carters hard tennis courts). The book is profusely illustrated, and will be sent post free on application.

(Tobical.)

Carters Tested Grass Seeds used at Stanmore Hall and the All-England Courts at Wimbledon. Mr. Patterson in play.

As a general rule, under ordinary cultivation, the mixtures with rye grasses give best results for lawns on heavy, clayey, or medium soils;

As a general time, more ordinary controlled for very light soils or special purposes.

The mixtures without rye grasses are intended for very light soils or special purposes.

Please quote the mixture number when ordering, so that we can at once know the mixture and quality required, and to state plainly the purpose for which the seed is required, viz., for renovating old turf or sowing a new lawn or green.

How to Sow Grass Seed.—In order to facilitate even sowing, divide the ground into squares measuring 4 yards each way, and containing 16 square yards.

QUANTITY OF SEED REOURED.-For a new lawn, allow Loz, of seed per square yard, or 1 lb, per square containing lb square yards. For renovating old turf, sow at the average rate of \(\frac{1}{2}\) to \(\frac{1}{2}\) oz. per square yard, or \(\frac{1}{2}\) to \(\frac{1}{2}\) b. per square containing 16 square yards, according to the existing state of the turf.

For a New Lawn.-Multiply the length of the plot by its width in yards and divide by 16. This will give the number of 1bs, of seed required for sowing a new lawu.

For renovating.—Divide the quantity calculated as above by 2 for a  $\frac{1}{2}$ -oz, sowing or by 4 for a  $\frac{1}{4}$ -oz, sowing.

# CARTERS WORM KILLER.

## MUDDY LAWNS.

Worm infested, soft, muddy turf requires brushing and rolling daily from September to June, which means damaged turf, roots bruised and exposed, fine grasses smothered, and ultimate bare patches.

## CLEAN LAWNS.

The result of using CARTERS WORM KILLER: turf clean, firm, and healthy, an occasional light rolling alone necessary to keep it in perfect playing condition.

## CARTERS WORM KILLER.

Carters Worm Killer is absolutely infallible for killing worms in Putting Greens, Lawns, Croquet Lawns, Tennis Courts, Bowling Greens, &c., provided it comes into direct contact with the worms; whilst its manurial properties immediately improve the growth and texture of the Turf.

The best time of the year to kill worms is during the breeding season, that is, roughly speaking, from the end of Angust to the beginning

The best time of the year to kill worms is during the breeding season, that is, roughly speaking, from the end of Angust to the beginning of December, and from the end of March to the end of May.

# CARTERS GRASS FERTILISERS, &c.

NOTE.—Directions for Use enclosed with all Carters Fertilisers.

It is most extraordinary, yet quite true, that owners of gardens rarely ever give their lawn the least consideration, and expect it to keep in good condition, although they mow it week after week for half the year and starve it for the remainder; but they never would expect a crop of Fruit, Flowers, or Vegetables unless they manured the soil once a year—at least. Now no lawn will stand such neglect without speedily showing signs of exhaustion, bare parches will appear, whilst moss and weeds—which are evidences of the poverty of the soil—quickly occupy the place of the grasses.

Carters Complete Grass Fertiliser (No. 1) is, as its name implies, a complete grass food; that is to say, it contains all that is necessary for the growth of fine grasses, but it does not force or burn them.

Sample bags, ... 71b. 144b. 284b. 564b. 1124b.

ample bags, ... 7 lb. 14 lb. 28 lb. 56 lb. 112 lb. 1/6 3/6 6/- 11/- 21/- 40/-

Carters Anticlover Fertiliser (No. 2) is also a complete grass food. It is slightly quicker in action than the above, and its constituents are so balanced that it effectively checks the growth of clover, and for this reason it is very valuable for dressing putting greens, tennis courts, croquet lawns, and other lawns in which the growth of clover is objectionable.

Tin Dredgers for applying "Carterite" with 1 lb. capacity measure,

5/6 each.

Carters Improved Carbon Sand.—For use as a top dressing for Tennis Lawns, Bowling Greens, Golf Greens, &c. Corrects sourness of soil, promotes healthy growth, and even surface. Apply at the rate of  $\frac{1}{2}$  lb. to the square yard.

28 lb. 56 lb. 112 lb. 5 cwt. 10 cwt. 1 ton. Prices, bags: 5/6 7/6 12/6 60/- 110/- £10

Carters Compound Mulch.—For top-dressing newly-sown lawns, young grass, or as an antumn dressing. This material, which is a combination of fibre and mannre, in cold weather protects the young grass rootlets from frost, and in the warm weather assists in conserving moisture, besides acting as a mannre.

Prices ... 4/- 5 bushel sack. Special prices for quantities.

Carters Lime Compost.—Liming is essential to healthy conditions of heavy soils. Natural and artificial fertilisers are dependent upon it for their proper action to promote a healthy and vigorous growth of the grass. For surface dressing, apply at the rate of 1 lb. to the square yard.

Per cwt. Per ton. Special low quotations
Price ... 7/6 140/- for large quantities.

ANTIRRHINUM]

## The following are packed in 8d. 1/- and 1/6 packets.

**FANTIRRHINUM** 

### ANTIRRHINUM or SNAPDRAGON.

Sow the seed in pans or boxes from Pebruary to March, and transplant to bed or border when large enough. If the

withering flowers and seed pods are kept picked off the plants will last in bloom for a long time, and continue again the following year. Can easily be grown as Annuals if sown in the open ground in April. Thin ontabout 1 ft. apart. Summer-sown seed produces plants that commence to flower early in spring and continue and in april and the second produces. and continue until antumn.

## CARTERS TALL LARGE FLOWERED.

This fine hardy percunial, which should be treated as an annual for bedding, has been greatly improved in size and colourings. III. 2 to 3 ft.

5339 Fire King.-Bright cinnabar red, with small yellow spot on the under lip

3040 Purple King.-A self-coloured purple Snapdragon of enormous

size.

3041 Carters Fiery Red, yellow lip.—A very bright variety.

3042 Venus.—Noble flower of a delicate rose colour on white ground.

3043 Carters Crimson.—Rich colour.

3044 Carters Crimson.—Rich colour.

3045 Carters Coral Red.—Deep rosy colour with faint pale primrose shading on lip.

3045 Carters White.—Long spikes of pure white flowers.

3046 Carters White, rose lip.—Pure white blooms with faint shading of pale rose on the lip. The most chaste and delicate.

3047 Carters Striped.—Each flower beantfully veined and striped on white, rose, and yellow grounds.

3048 Carters Yellow.—Pure clear pale golden shade, very telling.

3054 Carters Tall Large-flowered Mixed.—Itt. 2 to 3 ft.

3059 Moonlight.—Golden apricot and old rose.

3051 Torchlight.—Vivid orange, with yellow centre and carmine

Torchlight.-Vivid orange, with yellow centre and earmine 3051 tint above.

## CARTERS INTERMEDIATE LARGE FLOWERED.

This is undoubtedly the finest form, both for bedding and ribbon borders, the deuse, well-formed trusses contrasting beautifully with the deep green foliage. The trusses are excellent for cutting, and being slightly curved lend themselves to any decorative arrangement. IIt. I to 11 ft.

3058 Netrose.—This is the wonderful glowing pink variety that has taken America by storm. The seed we offer is highly-selected stock, which is true, with the exception of a very small proportion of plants which produce flowers of a slightly darker shade of pink than the type. Splendid for indoor decoration; equally effective for beds or borders. (Photograph above.)

## ANTIRRHINUM-Continued.

3060 Carters Gold Crest.-Soft rose-pink, tinged salmon, with 3060 Carters Gold Crest.—Soft rose-pink, tinged salmon, with golden orange lip. We predict a great future for this remarkably brilliant variety as a bedding plant.
 3061 Carters Scarlet Flame.—A self brilliant fiery searlet, hence the name we have given to it. In the sunshine the spikes look flame-like in their brilliancy.
 3062 Carters Terra Cotta and Creamy Shades.—A charming strain of soft deligate chades which are quite new in this country.

ing strain of soft, delicate shades which are quite new in this

3063 Carters Fiery Belt.—A most striking colour, fiery brilliant orange-scarlet, with white throat. A small group enlivens the

3064 Carters Pink.—Quite a charming variety. Delicate pink with white throat,

with white throat,
3065 Black Prince,—Velvety crimson blooms borne on graceful
tapering spikes; dark purplish foliage. A most decorative
variety, rather taller than other intermediate kinds.
3066 Carters Butterfly,—Purplish crimson flowers, with white
throat, which gives a remarkably light decorative effect to this
dark goldmed variety.

dark-coloured variety.

3067 Carters Gloriosa.-Rich carmine-rose, relieved by pure white

3068 Carters Crimson.—A very select strain, deep crimson, one of the richest slindes; very telling with our white and yellow varieties.

3069 Carters White.—Pure white flowers from which the sulphur lip prevalent in most so-called whites has been practically eliminated; even habit.

3070 Carters Yellow.-Clear pure golden blooms. Very even habit.

3071 Electra. - Salmon, maize, and orange.

3074 Carters Intermediate Mixed.—One of the most popular sections for beds or borders. A very wide range of occurs in this strain.

## CARTERS DWARF LARGE FLOWERED.

A compact strain. Plowers variously coloured. This type makes good pot plant, and is invaluable in borders or beds. 11t. 6 in. (Photograph above.) We offer the following colours:

3980 Carters Crimson.—Clear, rich shade, very free flowered. 3081 Carters Rose. - A particularly charming shade of old rose,

This variety attracted considerable attention at the R.H.S. trials, lady visitors being particularly impressed with its beauty. Highly commended, R.H.S

3082 Carters White. Pure white flowers in greatest profusion.

3083 Carters Yellow. The best type of clear yellow in this

3084 Carters Fiery Red, yellow lip.

3085 Carters Deep Rose, white throat, yellow lip.

3086 Carters Crimson, white throat, yellow lip.

3087 Carters Striped.-Hadless shades of all striped and blotched

3090 Carters Dwarf, Choicest Mixed.

The above are packed in 8d. 1/- and 1/6 packets.

Carters Address for all correspondence, RAYNES PARK, LONDON, S.IV. 19.

AQUILEGIA]

AQUILEGIA.

Hardy perennials of great beauty and utility in borders, where they

CARTERS
LONG-SPURRED.

speciality, gives elegant cut flowers. We have now included spurred type, of which we make a some new and effective colours. Sow seeds under cover in growth ensures much finer clumps than when sown in summer with other perennials.

with other perennials. No. 3100

NOVELTY.

Carters Long-spurred, Rose and Pink Shades.—A very pretty strain of robust habit, containing a wide range

of charming shades, from deep rose through rosy carmine to pale pink and flesh. Ht. 2 ft.

- 3101 Carters Long-spurred, Blue Hybrids -A very fine strong-growing form of Aquilegia cærulea. Blooms in larger than the type, plants extremely floriferous. Ht. I ft.
- 3102 Carters Long-spurred, Golden.—Pure golden; charming form. Ht. 2 ft.
- 3103 Carters Long-spurred, Double Golden.—A double form of the above species. About 50 per cent. double; all flowers of the same golden shade.
- 3104 Carters Long-spurred, White.—Similar in habit to the above varieties. Flowers pure white, with pale blue. A very chaste form. Ht. 2 ft.
- 3107 Carters Long-spurred, all Colours Mixed.-This represents the last word in Aquilegias, and contains numerous fine forms which cannot be fixed in their separate colours. We have placed great importance upon robustness of habit in selecting this unique strain. Ht. 21 ft.
- 3105 Californica hybrida. Long-spurred hybrids. Yellow corolla with golden spurs. Ht. 2½ ft.
- 3106 Glandulosa. A dwarf form with short spurs, blue corolla and white sepals. Ht. I ft COLUMBINE.
- 3110 Carters Hybrids.—This strain contains a very wide range of colour. For naturalising and the wild garden these old-fashioned types are very useful, being more robust and free flowered than the newer hybrid long-spurred varieties, although they do not exhibit the wonderful diversity of colour found in the new types
- 3112 Carters Mixed Double.-A splendid mixture of very double

ARABIS.—Hardy perennial for spring bedding.

No. 3196 **Albida.**—White; neat. Ht. 6 in.

3197 Alpina.—Paper white. IIt. 6 in.

ARALIA.—Foliage plants for general purposes. Sow in pots in early spring, in heat, and pot off.

fasperula odorata

3200 Papyrifera (Rice Paper Plant).

3201 Sieboldi.-Palmate foliage.

No. 3120 Arctotis grandis.

ARCTOTIS.—Half hardy. An annual from S. W. Africa. Most useful for cutting, having long stalks.

3120 **Grandis.**—Daisy-like flowers, pure white, lilac on the outside, with a lavender dise; of very easy culture, flowering all the summer. Ht. 2 ft.

ARGEMONE (PRICKLY POPPY).—Sow in March and plant out in sunny borders. Very easily grown.

3123 Grandiflora. - Hardy annual; white.

ARISTOLOCHIA (THE DUTCHMAN'S PIPE).—Climbing plants, with curious pipe-shaped flowers. Sow in heat in March, and not off.

3204 Elegans. Perennial; handsomely spotted. Pretty for conservatory.

3205 Sipho.—Hardy climber; splendid foliage, and easily grown.

ASPARAGUS PLUMOSUS.—Rasily raised from seed sown in early spring in heat. Valuable for cutting for bouquets Also makes a nice plant for covering a and table decoration. Also makes a nice plant for covering a pillar in the conservatory, or for training over a balloon-shaped frame. A. Sprengeri is a grand basket plant.

3126 Asparagus plumosus nanus.

3127 Asparagus Sprengeri.

ASPERULA ODORATA (Woodruff, New Mown Hay).

3214 The dried leaves and stems are very fragrant. Perennial white, sweet scented. Itt. 4 in.

The above are packed in 8d. 1/- and 1/6 packets.

We shall be extremely obliged if customers will kindly indicate the catalogue number when ordering.

CARTERS CHOICE LARGE-FLOWERED ASTERS.

Please see descriptions and prices overleaf.

## The following are packed in 8d. 1/- and 1/6 packets.

ASTER]

[AUBRIETIA

ASTER. The whole group may be described as half-hardy annuals, the seeds being best sown under glass in early spring, and the seedlings pricked out into boxes or in frames for planting out or potting as the occasion requires, when they are ready about June.

### CARTERS RAY.

Onite a unique type of the annual Aster. The flowers, which are very large, often 5 in. across, are produced on long stalks, and have prettily arranged quilled petals. Fine for cutting, as they last a week in water if cut before fully expanded. Ht. 1½ ft.

3225 Carters Crimson

3226 Carters Dark Blue 3227 Carters Carmine Rose

3228 Carters Pale Mauve 3229 Carters Azure Blue

3230 Carters Pure White 3231 Carters Mixed Ray

The separate colours come quite true from seed, and are all distinct and pleasing

shades.
Some very effective combinations and contrasts can be obtained by a judicious use of the various colours.

## CARTERS PLUME.

We particularly recommend these varieties for cutting. The blooms, equalling Chrysanthemmus in form, are borne on long stems, and the shades blend well together. The most noble flowered Aster in cultivation. With flowing feathery petals; grand for cutting. We have measured blooms 6 in, across. Ht, about 1½ ft. (See Bhotograph). (See Photograph.)

3261 Carters White. 3262 Carters Blue.

1 3264 Carters Terra Cotta.

3263 Carters Rose.

3267 Carters Choice Mixed.

## CARTERS VICTORIA ASTER.

A beautiful type. The blooms are large (5 to 6 in across), profuse, and handsome, whether grown in beds or pots. It has a good habit, and makes a grand end of summer bedding plant, III, 1½ ft. (See Photograph.)

3234 Carters Dark Blue

3235 Carters Light Blue

3237 Carters Rose

3239 Carters Sulphur Yellow

3240 Carters White

3941 Carters Crimson

3242 Carters Spendid Mixture

Being of rather compact type, this class of Aster is particularly suited for bed-ding use. Very pleasing combinations may be obtained by using the followtained by using the following colours:—Light Blue and Rose; Crimson, Dark Blue, and White; Sulphur Yellow and Rose,

## CARTERS LARGE SINGLE COMET WITH FLOWING PETALS.

An improved type of the original single variety. There is quite a rage for these as cut flowers, for which purpose they are eminently adapted. In a bed, too, they make quite an effective display until antumn is well in. Ht. about I ft. (See Photograph.)

3258 Carters Choicest .- All colours mixed.

## CARTERS PÆONY-FLOWERED.

A very fine type for bedding, large well-shaped blooms, petals curving inwards. Very hardy.  $1\frac{1}{2}$  ft.  $_{\sim}$ 

3270 Carters Crimson

3271 Carters Blue

3272 Carters Rose

3269

3273 Carters White

3280 Carters Choice Mixture

All these colours are of pleasing shades for out-door or indoor decorations.

NOVELTY. Carters Large-flowered. — A very fine strain of full open habit. The large well-formed blooms are carried on very long stiff stems, and are splendly for decoration. Principally

bright cerise, medium blue, pale blue, shell pink, delicate rose, and pure white. (See Photograph.)

3285 NOVELTY. Carters Comet Carmine Queen.—
A novel introduction of great beauty.

The plants are of graceful habit, and the well-formed blooms are carried well above the foliage. The florets, which open pure yellow, shade as the blooms develop to a soft terra-cotta carmine. A particularly beautiful combination by artificial light.

**ASTER** —Continued,

### COMET ASTER

A very attractive class, with flowing petals. For pot work or planting out. Fine for cutting. Ht. about 11 ft.

3286 Pure White 3287 Rose and White 3290 Searlet

3291 Rose 3292 Light Blue 3293 Dark Blue

3296 Carters Superb Mixture

The separate colours have been carefully selected from the extension range of shades sive range of shades which occur in this class of Aster. Those offered can be grown by the discriminating cultivator with every confidence.

## IMPROVED COMET.

We again offer a limited quantity of a large-flowered selection from the last-named, the finest types for cutting, the huge blooms being borne on long stiff stems.

3302 Azure Blue. 3303 Pink 3304 Blue and White. 3308 White.

3305 Crimson.

3311 Carters Choice Mixed, all colonrs.

### CHRYSANTHEMUM-FLOWERED.

A dwarf variety of great beauty, the Aster most used for bedding. The petals are reflexed. Effective as a pot plant. Valuable for obtaining light decorative effects. Ht. I ft.

3314 Blue 3315 Fiery Searlet 3317 White 3319 Rose

3321 Carters Choice Mixture 3316 Crimson

## CARTERS SINENSIS SINGLE.

A free-growing single Aster, suitable for vases and house decoration. All pleasing colours. Ht. 13 ft. 3329 White

3326 Blue

3327 Mauve 3328 Pink

3330 Carters Choice Mixture

## VARIOUS ASTERS.

- 3332 Extra Early Midsummer Searlet.—Comes into bloom about middle of June; a striking pot plant.
- 3334 Japanese.—Mixed colours. A to a point; graceful forms. 12 ft. Needle-shaped petals, tapering
- 3335 **Unieum.**—Pure white, similar to White Plume, with thread-like petals, prettily twisted.  $-1\frac{1}{2}$  ft.
- 3336 Carters Extra Early Ostrich Feather.—Purest White, long curved flowing petals. Grand for exhibition or table; blossoms 7 to 8 in.
- 3337 Dwarf Bouquet.-Flowers in profuse bunches, fine for front row. Splendid mixture, all colours. 11t. 9 in.
- 3338 Crown or Coekade,-Interesting. Onter petals of various colours with centre of pure white. Splendid mixture, all colours, 11t. 13 ft.
- 3339 Queen of the Market.-Very early. Carters choice mixed, all colours. About 14 ft.
- 3340 Quilled.—Improved strain. Choice mixed.
- 3343 Pyramidal.-Free-growing bushy varieties. Carters choice mixed, all colours.
- 3347 Perennial (Michaelmas Daisies).-Hardy perennials, Sow in early spring, in gentle heat; prick off. Splendid mixture. Itt. various.

## AUBERGINE .- See Egg Plant.

- AUBRIETIA.—Great favourities for spring bedders, rockeries, &c. Perennial, quite hardy. Bright perpetual bloomers. Easily raised from seed sown in spring. Ht. 4 in.
- 3130 Whitewell Gem.-Originally found in an old Shropshire wintewen Gem.—originary round in an old Shropshire garden twenty years ago. Continual selection has improved and fixed the strain. The individual flowers are large and of an intense glowing reddish purple, freely produced on long stems. The plants are remarkably vigorous, and remain in flower for many weeks.
- 3131 Deltoidea,-Bluc.
- 3133 Græea.-Pale mauve.
- 3134 Purpurea.-Dark.
- 3135 Choice Hybrids.

The above are packed in 8d. 1/- and 1/6 packets.

Parters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19.

AURICULA]

AURICULA.—Hardy perennial. Sow seeds in August or February, and pot off. This is one of the best and most interesting of the florist's flowers for amateurs' cultivation. It thrives well near large towns. The smallest seedlings frequently produce the choicest blooms.

No. 3217 Carters Prize Show.—Saved from only the choicest.

3918 Alnine.

## AUSTRALIAN GUM TREE .- See Fiicalyptus.

AZALEA. Evergreen greenhouse shrubs. Sow under glass in spring and pot off, using a compost of two-thirds peat with leaf mould.

3221 **Show** (Ghent) **Varieties**—Superb mixture. Ilt.

3222 Pontiea.—Hardy garden species; excellent

BALSAM.—Balsams may be sown from the beginning to the middle of April in pans or on a slight hot bed, in a light rich loun compost, keeping the soil moist, but not wet. When the plants have formed the second pair of leaves they may be transplanted, and gradually hardened off for transplanting out of doors, or they may be sown out of doors early in May. If for pot enthree they must be divided and transplanted into single pots, once or twice into larger pots nicking off the flowers in the twice into larger pots, picking off the flowers in the earlier stages of growth to give greater vigour, Keep the plants to a single stem, as the side shoots frequently produce semi-double bloom.

3390 Carters Challenger, Superb Mixture.—A highly select strain, the individual blooms being perfect in form and of splendid substance. 'The shades range from pure white through llesh, clear, and deep pinks to scarlet. Many lovely new manye and purple shades are also contained in this unique strain. Matchless in form, substance, size, and colours.

3391 Carters Rose Queen.—This beautiful variety produces enormous spikes of large double flowers of a delicate rose colour; excellent habit; very striking.

3392 Camellia-flowered.

3393 Double Mixed. - Por pots or borders.

3396 12 Superb Selected Colours. Separate ... 3397 8 Superb Selected Colours. Separate ...

BARTONIA. Hardy annual. Showy, and very easily grown. Sow in open border in spring.

3403 Aurea. - Rich golden colonr.

BEE LARKSPUR (DELPHINIUM).—A striking perennial. Of easy culture for large flower borders and wild gardens. 3406 Bright blue. Ht. 3 ft.

BEET, Ornamental. For mixed beds or borders and subtropical gardens. Sow under glass in spring, prick off, and plant out in May

3409 Flower Garden.-Rich-coloured variety.

## BEGONIA. TUBEROUS ROOTED.

Begonias are much superior

BEGONIA.

"UBEROUS ROOTED.

phere suiting them. For growing in post this strain is superlor to deraniums for bedding, being quite unaffected by heavy rains, a moist almosphotochie flowers, equalling the best unmed varieties, but having more vigorous constitutions.

The seed should be sown in the at at end of winter to produce strong flowering plants in the summer, in pans of very fine soil. Prick off the seedlings into pans and pot off later. Care should be used when sowing, as the seed is very fine. We can also supply tubers ready to slart into growth in early spring. be used when sowing, as the seed is very fine. We can also supply tubers ready to start into growth in early spring. These Begonias are invaluable for growing in beds and

groups; also for pot culture. They come into bloom very early and last all the season.

3370 Carters Choicest Double Begonia.—This fine strain contains all the largest and best forms and most brilliant colours in cultivation. Blooms 6 ins. across. (See Photograph, reduced.) Per pkt., 1/6. 2/6, 3/6, and 5/-

3373 Carters Crown Jewels, Mixed Single, including Fringed varieties.—It is impossible to praise too much this superb strain of this highly-favoured flower. The blooms are borne on long stont stems, which raise them well above the foliage. For size and quality of the flowers, combined with brilliance in colours, this mixture is mnequalled. Grand for bedding out.

Per pkt., 1/6, 2/6, 3/6, and 5/-

3374 Hybrida eristata, Carters Crested.—Grand flowers, crested by the clongation and fimbriations of the petals. 70 per of the petals. 70 per Per pkt., 2/6 and 5/cent, true from seed.

BEGONIA Continued.

BURNING BUSH

3875 Carters New Marbled Hybrids.—New colourings of grent beauty, the large single blooms being beautifully marbled Per pkt., 2/6 and mottled.

3376 Carters Fiery Searlet.—Ruormous blossoms, producing a gorgeous display. Per pkt., 2/6 gorgeous display.

## BEDDING BEGONIAS. -FIBROUS-ROOTED.

Perpetual flowering. Small blooms in clusters.

3380 **Crimson Bedding.** — Dwarf compact variety, crimson, foliage deep blood-red with metallic sheen. Per pkt., 1/- and 2/6

3381 **Vernon Tom Thumb.**—A charming free-flowering variety.

Blood scarlet flowers and bronze foliage. Per pkt., 1/- and 2/6

3383 Luminosa.—Flowers fiery deep scarlet with satiny brownish-red foliage. Per pkt., 1/- and 2/6

Carters Crown Jewels Begonia and other Bulbs pages 105-107.

BELLIS. See Daisy.

BIDENS (BLACK DAILLIA).-Half-hardy annual for beds and

3412 Atrosanguinea.—Excellent for cutting. Ht. 14 ft.

BIGNONIA (TRUMPET FLOWER) .- A fine perennial climber for conservatory decoration and warm situations in the garden. Seeds must be sown in heat early in spring.

3415 Grandiflora.-Large orange-scarlet trimpet-shaped flowers

3416 Radieans.-Scarlet.

BRACHYCOMBE.—See Daisy, Swan River.

BROOM.-Sow in spring or summer for strong plants to flower the following year. Hardy shrub.

3426 Carters Crimson and Gold.—Excellent for cutting,

3427 Carters White. -Free bloomer, long sprays of white llowers.

BURNING BUSH. -See Fraxinella.

The above are packed in 8d. 1/- and 1/6 packets.

## The following are packed in 8d. 1/- and 1/6 packets.

CACALIA]

CACALIA.

3484 Coccinia.-The Scarlet Tassel Flower. For mixed borders. Annual. Ht. I ft.

CALAMPELIS (ECCREMOCARPUS). - Climber for verandalis, trellises, &c. Handsome racemes of bloom. Perennial. Sow in heat, to bloom the first season out of doors,

3487 Scabra -- Orange-scarlet. Ht. 10 ft.

CALANDRINIA.—Perennial. Succulent plant. Sow in pans in spring, place in frame, and prick out in bed or border for summer blooming.

3490 Umbellata.-Vivid erimson. Good rock plant.

CALCEOLARIA. Carters Victoria Prize strain is world-famons, and has secured the highest honours wherever exhibited. Our exhibits at the Royal Hortigultural Society's Annual Flower Shows are always the theme of general admiration.

3450 Carters Victoria Prize Calecolaria, Mixed, all Colours.—In addition to the usual range of colours found in this plant, our choice strain produces many distinct seedlings in this plant, our choice strain produces many distinct seedings of unique colour, the rose, pink, and empreons shades being particularly pleasing. It is impossible by photography to give any adequate idea of the heanty of these magnificent flowers. The variations and markings are endless, the flowers are of large size and perfect in form, and the habit is unexceptionable. Per pkt., 2/6, 3/6, and 5/-

3451 **Clibranii.**—A free-flowering hybrid of spreading habit; very useful for greenhouse decoration. Ht. 2 to 3 ft. Per pkt., **2/6** 

3452 Golden Princess - Exquisite yellow. Of the same perfect habit as our Victoria Prize strain. The soft pure golden flowers are very valuable for conservatory decoration during that period of the year when this colour is scarce. Per pkt., 2/6, 3/6, and 5/-

3454 New Dwarf Bedding ... ... ... Per pkt., 2/6

3453 Hardy Shrubby.—From best varieties .... Per pkt., 2/6

## CARTERS MINIATURE CALCEOLARIA.

A curious small-flowered type, quite unique in growth and character. Makes a fine dwarf plant for stage fronts in conservatory among other growths of simular habit.

3461 Tom Thumb. -Brilliant as the Victoria Prize varieties, but of dwarf habit. Per pkt., 1/- and 2/6

3462 The Gem.-Pretty and elegant, beautiful colourings Per pkt., 1/- and 2/6

[CALLIOPSIS

Carters Victoria Prize Calceolaria, described in previous column.

GOLD MEDAL AWARDED TO CARTERS CALCEOLARIAS AND OTHER FLOWERS BY THE ROYAL HORTICULTURAL SOCIETY, 1920.

CALENDULA (GARDEN MARIGOLD) (Annual).—Very showy border plant, lasting the whole of the summer without any attention whatever beyond keeping the seed yessels picked off. Not at all particular to either soil or surroundings, and may be described as everybody's flower. Sow in spring where plants are intended to flower.

3544 Cockade Orange.—Very large double flowers; Showy colour, 11t, 1 ft.

3545 Mcteor.—Lemou yellow, orange stripes. Ht. 12 ft.

3546 Hybrida or Pot.—Single yellow. Ht. In ft.

3547 Officinalis.—The single yellow cottage garden Marigold. Ht. I ft.

3548 Pluvialis.—Pure white. 11t. 1 ft.

CALIFORNIAN POPPY. -See Eschscholtzia.

**CALLIOPSIS** (Corcopsis).—Hardy annuals and perennials, All are universal favourites and useful for cut flowers. The annual varieties should be sown outdoors in April in the place they are intended to flower, or, for earliest work, may be sown under glass and then pricked ont.

35|| Carters Choice Mixed Dwarf Annual Varieties.-All sorts.

MINIATURE ANNUAL VARIETIES.

These are the shortest growing types; fine for edgings. 9 to 15 in. 3514 **Crimson Marbled.**—The flowers show a groundwork of chocolate, flaked and marbled with gold, giving a most fautastic combination. Unfortunately some tall plants invariably appear.

3515 Crimson and Gold.—Of all the dwarf varieties this is the

most miniature.
3516 Radiata "Tiger Star."—Rich bronze, striped and mottled yellow.

VARIOUS CALLIOPSIS. 3518 Burridgi (Annual).-Rich crimson and gold. Ht. 21 to 3 ft.

3519 Drummondi (Annual).-Yellow, dark centre. Ht. 2 ft.

- 3520 Grandiflora.-Grandest of all; large golden yellow; a hardy perennial. A lovely border plant both for effect and cutting, Much appreciated for house decoration when cut. 11t. 3 ft. (Photograph above.)
- 3521 Bicolor (Tinetoria) (Annual).-Very pretty. Ht. 22 to 3 ft.
- 3523 Coronata (Perennial),-Yellow, dark spot. Ht. 2 ft.

CALLIRHOE (POPPY MALLOW). - Very pretty half-hardy annual. Sow in spring, in gentle heat and prick out.

3493 Digitata. - Rosy carmine; erect habit. Ht. 12 ft.

CALVARY CLOVER.—An interesting novelty. Raise in spring, and treat as an annual.

3496 The leaves are singularly blood marked.

CAMELLIA.-Greenhouse shrnb, universally admired. Sow seeds early in the spring in pots, place in heat, and pot off as soon as seedlings can be conveniently handled.

3499 Japonica, fl. pl. Saved from the best varieties.

[CANARY CREEPER

CAMPANULA.—The usual way is to sow the seeds in summer in a partially shaded spot in nice soil and keep them growing until strong enough to transplant or pot.

3530 **Persicifolia alba** (*Giant White*).—This is the finest form of this most effective hardy border perennial. The graceful spikes render it invaluable for house decoration either when cut or as pot plants. June flowering. Ht. 3 ft. (*Photograph* above.)

3532 Carpatica (Perennial).—Large blossoms; excellent pot plant; blue. Ilt. 6 in.

3533 Carpatica alba (Perennial).-White variety.

3534 Grandiflora (Perennial).—Purple violet. Ht. 12 ft.

3535 Grandiflora alba (Perennial).-White. Ht. 12 ft.

3536 Pyramidalis (Perennial).—Blue; charming pot plant. Ht. 4ft.

3537 Pyramidalis alba (Perennial).-White variety.

3538 Rotundifolia (Harebell) (Perennial).-Deep blue; the true wild species. Ilt. 1 ft.

CANARY CREEPER (TROPHOLI'M PERFERINUM), "Favourite climber for trellises, arbours, stumps of trees, &c.; very graceful, bright canary colour. Sow in pots in February and bring on under glass or sow in the open in spring. 11t. 10 ft.

3552 Canary Creeper.—Half-hardy climbing annual.

The above are packed in 8d. 1/- and 1/6 packets. Conters Address for all correspondence, RAYNES PARK, LONDON, S.W. 19.

## CARTERS TESTED SEEDS—BEAUTIFUL FLOWERS.

## The following are packed in 8d. 1/- and 1/6 packets.

CANDYTUFT]

**CANDYTUFT.**—These hardy flowers are now a necessity, requiring the most simple enlitivation, and will flourish in almost any soil. The range of colour has now been considerably extended, the lilac, rose, cardinal, and carmine being particularly charming. Sow in spring in ordinary soil. For pot work, sow in pots in frame, and thin out the seedlings, or they may be transplanted. Average height 1 ft.

No. 3658 Carters Empress (top). No. 3663 Hyacinth-flowered. 3662 Carters Pigmy.

- 3658 Carters Empress Compact-Large spikes of the purest white and of erect habit; dwarf and compact, very profuse in bloom, exceedingly showy and effective. Extract from R.H.S. trials: "Candytuft Empress Compact (Carter).—Very neat and compact; flowers white, in dense pyramidal spikes, freely produced; the best white Candytuft in the trial." Ht. 6 in.
- 3662 **Carters Pigmy.**—A dwarf type of hyacinth-flowered, and a charming bijon variety for edging, beds, or borders. The medium-sized spikes are borne in the greatest profusion. Ht. 4 in.
- 3063 Carters Hyacinth-flowered.—The tallest and finest white variety, each plant having five or six heads of bloom. Its fine jyra'nidal spikes of the purest whiteness make it a very attractive decoration in either beds or borders. Sow in spring, and transplant 9 in apart, keeping faded heads cut away. A very fine subject for pot work, especially when autumn sown. Ht. I ft.
- 3659 Rose Cardinal.-A beautiful shade of rosy scarlet.
- 3660 Carters Carmine.—Bright rose, excellent form,
- 3661 Carters Spiral.-Pure white, long trusses.
- 3664 Carters Crimson,-Brilliant.
- 3665 Carters Purple.
- 3666 Carters Lilae.
- 3667 Carters White.
- 3669 Carters Choice Mixed.—For open borders.

Perennial Candytuft, for Borders or Rockwork,

- 3672 Iberis Gibraltariea.—Suffused lilac, lovely species.
- 3673 Iberis sempervirens.—The flowers form a carpet of pure white in early spring.
- CANNA (Indian Short).—Ornamental-foliaged plants with showy flowers, for stove, greenhouse, or sub-tropical planting. Steep seed 24 hours in tepid water, and sow in strong heat. Pot off seedlings as soon as they can be handled.
- 3574 Crozy.-Choicest dwarf varieties; magnificent. Both foliage and bloom show a wide range of colour,
- 3575 Carters Choice Mixed.
- CANNABIS (Indian Hemp).—One of the finest foliage plants for sub-tropical gardens and beds. Sow in spring and prick off.
- 3578 Indica-Ht. 6 ft.

**[CARNATION** 

CANTERBURY BELL.—Hardy biennial. in summer, transplant to a bed in antumn for flowering the following year. They also make effective pot plants for spring flowering, sown in summer and potted in autumn, and kept in a cool frame through winter. No matter how carefully the double-flowering types are saved, some are certain to come single. The seed-bearing spikes should be cut out when the beauty is over, and more may come.

3610 Carters Choice Mixed.-Various colours for general use.

# CARNATION AND

popular and lovely flower, always in fashion. In colour and form unique, with a pleasing fra-

grance in many types. Whether grown in pots for conservatory decoration or in the garden beds from in pots for conservatory decoration of the garden beas for summer display, its charms are equally attractive. Our seed is saved with the greatest care, and should produce a large percentage of the very best flowers, but unfortunately, as with other Horists' flowers, it cannot be guaranteed that every one will come double. Care should be taken to preserve the smallest seedlings, as these frequently produce the finest quality blooms. Sow in spring in cool frame, prick out, and plant out in good soil when strong enough, for flowering the following season.

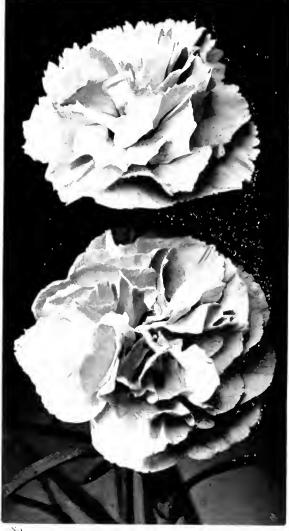

## The above are packed in 8d. 1/- and 1/6 packets.

We shall be extremely obtiged if customers will kindly indicate the catalogue number when ordering,

We shall be extremely obliged if customers will kindly indicate the catalogue number when ordering,

### Charles Tested Seeds—Benottfol Flowers.

CHAMÆPEUCE]

The following are packed in 8d. 1/- and 1/6 packets.

[CHRYSANTHEMUM

CHAMÆPEUCE (FISHBONE THISTLE). Half-hardy biennial with ornamental foliage. Is seen at its best the first season. Seed should be sown in early spring, in gentle heat, and potted off.

3581 Diacantha.—Spiny; glaucous foliage. Excellent for edging beds or borders. Ht. I ft.

CHAMÆROPS (FAN PALM).—Sow in bottom heat, and pot off. 3584 Humilis.—A fine decorative plant for house, garden, or conservatory.

CHELONE (BARBATA).—Sow in spring and transplant. Useful variety of great decorative value.

3587 Bright scarlet perennial. Ht. 2 ft.

#### CHEIRANTHUS.

3589 Allionii (Orangi- Wallelower).—The most brilliant colour available for spring bedding. A hardy bicunial which will produce a profusion of bloom on all soils. Commences to flower in early spring and will continue well into summer. (Photograph above.)

CHRYSANTHEMUM. The annual varieties hold a leading position, and many of them have been raised on our Seed Farms. All are beautiful in beds and borders, and good for window boxes or entting. Sow seed in spring in boxes for early flowering, and in the open for general work. Some varieties make useful pot plants; for this purpose they should be sown under glass. Ht. 1½ ft.

#### ANNUAL.

- 3712 Morning Star.—Single. Delicate sulphur-coloured blossoms; very pretty. Equally good as a single plant, grown in masses in beds or borders, or as a cut flower. The best annual variety to use as a pot plant for winter blooming.
- 3748 Northern Star.—Beautiful large white flowers, with zone of sulphur colour.
- 3750 Evening Star. -Deep golden yellow, similar in habit to Morning Star.

CHRYSANTHEMUM -Continued.

- 3743 Carters Choice Mixed Annual Chrysanthemum.—
  We have given infinited attention to perfecting this strain, which contains a splendid range of colours. Many of the flowers have two or three zones of colour, which impart to them a wonderful brilliance. The plants, being very robust, should be thinned or planted out to at least 1 ft. apart. (Photograph above.)
- 3744 Lord Beaconsfield.-Single. Crimson, maroon, and gold.
- 3745 Purple Queen.-Single. Distinct dark purple.
- 3746 Sultan.-Single. Crimson, with gold ring near centre.
- 3747 W. E. Gladstone.—Single. Crimson and violet.
- 3749 Tricolor (Carinatum).—Single. The original type.
- 3753 The Bridal Robe, Double White.—Flowers of purest white, and fully double.
- 3756 **Double Mixed.**—A good proportion of double blassoms may be expected.

### EARLY AUTUMN FLOWERING HYBRIDS.

Can be treated as an annual. Sown in January and February will produce plants which flower from the middle of August onwards. Both for outdoor culture and growing under glass this strain is extremely valuable, supplying large quantities of cut flowers at a season of the year when they are particularly needed.

3764 Carters Early Autumn Flowering Hybrids.—Singles, semi-doubles, and doubles in endless varieties of shades are contained in this splendid mixture.

#### PERENNIAL CHRYSANTHEMUM.

- 3766 **Shasta Daisy.**—A perennial variety from America, with large white flowers on long stalks. When sown very early under protection the flowers often appear before summer is over, 1tt, 2½ ft.
- 3767 Maximum King Edward VII.—Single. A splendid large-flowered variety, which we highly recommend: the flowers are pure white, and borne on long stiff stalks well above the foliage. Ht. 2½ ft.

#### **EXHIBITION PERENNIAL SPECIES.**

Sow in pans in gentle heat, in spring, and pot off singly.

- 3771 Carters Show. -Large blooms, fine colours,
- 3772 Carters Japanese. Gracefully petalled varieties
- 3773 Carters Pompone.—Neat, globular blossoms.

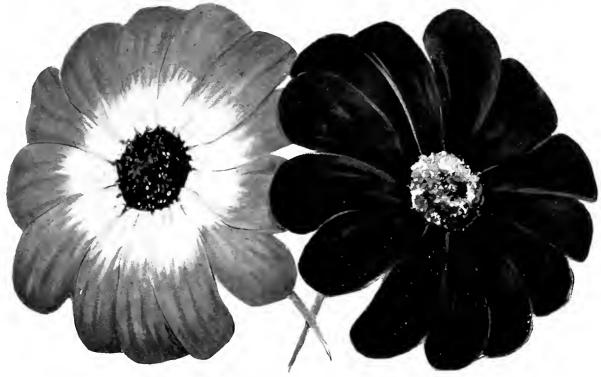

The above are packed in 8d. 1/- and 1/6 packets.

Carters Address for all correspondence, RAYNES PARK, LONDON, S.W. 19.

[CINERARIA

CINERARIA]

CINERARIA.—Sow seed in pans filled with a good light sandy compost in spring up to the beginning of June, and place in a cool frame. Transfer to small pots as soon as the seedlings have developed their leaves and pot on as the plants require it. They should be grown in a cold frame until frost necessitates their removal to a greenhouse. Even in winter they should not receive much artificial heat. Will come into bloom from Christmas to May.

No. 3710 Cineraria-Carters Brilliant Prize, mixed all colours.

No.
3710 Carters Brilliant Prize Cineraria, Choicest Colours
Mixed, saved from finest flowers.—The constant and
painstaking attention which we have lavished upon this strain
has resulted in the production of a remarkable range of colour.
The self colours range from pure white through varied shades of
pink, rose, and earmine to deepest crimson, and pale porcelain,
wedgwood, ultramarine, royal hine to the deepest purple, whilst
the bordered varieties show a remarkable diversity of shades.
The habit of the plants is perfect, it being difficult to find a plant
showing the slightest divergence from type. Gold Medal,
Chelsea, 1912, 1913, 1914–1916, 1919, 1920. Individual blooms
5 to 6 in.

Per pkt., 1/6, 2/6, 3/6, and 5/-

3711 Carters Snowflake.—A pure white form, equalling our Brilliant Prize strain in the solidity of the blooms and perfection of habit. Per pkt., 2/6, 3/6, and 5/-

3712 Carters Choice Double.—Of all the finest forms and Per pkt., 2/6, 3/6, and 5/-

3714 Cineraria Maritima.—A well-known hardy silver-foliaged perennial, for bedding or mixed borders. Seeds should be sown in pans in early spring under glass, and the seedlings pricked off into boxes, hardening before planting out. III, 1½ ft.

No.
3718 Carters Stellata Cactus (OUR PRIZE STRAIN). An entirely new break in Cinerarias. The edges of the florets recurve like a single Cactus Daltia. The colours include white, blue, blush, violet, manye, and some have a white zone surrounding the dark disc, the florets being tipped with violet, blue, &c. The flowers when cut last a long time, and by their lightness and elegance make charming table decorations. A grand mixture, including all shades of colour.

Carters Choicest Mixed Per pkt., 1/6, 2/6, 3/6, and 5/-

3719 Carters Stellata (GOLD MEDAL STRAIS).—This freepanicled variety has now obtained general approval, especially for decorative arrangements, for which purpose it has proved marvellously effective, being a valuable adjunct to the much-admired Carters Brilliant Prize. It should be raised and treated in the same manner as the other greenhouse varieties.

No. 3718 Carters Cactus.

We shall be extremely obliged if customers will kindly indicate the calalogue number when ordering,

Carters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19.

CLARKIA1

**[COLEUS** 

No. 3781 Clarkia, Salmon Queen.

No. 3777 Clarkia, Scarlet Queen.

No. 3778 Clarkia, Brilliant Princess.

CLARKIA.—This type attains a height of 2½ ft. in the open ground, and bears long graceful sprays of double and semi-double blooms which are splendid for decorative purposes, lasting for several days in water. Sown during the autumn and grown on in a cool house make magnificent speciments 4 to 6 ft. high for the adormant of greenhouse or winter garden. winter garden.

#### TALL ELEGANS VARIETIES.

- 3777 Carters Scarlet Queen, Double.-A wonderful glowing salmon scarlet; very brilliant and clear under electric light. (Photograph above.)
- 3778 Brilliant Princess, Double.—Clear warm rose. A very telling variety for pots or borders. (Photograph above.
- 3779 **Blotched, Semi-double.**—The petals are clear rose pink with a flaking of rosy scarlet. The combination is very effective.
- 3780 Purple King, Double.—Clear rose purple. An excellent companion to White Prince.
- 3781 Salmon Queen, Double.—Salmon pink. The forermner of the present-day improved varieties. (Photograph above.)
- 3782 White Prince, Double.-Pure white. An excellent companion to any of the above varieties.
- 3783 Single.-Original purple variety.
- 3784 Alba Single. White form of above.

#### DWARF PULCHELLA (Integripetala).

A dwarf species, I to 12 ft. high, with double and single flowered varieties. Compact habit, very useful for garden decoration, but not so suitable for cutting and pot culture as the *Elegans* varieties. The Integripetala are the best forms, being wider in the petal than the original Pulchella type.

- 3788 Mrs. Langtry. -Single. Carmine, edged white; a very light and elegant combination of colour.
- 3789 Morning Glory. -Double. Rosy purple, margined white. A fine bedding variety.
- 3790 Single Dark Rose. -Original type.
- 3791 Single Pure White.-White form of original type.
- 3792 Double Rose.-Pretty clear rose-coloured flowers borne in great abundance.
- 3793 Double White.-A pure white form of above variety.

CLARY. -- Sow outdoors in spring.

3555 Purple. -Hardy annual, for bedding,

CLEMATIS (VIRGIN'S BOWER). - Well-known climbing perennials. Sow seed in early spring under glass, pot off, and plant ontdoors in early summer,

3558 Flammula. -Ordinary white, sweet scented,

3560 Jackmanni varieties.—Saved from the best colours.

CLIANTHUS (GLORY PEA).—Seed should be sown in well-drained pot of light soil early in spring, in strong heat. May be flowered out of doors in favourable situations.

3613 Dampieri (Sturt's Pea). - Unique, scarlet and black. 41t. 2 ft.

3614 Puniceus (New Zealand Glory or Lobster Plant).—Bright scarlet flowers. Climber.

## CLINTONIA.

- 3617 Pulchella.—One of the loveliest pot annuals: purple, white, and yellow. Ht. 6 in.
- COBÆA.—Handsome half-hardy climber for greenhouse or in warm situation out of doors. Lasily grown from seed; sow early in spring in heat, and pot off.
- 3620 Scandens.—Purple bell-shaped flowers.
- 3621 Scandens alba.-White.
- COCKSCOMB.—Annual. Our strain cannot be surpassed. For earliest work, sow in January or February, and again in spring for general work, using good light sandy loam.
- 3724 Carters Empress -Combs of immense size; measured these  $I_4^1$  ft. across. Rich crimson, dark foliage.
- 3725 Crimson Light foliage. Good ordinary stock. IIt. 1 ft.
- 3727 Dwarf Mixed.—A splendid strain of this showy annual. Includes crimson, blood red, purple, rose, and yellow shades. III. 1 ft.
- COLEUS. Grand ornamental foliaged plants, superbly variegated; for stove, greenhouse, or sub-tropical garden in summer. Sow in heat in early spring, and pot off. The variegation does not always show itself plainly until the plants have reached some size.
- 3730 Carters Choicest Mixed. -Saved from the best varieties.

The above are packed in 8d. 1/- and 1/6 packets.

Carters Address for all correspondence, RAYNES PARK, LONDON, S.W. 19.

## CARTERS TESTED SEEDS—BEAUTIFUL FLOWERS.

(Cyanus Minor),—Every-thing may be said on be-half of these flowers, both

as a border plant and also as a cul bloom. 3700 Royal Blue.—Perhaps the most popular of all. 3701 Carters Double

Mixed. 3702 Carters Single

Mixed. 3703 Vietoria.—Dwarf.

3704 Purple.

3705 Rose.

3706 White.

## COSMEA. — Cosmeas

hitherto been shut out of English gardens on account of their lateness in flowering. No. 3823 brings them within the range of desirable flowers for this

country. 3823 **Early** Flowering Varieties, mixed. A pretty feathery foliaged annual, useful for cutling, growing sometimes to a height of 1ft., and very effective right up to the frost. Makes a nice

winter flowering pot plant if sown in summer. Including purple, pink, manye, white, and tose, 11t. 3 ft. to 4 ft. 3827 Early Giant Blush Queen. Beauliful blush, flaked rosy

lilac. 3828 Early White Queen.--Large-flowered.

3828 Early write Queen-Agenored.
3824 Bipinnata.—Purple.—The original type from which all the modern varieties have originated.
3826 Carters Mixed Colours.—An excellent strain which flowers rather later than our Early Flowering varieties.

COWSLIP.-Perennial. Our mixture contains a great diversity of colours.

No. 3830 English, mixed.—Much more robust than the common variety. The flower stems, which reach a height of 1 ft., are crowned with an umbel of graceful drooping blooms, in a wide range of yellow, red, crimson, and maroon shades.

CUPHEA.—A pretty shrubby perennial, which makes a useful pot plant. It is often employed for bedding out in summer, and for this work is best treated as an annual. May be sown in autumn or spring in heat.

3839 Platycentra.-Red and black. Ht. 1 ft.

CYANUS MINOR .- See Conflower.

CYCLAMEN.—(CARTERS PRIZE STRAIN.)—Sow at any time (spring and autuum to be preferred) in pots or pans, in peaty loam and sand, covering the soil scarcely a quarter of an inch, place on warm shelf near the glass in greenhouse, keeping the soil moist but well drained. The seed takes from four to eight weeks to germinate. When the bulbs are the size of a pea transplant singly into small pots, transferring to larger pots as the plants develop. An average of 60 deg. is the temperature best suited for producing well-developed flowers, and good ventilation without draught is a safeguard from disease. We also supply dry bulbs.

3842 Carters Superb Mixture of all Colours.—Our grand large-flowered strain in all its best forms and every shade of colour, including our superb salmon. This is a selection of many years' patient observation and labour.

Per pkt., 1/6, 2/6, and 5/-

**JCYCLAMEN** 

No 3850 Cyclamen, Carters White Swan.

3850 Carters White Swan.—The largest, also the most profuse blooming white Cyclamen in cultivation. A graud thing, throwing its pure white flowers well above the foliage. A year-old plant of this in full bloom is a magnificent sight, 16 is Class Certificate, R.H.S.

3843 St. George.—This is a sulmon colour, with a silver-marked leaf, very ornamental as a foliage plant previous to the blossoming period. Received a Certificate from the Royal Horticultural Society.

Per nkt. 1/- 1/6, and 2/6

Per pkt., 1/-, 1/6, and 2/6

The above are packed in 8d. 1/- and 1/6 packets.

Carters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19.

## CYCLAMEN—Continued.

No.
3844 Carters Butterfly.—This charming Cyclameu may be considered one of the most striking among florists' flowers. The somewhat formal bearing of the older varieties is replaced by a more graceful habit, and the colours are surprisingly varied and beautiful. It may be observed that the petals of the flowers are broad across the top, and the edges finely curled or waved. The beauty of the varietations in colour is captivating.

Per pkt., 1/-, 1/6, and 2/6 3815 **Brilliant.**—Pure deep crimson blooms with a metallic sheeu shading from the base of each petal, which lights up the whole flower and gives a brilliant effect.

Per pkt., 1/-, 1/6, and 2/6

3846 **Dainty Queen.—**A giant flower of splendid substance; colour, pleasing soft rosy mauve, base of the petals being much deeper than the upper part.

Per pkt., 1/-, 1/6, and 2/6

3847 Excelsior.—The largest and most solid white flower with claret base, equalling in size and vigour our White Swan.

Per pkt., 1/-, 1/6, and 2/6 3848 **Carters Salmon.** -Distinct and fresh; a strong and vigorous variety. Per pkt., 1/-, 1/6, and 2/6

3849 Charming Bride.-A superb pure white variety with large handsome petals; compact habit, robust growth.

Per pkt., 1/-, 1/6, and 2/6 3851 Mrs. L. M. Graves.—This is a salmon scarlet, that is to say, a deeper scarlet colour diffused with the salmon. This has obtained a certificate from the Royal Horticultural Society.

Per pkt., 1/-, 1/6, aud 2/6

3852 Mrs. Buckston. - Award of Merit, R.H.S. - This novelty bears beautifully frilled petals of a real salmon shade of colour, somewhat more delicate than the Carters Salmon. The flowers are very large and freely produced. This is a valuable addition to the crested petalled Cyclamen, and will at once take its place in the front rank.

Per pkt., 1/-, 1/6, and 2/6

3853 Cartors Crostod.—A very pretty type of flower, contrasting conspicuously when mingled with a collection of the ordinary type. The flowers are also very lasting. Choicest mixed.

3834 **Crimson Queen.—**A bold well-formed flower: colour deep maroon red. Per pkt., 1/-, 1/6, and 2/6 Per pkt., 1/-, 1/6, and 2 6

3859 Princess May .-- Adainty soft pink. Per pkt., 1/-, 1/6, and 2/6 3860 Rosy Morn.—Finest form; clear bright rose, with dark claret base.

Per pkt., 1/-, 1/6, and 2/6

3861 Tho Sultan.—The richest coloured Cyclamen; intense Per pkt., 1/-, 1/6, and 2/6

**DAHLIA.**—Our strains have been specially hybridised and will produce splendid types. Sow the seed in early spring in heat, and pot off. Plant out as soon as large enough in June.

#### CARTERS CROSS-FERTILIZED STRAINS.

3901 CartersSingle.-Magnificentflowers, newestand best colonis.

3902 Pigmy Single. - Forms a dwarf bush,

3903 Carters Cactus.—From the best varieties, mixed.

3904 Carters Giant.-Producing very large semi-double flowers.

3905 Show Double.-For perfect form cannot be surpassed.

3906 Perfection Giant Single.—The variety in this strain is

3907 Bouquet or Pompom.—One of the most useful flowers for cutting.

3908 Collectto.—Our special strain of Collectte varieties contains a great variety of distinct shades and colours, the majority being equal in form to named varieties.

3910 Single coronata. Sweet secuted orange scarlet.

**DAISY.**—Charming spring flowers in borders. Sow in light soil in spring, and prick out.

3962 Finest Double (Bellis).—Pink.

3963 Finest Doublo (Bellis).-White.

3964 Finest Doublo (Bellis).—Carters selected strains of all

3965 Paris White (Chrysanthemum).

3966 Swan River (Brachycome),-A bright, free-blooming annual; blue and white.

DATURA (THORN APPLE).—Sow in heat in early spring, and pot off, hardening off well before planting out. Snaveolens may be placed out of doors in summer, but must be protected from frosts.

3919 Atroviolacea plena.—Trumpet-shaped flowers for con-servatory or sub-tropical gardens. Ht. 2 ft. servatory or sub-tropical gardens. Ht. 2 ft.
3920 **Chlorantha, fl. pl.**—Fine double golden tempet, sweet-scented; half-hardy. Ht. 2 ft.

3921 Suavoolons (Brugmansia). - Splendid shrub for greenhouse; grand white blossoms.

[DEVIL-IN-A-BUSH

DELPHINIUM. The Perennial Delphiniums are best sown in summer, as they then make strong plants to flower the following season. They can also be sown early in spring, and are very effective in borders during the early summer the following year.

3942 Carters Cholcesi Mixed Delphinium.—A wonderful improvement on other varieties, saved from special named sorts. 11t. 3 to 5 ft.

3913 Cardinalo. - Scarlet species from California. 111, 2 ft.

3944 Cashmerianum.—Rich bluc. Ht. 12 ft.

3945 Nudicaulo.-Dwarf orange-scallet; hardy. Ht. 1 ft.

3946 Sulphureum (Zalil).—Long spikes of sulphur-yellow flowers.

3947 Formosum.-Rich deep blue; magnificent. Ht. 3 ft.

3948 Formosum cælestinum.-A paler shade of blue; superb. Rt. 3 ft.

### ANNUAL DELPHINIUM.

Hints on Culture.—The seed should be sown early, in heat, and grown on in pots until ready for bedding out. Late sowings do not make effective plants nutil too late in the senson.

3958 Carters Annual, Bluo Butterfly.—The greatest acquisition in blue annual flowers for many years. The Royal Horticultural Society, when granting it the Award of Merit, stated in their report that it is "a dainty annual of bushy branching habit, and very floriferous." Itt. 15 in.

#### DEVIL-IN-A-BUSH.

3924 Bright blue; free bloomer, useful for cutting. Ma grown as a pot plant for culture under glass. Ht. 1 ft. May also be

The above are packed in 8d. 1/- and 1/6 packets.

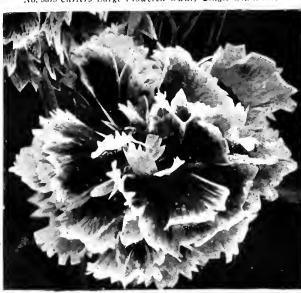

### CARTERS TESTED SEEDS—BEAUTIFUL FLOWERS.

### The following are packed in 8d. 1'- and 1/6 packets.

DIANTHUS]

No. 3875 Carters Large Flowered Dwarf Single Dianthus.

No. 3896 Carlers Choice Double Dianthus.

[EDELWEISS

DIANTHUS (Dianthus Chinensis, Indian Pink).—Biennial, we consider the \*Heddiwiji\* section of the Dianthus introduced by our house from the Fast, and the parent of many of the best types, to be one of the finest additions to our annual flora for the last fifty years, and the varieties detailed below are the improved results from the original importation. Sow in spring in boxes or pots, and transplant to where intended to bloom. Seeds of all the improved types may be also sown at the end of summer, and grown on in pots through the winter mider fairly cool treatment. They will make robust plants at the end of spring, and become useful in the decoration of the conservatory. Our Large-flowered Dwarf type is a beautiful selection.

- 3875 Carters Large-flowered Dwarf Single.—A superb mixture of beautiful colours and markings. Free blooming and dwarf. The plants attain a height of about 6 to 8 in.
- 3876 Carters Vesuvius.—Single fiery searlet, brilliant colonr. It. 1 ft.
- 3877 The Bride.—Its blossoms measure 2½ in, across. Carmine centre, with a zone of deep chocolate, surrounded by an expanse of pure white.—Itt. 9 in.
- 3878 Salmon Shades Semi-double.—Contain many beautiful salmon, salmon-pink, and salmon-scarlet shades, which cannot be obtained in separate colours from seed. A brilliant strain for bedding. 11, 9 in.
- 3879 Carters Japanese Feather Single.—A most fantastic strain of Japanese origin, producing broad petals with a long feathery fringe in a remarkable range of colours. 11t. 9 in.
- 3880 Crimson Belle Single.—Colour a rich brilliant crimson. IIt. I ft.
- 3881 **Diadematus, fl. pl.**—A double strain of extraordinary beauty, edged and blotched.
- 3882 Eastern Queen Single.—Marked with delicate pencilling of rose and white. A beauty. Ht. I ft.
- 3883 Double White.-Fine flower of good form. Ht. 1 ft.
- 3884 Dwarf Crimson Semi-double, Large-flowered.— Clear glowing crimson, shaded maroon. Very compact habit. 11t. 9 in.
- 3885 Dwarf White Single, Large-flowered.—Pure satingwhite petals, forming perfectly circular outline. A faint central zone of pale pink makes the flower very handsome. III. 9 in.
- 3886 **Heddiwigi.**—The original strain from Japan. Large single blossoms, fine colours.
- 3887 **Heddiwigi nobilis.**—A grand improvement, with robust dark foliage. III. I ft.
- 3888 Laciniatus. Grand single flowers. 11t. 1 ft.
- 3895 Carters Choice Single Mixed.—Every shade found in Japanese Dianthus is contained in this strain; deepest crimson, countless shades of maroon, searlet, earmine, rose-pink to pure white. Many blooms are beautifully pencilled on white and dark grounds. Ht, I ft.
- 3896 Carters Choice Double Mixed.—Very large double flowers of all shades. Although annuals, many of the forms found in this mixture equal the named perennial Purks.

**DIDISCUS.**—Pretty half-hardy annual; fine for pot culture.

3927 Cœrulcus.—Bright blue. 11t. 1 ft.

DIGITALIS.—See Foxglove.

- **DIMORPHOTHECA.**—Sow in cold frames in March, and transplant to open, or sow in open during April. Rows in ontesting grounds have been covered with blossom for six months in dry and wet seasons.
- 3914 Aurantiaca.—Annual. Brilliant growing orange blossoms with black disc. 11t. I ft.
- 3915 Aurantiaca Hybrids. Annual. New selected hybrids in splendid mixture. 11t, 1 ft.
- **DRACÆNA.** Easily raised from seed. Sow in pans, in heat, in early spring.
- 3939 **Rubra.** A decorative table plant with variously coloured foliage. 11t, 2 ft,

ECCREMOCARPUS. See Calampelis.

EDELWEISS (ALPINE, EVERLASTING).

4028 White. - A favourite flower of the Alps.

The above are packed in 8d. 1/- and 1/6 packets. Carters Seedsmen to H.M. the King, R.IYNES P.IRK, LONDON, S.W. 19.

EGG PLANT]

The following are packed in 8d. 1/- and 1/6 packets. [ESCHSCHOLTZIA

No. 3967 Eschscholtzia, The Geisha (top). No. 3975 Eschscholtzia, Mandarin. No. 3972 Eschscholtzia, Carmine King (bottom).

EGG PLANT (Aubergine).—Ornamental fruited. Very decorative as pot plants in the conservatory when in fruit. Sow in No. spring in heat, and pot off as soon as they can be handled.

4029 Purple.

- 4030 Searlet. 4031 White.

ERICA (CAPE HEATHS).—Winter-flowering plants.

4037 Mixed.—Carters choice varieties.

Per pkt., 2/6

ERINUS ALPINUS.—Herbaccons perennial. Sow in spring where plants are to grow, and thin ont.

4043 A charming Alpine rock plant; blue.

- ERYNGIUM (SEA HOLLY).—Ornamental foliage. Sow in winter or spring in pans, and plant out.
- 4046 Amethystinum.—Blue stem and bracts.
- 4047 Giganteum.-Grand foliage, ivory white-
- ERYSIMUM.-One of the brightest and best hardy annuals. Grown everywhere. Sow in antunu for spring flowering, and in early spring to flower later.
- 4051 Golden Gem.-Brilliant golden yellow. Ht. 9 in.
- 4052 Perowskianum.-Orange Virginian Stock. Ht. 1 ft.
- 4053 **Pachyearpum.**—A spring flowering biennial. Hardy; very showy; orange. Iff  $4\frac{1}{2}$  ft.
- ERYTHRINA (CORAL TRIE).—Greenhouse shrubs. Sow in heat in early spring, and pot off.
- 4056 Mixed. Carters choice varieties.
- ESCHSCHOLTZIA. (Californian Poppy.) Hardy annuals (or biennials) of immense utility for mixed borders. Hardy, bright, and free-blooming, and of the easiest culture. They bloom and flourish capally well on light and heavy soils. Although not generally known, Eschscholtzias are excellent for decorative work. If cut early in the morning before the buds unfold, the flowers will last for several days in water. Sow in open in spring, and thin out. Ht. I ft. thin out. Ht. 1 ft.

Many of our later introductions of Eschscholtzias have Many of our fater introductions of Escusionistas nave been characterised by a distinctively compact and upright habit of growth, rendering this attractive flower suitable for fronts of borders and other places in the garden not hilberto filled by Eschscholtzias. We classify them accordingly.

- 3967 **The Geisha.** Award of Merit, R.H.S. Petuls prettily finted. Colour inside of petuls brilliant golden, outside of petuls orange-crimson. Habit of growth, upright and compact. The most brilliant colour in this family of bright shades. A bed in bright smishine has the appearance of being on fire.
- 3968 Carters Fringed. Of the Californica type, with deep-coloured base to the prettily fringed petal.
- 3969 The Rajah. This has brought for the first time a purplish carmine in Eschscholtzias.
- 3970 Carters New Hybrids.—Contain many shades and tints of colour not previously seen in Eschscholtzias, giving a play of colour at once interesting and brilliant, the pale rose and flesh shades being particularly charming.
- 3971 The Mikado.—Award of Merit, R.H.S. The Mihado was the result of a cross between Mandarin, which we introduced in 1879, and Carmine King, of 1906. A brilliant orange-crimson, suffused with the Instre of Carm uc King.
- 3987 The Mikado eaniculata. - Intense - crimson-scarlet. delicately lluted petals.
- 3972 Carters Carmine King. -Award of Merit, R.H.S. The Instrous earmine colour is very attractive.
- 3975 Carters Mandarin, -- Exterior, orange-crimson; inner surface, deep orange.

  Open-growing Section.
- 3973 Carters Diana. This is a most dainty flower. The colour is a rosy white, while the petals are fluted in a most novel manner, giving the flower quite a fantastic and attractive appearance.
- 3974 Dainty Queen.—A beautiful shade in Eschscholtzias. Colonr a tender blush or pale coral pink, slightly deeper towards the edges, with a groundwork of delicate cream. Flowers rather later than other varieties.
- 3977 Carters Double Orange.
- 3978 Carters Rose Cardinal. Bright rose.
- 3979 The Golden West. The largest flowering of all the Eschscholtzias. A charming orange colour.
- 3982 Californica -- Yellow. 3983 Crocca.- Orange.

3984 Crocca alba, -White.

3985 Crocea rosea.

3986 Crocca caniculata, with fluted petals.

The above are packed in 8d. 1/- and 1/6 packets.

## The following are packed in 8d. 1/- and 1/6 packets.

EUCALYPTUS]

EUCALYPTUS (AUSTRALIAN GUM TREES).—Handsome ornaments in the sub-tropical garden or in pots. Sow in gentle heat in early spring, and pot off.

4059 Amygdalinus (Giant Gum Tree).—One of the hardiest.

4060 Citriodorus (Lemon Gum). Lemon-scented foliage.

4061 Globulus (Blue Gum).-Fine glancons follage and strong perfnme.

**EUTOCA.**—Sow out of doors in spring.

4067 Viscida. - Hardy annual; bright blue. Ht. 1 ft.

EVENING PRIMROSE (GENOTHERA).—Exceedingly useful in mixed borders. The perennial species may be sown in early spring in pans in cool frame, and then transplanted; the annual and biennial out of doors in April and May.

4070 Acaulis (Taraxacifolia).-White: trailer. Annual. Ht. 6 in.

4071 Lamarekiana.—Golden : magnificent bicunial. Ht. 4 ft.

4072 Maeroearpa.—Large yellow blossoms; trailing perennial. IIt. 1 ft.

4074 Garden.-Bicunial. Ordinary species: vellow.

## **EVERLASTING FLOWERS.**

#### HELICHRYSUM.

A very beautiful everlasting flower available in a wide Annual. range of colours. If cut before quite developed, the flowers are very lasting.

3995 Carters Fireball.-Brilliant crimson.

3996 Carters Silverball.-Silver white.

3998 Purple.

4001 Yellow.

4002 Carters Choicest Mixed.

#### ACROCLINIUM. -- Annual.

4005 Double.-Beautiful rose-pink; good for pots or for early forcing.

4006 Roseum.—Ordinary.

4007 Album,-White

AMMOBIUM,-Annual.

4009 Alatum.-Pure white; eccentric growth.

Annual. The pick of the Australian flora in Everlasting Flowers Immense favourites. Well adapted for forcing in early spring, and for window boxes.

4013 Maeulata.-Bright rose with dark centre.

4014 Maeulata alba.-Large; pure white.

4015 Atrosanguinea.—Dark rosc.

4016 Manglesi.-The earliest introduction.

XERANTHEMUM.—Annual. Free-growing

4018 Double purple.

4019 Double white.

4020 Satin cerise .- A lovely colour.

EVERLASTING PEA (LATHYRUS).- Favourite hardy perennial. Sow in spring in the positions the plants are to permaneully occupy, as they are rather impatient of transplanting.

4077 Red (Latifolius).

4078 White (Latifolius albus).

4079 Rotundifolius. - Dark rose

FERNS.—Seed (or spore) carefully saved. Sow in pans of sandy peat, and prick off as soon as large enough.

4110 Greenhouse Varieties. - Carters choice selection.

4111 Hardy Varieties.-All sorts.

FEVERFEW .- See Pyrethrum.

FISHBONE THISTLE.—See Chamapence.

FLAX.—Sec Limm.

FLOS ADONIS (PHEASANT EYE).

4H4 Hardy Annual.- Scarlet and black. Ht. 1 ft.

## (Myosotis).

FORGET-ME-NOT In addition to their great value as spring bedding subjects, some species are useful for pot work. Carters Pyramid varieties are

[FRAXINELLA

particularly recommended for this purpose.

4080 Carters Royal Blue—Deep blue of a remarkably free flowering habit. These lovely plants are in great repute for spring bedding. Ht. 1 ft.
4081 Carters Light Blue.—A highly selected type of Alpestris. It comes into blossom early: continues mutil quite late. Ht. 1 ft.
4082 Dissitiflora.—Best bedding, blue. Ht. 9 in.

4083 Dissitiflora alba.--White.

4085 Azorica. - Light blue; compact growth. Ht. 6 in.

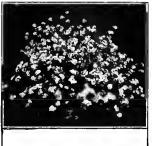

4086 Rupicola.—Deep blue; a gem for pot work. Ht. 4 in.

4087 Star of Love. -Beautiful blue. Distinct spray-like spikes of Ht. 6 in. bloom.

4088 Vietoria.—A favourite for market; most profuse bloomer.

4089 Garden .- Ordinary kind, select stock. Ht. 1 ft.

4030 Indigo Queen.-Award of Merit. R.H.S. Rich deeo indigo

No. 4080 Carters Royal Blue.

Ao. 4093 Carters Pyramid.

#### CARTERS PYRAMID FORGET-ME-NOT.

We offer these charming pyramidal types of Forget-me-nots with confidence that they will be greatly appreciated by our customers for spring bedding purposes. The plants assume an upright habit of growth, and when in bloom resemble miniature pyramids of floral beauty. Ht. 1 ft.

4092 Carters Pyramid Blue.

4093 Carters Pyramid White.

4094 Carters Pyramid Pink.

FOXGLOVE (Digitalis).—Stately perennials. As a background in a shrubbery, or as specimen plants in large beds, they are equally striking and effective. Sow in July for strong flowering plants the following season.

4101 Carters Spotted.—A superb mixture containing a wonderful range of colours, the soft rose and carmine shades being purticularly line. The older forms of magenta and crude pink have been eliminated from this choice strain. Fine colours mixed.

4102 Canariensis.—A novel colour, orange brown.

4103 White.-Superb variety. Ht. 4 to 6 ft.

4104 Monstrosa.—A singular variation. A long spike with a large flower at the top. 4105 **Gloxinioides.**—Large-throated species. IIt. 3 ft.

4106 Grandiflora. - Curious species. Yellow. 11t. 3 ft.

4107 Purpurea.—Purple. Ht. 3 ft.

4008 Munstead White.—A refined type of this beautiful woodland flower, selected by Miss Gertrude Jekyll at Munstead Wood. One of the most effective plants for the wild garden or woodland walks.

#### FRANCOA.

4117 Ramosa Hybrida (Bridal Wreath).—Half-hardy perennial. Lovely sprays of pure white flowers are freely produced on long branching spikes. Very easy of cultivation for greenhouse or conservatory decoration. Seed sown in March flower freely in about 15 months. IIt.  $2\frac{1}{2}$  It.

FRAXINELLA (BURNING BUSH).—Hardy perennial. Seeds may be sown in spring. 4120 **Red Purple.—**Ht. 2 ft. 4121 **White.**—Ht. 2 ft.

The above are packed in 8d. 1/- and 1/6 packets.

FREESIA1

FREESIA .- A bulbons plant with beautiful flowers. Sow in pans In heat, in early spring,

4123 Carters Choice Mixed.—Deficiously secuted, white and yellow. Ht. I ft.

FRENCH HONEYSUCKLE.-Hardy free-growing peren-

nial. Sow in spring, and transplant, 4126 Red or Crimson.—Ht. 3 ft.

4127 White.-Showy plant. Ht. 3 ft.

FUCHSIA.-Handsome flowering shrub. Sow in gentle heat in early spring; pot off.
4129 Superb Mixed.—A splendid collection.

GAILLARDIA.—We were awarded the First Class Certificate of the Royal Horticultural Society for Double Gaillardias.—Showy and handsome hardy perennials, for beds and borders. The flowers are a most peculiar combination of shades, varying between gold and marcon. Sow in summer in drills, transplanting to permanent withing the between gold and positions during autumn; also sow early in spring under glass, prick off into boxes, and plant out in May.

The annual varieties may be sown in open ground early in spring, thinning the plants to 1 ft. apart.

4184 Carters Large-flowering Choice Single Hybrids.-

Perennial variety, but will flower the first season if sown early.

4185 Grandiflora hybrida.—Crimson and gold: large blossoms.

4186 Grandiflora hybrida compacta.—New dwarf compact variety. Ht. 1 ft. Nos. 4185 and 4186 will flower the first season if sown early.

Annual Varieties.

4189 Carters Choice Double.—Mixed; large globular heads.
4190 Picta.—Yellow and scarlet; old variety. 1 ft.
4191 Picta aurea.—Golden y-flow. Ht. 1 ft.

4192 Pieta Aurora Borcalis.-Red and yellow. Ht. 1 ft.

GARDENIA (CAPE JESSAMINE).

IIt. 2 ft.

4228 Florida.-Pare white; delicious scent. Pot plant.

GAZAMIA.—Perennial. A brilliant plant for edging beds. 4231 Splendens hybrida.—Saved from the finest new varieties.

GENISTA (Cytisus).—Perennial.—Sow Candicans in spring, in pans, and grow on in pots. Andrecana should be sown in the open ground where intended to remain or transplanted.

4234 Andreoana. - Hardy shrub. Orange-yellow, maroon markings. 4235 Candicans. — Yellow.

Favourite for table decoration.

[GLORY PEA

GENTIANA. -Beautiful dwarf Alpine perennial. Sow in pans in spring, and plant out.

No. 4141 Carters Invincible Prize Gloxinia in our Nurseries. Described in next page.

The above are packed in 8d. 1/- and 1/6 packets.

GLOXINIA]

GLOXINIA.—Sow in well-drained pans from January to March (or in the antumn), fill the pans with soil consisting of a mixture of hulf peat and half leaf mould, with a small quantity of pulverisced charcoal and silver sand sifted very fine, to within half an inch of the rim; water with fine rose, then sow the seed thinly, taking care not to cover it with soil; place in a temperature of 75 degs, and cover the pans with a piece of shaded glass, gradually removing the same as the seedlings progress. When large enough to handle, prick off into pans at about 1 in, apart, then pot off into single pots. Many will soon attain the requisite strength to go into 5-in, or 48 pots, and will bloom in August and September of the same year. The potting-off soil should consist of one-half good loan, one-half fibrous peat, with a good sprinkling of sand and broken charcoal.

No.
4441 Carters Invincible Prize Superb Mixture.—The superb mixture of Gloxinia we offer under the name Invincible is magnificent. It contains all the best self-colonts, crimson, sapphire, purple, rose, blush, violet, white, &c., also the finest edged, tipped, ringed, and shaded varieties, together with the most beautiful spotted or marbled kinds, and is the finest we have seen. Gold Medal, Chelsea, 1916; Gold Medal, Chelsea, 1919 and 1920. Blooms 6 in. across. Per pkt., 2/6, 3/6, and 5/-

1919 and 1920. Blooms 6 in. across. Per pkt., 2/6, 3/6, and 5/4135 Carters Giant Carmine.—A choice colour in Gloxinias, the edges of the blooms being of a light carmine, gradually shading to a deeper tone towards the throat. The habit is robust and creet.

Per pkt., 4/6 and 2/6

4136 Carters Giant Purple.—A strong grower, carrying flowers of immense size. In colour it is a deep-velvety purple, with a slightly spotted throat.

Per pkt., 1/6 and 2/6

4137 Carters Giant Scarlet.—A very vivid scarlet variety, which comes quite true from seed. The flowers are of good size and texture.

texture.

Per pkt., 1/6 and 2/6
4138 Carters Giant White.—We consider this the best white yet
raised. The size of the flowers, the purity of its colour, and its
robust habit, leave nothing to be desired.
The large flowers are
held creet on exceptionally strong stems.

Per pkt., 1/6 and 2/6

4140 Carters Cyclops.—This is one of the largest and strongest growing Gloxinias in commerce. The base of the throat is cream, heavily spotted, whilst the apper portion is of intense scarlet, passing to a soft pink, ultimately leaving a wide margin of purest white at edge of each lobe. Per pkt., 1/6 and 2/6 4143 Othello.—Very large; deep blue ... Per pkt., 1/6 and 2/6

**GODETIA.**—In addition to the wide range of shades now found in this lovely annual, the plants vary greatly in habit. We have therefore divided them into three sections, and trust this will assist our customers in making their selections. All varieties may be sown in boxes and transplanted, or may be sown direct into the ground. A few are excellent for pots.

#### GODETIA—Continued.

No. 4151 Godetia, Carters New Lavender.

No.
4151 Carters New Lavender.—Single. Award of Merit, R.H.S.
The pale lavender flowers are borne on long graceful racemes,
which are splendid for table decoration. This is quite distinct
from any other Godetia, and is the best variety for pot culture.
Sown in September the plants bloom in early spring. Ht. 2 ft.

NOVELTY. Tall Double Deep Rose.—Very brilliant and handsome. Bright solid rose, shaded and edged carmine. Identical in habit with our Double Pink variety. 11t. 2½ ft.

4153 Carters Double Pink. A rather stronger grower than Carters New Lavender, bearing a number of long spikes which earry 18 to 20 beautiful double clear pink blooms, which will last a week in water if cut in a young state. It is also splendid for pot culture. Ht. 2½ ft. (See Photograph on back of Cover.)

4154 **Tall Spotted** (Bridesmaid).—Single. Deep flesh pink with rose blotch at base of each petal. Ht,  $2\frac{1}{2}$  ft.

#### MEDIUM VARIETIES.

- 4160 Single Blush (The Bride).—A very telling pale pink variety, with deep pink zone at the base of petals. Ht. 1½ ft.
- 4161 Carters Dark Rose (Lady Albemarle).—Deep rose, edged carmine. Ift.  $1\frac{1}{2}$  ft.
- 4162 Carters Carmine.—Pure clean carmine with white zone. Itt. 1½ ft.
- 4163 Carters White (White Pearl).—The best white Godetia, the blooms being creamy white, which blends well with other varieties. III, 1½ ft.
- 4167 Carters Choice Mixed.—A well-balanced strain, containing all the best colours found in the tall and medium sections

#### DWARF VARIETIES.

- 4173 Deep Rose Pink (Lady Satin Rose).—A very pure colour with shining satin surface. Very brilliant. Ht. I ft.
- 4174 Pink (Rosamund).—Rich medium shade. Flower well formed and very freely produced. Ht. I ft.
- 4175 **Crimson** (Gloriosa).—The deepest colour in Godetias. Solid and of splendid substance.—IIt. I ft.
- 4176 **Crimson Glow.**—Bright crimson scarlet with pure white base. The petals being very full and crimped give the flowers a very graceful appearance. One of the most free flowering. III. I ft.
- 4178 Miniature Crimson, -Valuable for edging and bedding, Dwarf and compact, glowing crimson, shaded rosy heliotrope at edge. 11t. 6 in.

The above are packed in 8d. 1/- and 1/6 packets.

GOLDEN FEATHER)

[HELICHRYSUM

## GOLDEN FEATHER. -- See Pyrethrum.

### GOURDS (ORNAMENTAL).

These require about the same cultivation as Vegetable Marrows, and should be largely grown in flower gardens and pleasure grounds. Trained over a pergola

they form a distinct, interesting, and beautiful feature. The smaller fruiting Apple, Orange, Pear, and Egg-shaped kinds produce a charming effect when trained over arches, while the majority of varieties have a very charming effect when tied up to poles. The Pumpkin and Squash varieties are eaten very largely on the Continent and in the United States.

No. 4283 Ornamental Gourds.

No. 4283 Mixed, in great variety. 4284 Collection, 12 varieties, small-fruited kinds Apple, Pear

Orange, &c. ... 

## GRASSES, ORNAMENTAL, Hints on Culture.—The annual varieties should be

sown out of doors

Per pkt., 2/6

during April where they are intended to flower, or for earlier work sow under glass, and plant out. The percunial varieties are best sown during summer, and planted out in borders in spring. The flower heads should be cut in a young stage and hung upside down to dry, as they are then more lasting for decorative purposes.

4196 Agrostis nebulosa.—Elegant and graceful; the best. 4200 Briza gracilis (Quaking Grass). 4201 Briza maxima (Quaking Grass).

4204 Coix lachryma (Joh's Tears), 4205 Cyperus alternifolius (Umbrella Grass),—Semi-aquatic.

4206 Eragrostis elegans (Love Grass). 4211 \*Gynerium argenteum (Pampos Grass).

4212 Hordeum jubatum (Squirrel's-tail).

4212 Hordeum jubatum (Squirrel's-tatt).
4213 "Isolepis graeilis.—Charming pot plant.
4214 Lagurus ovatus (Hare's-tait) (Grass).
4217 Panieum plieatum.—Graceful panieles of bloom.
4218 Panieum tonsum.—New and beautiful.
4219 Panieum virgatum.—Delicate, graceful bloom.
4220 \*Stipa ponnata (Feather Grass).
4221 Cartors Choice Mixed Variotics.
4221 Callection of 6 Distinct Varieties ... Per 4224 Colloction of 6 Distinct Varieties ...

These varieties will not bloom the first year from seed.

GREVILLEA.—An ornamental plant. In greatuse for decorative purposes. Sow in heat in early spring, and pot off as soon as they can be handled.

4271 Robusta. -The best for general use. Beautiful feru-like

GUM TREE. See Encalyptus.

**GYPSOPHILA** (CLOUD PLANT).—Graceful panieles of wayy blossom; for bouquets, table decoration, vases, &c. Sow the annual species in spring where the plants are intended to flower, and thin out seedlings. *Panienlata* is a perepuial, and should be sown in spring or summer.

No. 4274 Gypsophila Elegans Grandiflora.

4274 Elegans grandiflora. -Annual. Cream white.

4275 Elegans Carmine. -Annual. A new shade. Most effective for decorative purposes.

4276 Elegans rosea.—Annual. Rose.

4277 Muralis.-Hardy annual for rockwork. Ht. 6 in.

4278 Paniculata.—The pure white perennial kind. Iff,  $2^1_d$  ft.

4279 Paniculata Double, -Percunial. A beautiful double form of the Cloud Plant, possessing the advantage of flowering under a much longer period than the type. If sown in spring will flower freely the following year. IIt. 2 ft.

HAWKWEED. Annual. Will grow any where if sown in spring.

4311 **Red.** 11t. Lft.

4312 White. III, I ft. 4313 Yellow. III, I ft.

HEARTSEASE. -Sec Pansy.

HELIANTHUS. -See Suullower.

## The following are packed in 8d. 1/- and 1/6 packets.

HELIOTROPE]

HELIOTROPE (CHERRY PIE).—Sweet-scented perennials. Sow under glass in early spring, and pot off.

4325 Carters Large-flowered Varieties.—Beautiful novelties; good colours

4326 Anna Turrell.—Light. 41t. 2 ft.

4327 Roi des Noirs,-Dark. Ilt. 2 ft.

4328 White Lady.

HEUCHERA.-Perennial. Charming for bouquets. Sow in spring, and plant out.

4332 Splendens,-Crimson. Ht. 13 ft.

4333 Splendens alba-White.

HIBISCUS (MALLOW TRIBE) .- Showy anumal and perennial. Sow Africanus, the annual species, in early spring under glass, and plant out when all fear of frost has gone. Coccineus should be sown in heat, and potted off and grown in warm house.

4336 Africanus .-- Annual. Creamy-yellow, purple markings. 111.

4337 Coccineus. - Scarlet greenhouse shrub; used for decoration of walls. Ilt. 6 ft.

HOLLYHOCK.—Where plants have suffered from rust in previous years, seedlings should be sprayed with Bordeaux mixture early in spring, and again when the flower spikes are forming. Seed is usually sown in summer. and the plants grown on to flower next season, but some prefer to sow in boxes or on a hot-bed early in the year. Prick the young plants out, and plant out in April to bloom the same simmer.

CARTERS DOUBLE SHOW.

4290 Carters Crimson. 4291 Carters Purplish-Violet. 4292 Carters Rose.

4294 Carters Sulphur-Yellow. 4295 Carters Pure White. 4298 Carters Choice Mixed.

4302 **Double Palling Bello.**—This particularly fine form bears large double flowers of a charming shade of silvery pink and attracts much attention. A splendid subject for chumping at the back of herbaceous borders.

Per pkt., 1/6 and 2/6

4306

NEW.

Countryside. - With the same attractive habit of growth as Palling Belle. Flowers of a charming crimson colour.

Per pkt., 1/6 and 2/6

HOLLYHOCK - Continued.

No.
 Carters Perpetual-flowering. — Annual Type. — Sown early in spring and planted out first week in May, it will bloom from middle of July to late in autumn. Habit branching, semitall, flowers double with graceful loose petals. Mixed colours.
 Choice Mammoth Fringed Varieties. — Mixed colours.

HACOB'S LADDER

Single hybrids in the most delicate shades and pure colours. The plants are very robust and remain in bloom over a long

HONESTY (LUNARIA).—Hardy biennial. Singular seed vessels; useful, when dried, for house decoration in winter. Sow in spring

4342 Purple-

4343 White,-IIt. 12 ft.

4341 NOVELTY.—Munstead Purple.—This giant form of Lunaria was raised by Miss Jekyll, V.M.H., in her delightful wild garden at Munstead Wood. The large well-formed flowers wing garden at Annisteau Wood. The large well-formed flowers are of great substance and quite distinct, being a bright rosy purple. For growing in the semi-wild garden and for spring bedding it is a most brilliant subject, supplying a colour which is rare in the early part of the year.

#### HONEYSUCKLE, Japanese. - Perennial.

4352 Variegata-Evergreen. Fine in window boxes and hanging baskets

HOP. See Humalus.

HUMEA.-Biennial. For greenhouse, in pots. It also makes a graceful plant when used in beds during summer. Sow in summer in pots, in cool frame or greenhouse, and pot off. 4355 Elegans.

HUMULUS (Hop).—Hardy climbers. No. 4348 is a very pretty. quick-growing annual climber. Sow in pots early in February,

in heat, and plant out in May. 4347 Japonicus - Green foliage. 4348 Japonicus variegatus. Green foliage, marked silvery

4349 Lupuius, -- Perennial (Garden Hop).

IBERIS. See Candytuft.

ICE PLANT.—Anunal.

4361 Mesembryanthemum crystallinum.

IMPATIENS (BALSAM) .- Annual. Sow in spring in heat, and pot off. Perpetual bloomers.

4364 Sultani.-Rosy scarlet.

4304 SUITATI.—Rosy scarfet.
4365 Hofsti (Zanzibar Balsam).—A new annual plant from East Africa, resembling the Zanzibar Balsam in habit, leaf, and shape of blossom. Colour vermilion red. A beautiful plant for half shady places and pots. Awarded a First-Class Certificate, R.H.S.

INCARVILLEA. -Perennial. Beautiful Gloxinia-like flowers. Sow in spring under glass, and pot off. Makes an effective plant in a warm border, as its plants are produced on long stems.

secured. 111, 13 ft.
4664 Machet.—An excellent variety for pot work; strong, dense blooms, glossy green foliage.
4665 Carters Victoria.—Produces a fine shapely spike of bloom.
Excellent colour. Highly scented.
4666 Crimson Giant.—Fine hardy variety of the greatest use for

general purposes. Ht. 1 ft.

MIGNONETTE—Continued.

4668 Carters Spiral .- First-class free-blooming variety, with long slender spikes. Ht. 1 ft.

INASTURTIUM

4669 Goliath.-Magnificent blossoms and scent.

4670 Golden Gem.-The finest dwarf golden varieties Ht. 6 in.

4667 Cartore Gardon Sweet.—This is a selected stock of the original Miguonette of gardens. Delicious odour.

4671 Hybrid Tree.-Hardy for pots or borders.

4672 Carters Mixed.—All varietics.

MIMULUS.—Half-hardy annual. To those who know only the original kind, the present magnificent specimens will come as a delightful surprise, the blossoms being of grand size and richly coloured. Besides being of service in beds and borders, they make nice pot plants. Sow in service in pens under glass and prick off into boxes and early spring, in pans under glass, and prick off into boxes, and plant out when hardened. For pot work, the seedlings should be pricked out, and potted off in good light compost, and kept in warm frame.

4606 Carters Queen's Prize. - Mixed. Magnificent. This levely large-flowered variety originated at our Nurseries, and we were awarded the First-Class Certificate of the Royal Horticultural Society for our efforts.

4607 Garden.-Mixed. Select stock.

4608 Cardinalis.—Brilliant searlet perennial for conservatory.

4609 Cupreus.-Deep scarlet. For edging fountains, rockeries, &c. IIt. 6 in.

4610 Tigridioides.-For pots or rockeries.

MINA .- Half-hardy annual climbers. Sow in pots in heat, in spring, and transplant.

4648 Lobata.-Red and yellow. 6 ft.

MUSK (MIMULUS MOSCHATUS).—Half-hardy perennial. May be grown in pots, or planted out in beds and borders. Sow in spring under glass.

4612 Yellow.-Fragrant pot or garden variety.

MYOSOTIS .- See Forget-mc Not.

NASTURTIUM.—Nasturtinms, both climbing and anyone desirons of having a display of the most brilliant flowers, without any trouble beyond sowing the seed, should select this delightful family, as they will give off their best efforts through the brightest of the summer, merely needing the seed-balls picked off. If these are permitted to mature, the beauty of the plant is soon lost. heanty of the plant is soon lost.

DWARF VARIETIES.

This beautiful annual originated at our Essex Seed Farms. These make the most beautiful bedding and border plants, and if sown at intervals from March to June the display of bloom will last until cut down by frost.

The above are packed in 8d. 1/- and 1/6 packets.

We shall be extremely obliged if customers will kindly indicate the calalogue number when ordering.

Carters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19.

(PÆONIA

#### GOLDEN FOLIAGE.

- 4692 Carters Golden Queen.—Rich golden-hued foliage. Very compact; flowers bright yellow. A very effective variety.
- 4623 Carters Cloth of Gold.—Yellow foliage; scarlet flower. Bright and effective.
- 4712 Golden Midnight.-Golden foliage and dark maroon flowers. Handsome.

#### DARK BLUE-GREEN FOLIAGE.

- 4696 Carters Empress of India.—This has been justly described as a sensational variety. Foliagedark bluish green, with flowers of an intense crimson scarlet. Raised at our seed farms, and awarded the First Class Certificate of the Royal Horticultural Society.
- 4697 Carters Searlet King.—Pine dark foliage; brilliant scarlet flowers, well thrown up above the leaves.
- 4098 Carters Vosuvius.—Dark leaved, with salmon-pink flowers with dark spot on base of upper petals.
- 4699 Carters Bark Leaved Variotics, Mixed.

#### GREEN FOLIAGE.

- 4702 Carters Lilliput.—An extra dwarf, floriferous variety. All colours mixed.
- 4703 Tom Thumb Crimson.—Dense maroon crimson.
- 4704 Tom Thumb Crystal Palace Gom.—Pale sulphur, with a carmine spot.
- 4705 Tom Thumb Pearl.-Light cream, nearly white.
- 4706 Tom Thumb Rose.—Rose colour, with a bluish tint.
- 4707 Tom Thumb Searlet.-The freest bloomer of all this section.
- 4708 Tom Thumb Spotted.—Dark orange, with chocolate spot.
- 4709 Tom Thumb Yellow.-Fine, clear yellow. Good bedder,
- 4710 Carters Dwarf Mixed (Tom Thumb),-All the best colours.

#### GREEN SHADED FOLIAGE.

- 4713 Chameleon.-Flamed, and beautifully marked.
- 4714 Golden King.-Beautiful rich dark gold colour.
- 4715 King Thoodore.-Intensely dark crimson or chocolale.
- 4716 Ladybird.-Golden colonr, with scarlet spot.
- 4717 Ruby King.-Ruby rose, novelty in colour,
- 4718 Spotted King.—Rich golden yellow with crimson spot.
- 4719 Terra Cotta A rich salmon-brown flower; nice habit. Bright green foliage.

## CLIMBING NASTURTIUMS AND TROPÆOLUMS.

The Climbing Nasturtium has long been a popular annual flower-The Changing Mastatthan has long been a popular annual nowering plant, as when once the seed is sown it requires no further attention. It is invaluable for covering unsightly spots, as when the position does not admit of its climbing, it is equally at home as a erceper. The seed must not be sown until all chances of frost are over.

- 4730 Crimson.—A very attractive colour.
- 4731 Scarlet.-Dazzling brightness.
- 4732 Spotted.-Golden, with dark spot.
- 4733 Yellow.-Rich and shining.
- 4735 Carters Choico Mixed.—All shades.

## ORDINARY

- 4739 Dark Varieties.
- 4710 Light Varieties.
- 4711 Mixed Tall.-All shades.

#### TROPÆOLUMS.

- 47H Defiance.—A new variety. Deep crimson scarlet; leaves bluegicen.
- 4745 Brilliant.—Crimson-scarlet.
- 4746 lvy-leaved.—Effective scarlet flowers.
- 4747 Speciosum (Flame Flower).-Hardy climber.
- 4748 Tricolour. Greenhouse climber.
- 4751 Fireball.—Scarlet.
- 4752 Lobbianum, Mixed.

NEMESIA.—Half-hardy annual. Nearly related to the Linaria. Free blooming dwarf bushes for pot culture and open borders. Sow in spring under glass, and transplant; or sow out of doors in May, in patches, where they are intended to flower.

### NEMESIA—Continued.

- 4678 Carters Large-flowered Mixed.—The finest strain of this most popular flower yet introduced, both for size and massive build of the individual flowers, also for the richness and variety of colours. Ht. 1 ft.
- 4679 Blue Gem.-Although rather small flowered, one of the best blue annuals for bedding.
- 4682 White Gem.—An excellent companion to above.
- 4680 Strumosa.-A variety of colours. 1 ft.
- 4681 Orango Prince, Nana compacta grandificra -- Gained an Award of Merit of the Royal Horticultural Society. 6 to 8 in.
- 4683 Compacta Triumph.—Mixed. Brilliant effect.

NEMOPHILA. \_\_\_\_\_\_ Hardiest of annuals, and of the easiest culture. Makes a very effective front row to a bed or border, and should be sown out of doors in spring, in patches, where they are to flower.

4684 Holborn Blue Bell.—Ultramarine, white threat. Ht. 6 in.

- 4685 Atrocærulea.—Bright blue, with minute spots. Ht. 6 in.
- 4687 Insignis.—Blue. A popular hardy annual for pots or borders.

## NERTERA.-Sow in spring, in light sandy soil.

4769 Depressa-Covered with small scarlet berries. For pots.

MICOTIANA (Tobacco). - Stately half-hardy perennial, Grown as foliage plants for sub-tropical garden. Sow in pans, in heat, prick off into loxes, hadden off. and plant out when frosts are gone.

4755 Affinis.—The beautiful white species, deliciously secuted in the evening. Ht. 2 ft.
4756 Affinis hybrida.—It is one of the most valuable introductions,

and can be recommended to all. Finest mixture of all colours, as white, rose, pink, red, crimson, violet, light blue, dark violet, &c.

violet, &c.

4757 Sylvostris. — White blossoms, droopin; in bunches like Puchsia fulgens. Ht. 3 ft.

4758 Colossæ.—Grand deep green foliage. 6 ft.

4759 Atropurpurea.—Dark mibrib to leaves. Ht. 6 ft.

4760 Havana.—Delicate foliage. Ht. 3 ft.

4761 Macrophylla.—Grand foliage; makes a bold specimen to the first first first.

- 4762 Virginian .- Popular; for general use.
- 4763 Sandera.—Dark pink flowers. Ht. 3 ft. 4765 Carters Mixed Varieties (Tobacco).

NIEREMBERGIA.-Half-hardy percunial. For hanging baskets. Sow in spring, and pot off.

4772 Gracilis.—Delicate silver lavender, like miniature Petunias. NIGELLA .- Sce Love-in-a-Mist.

NIGHT-SCENTED STOCK.—See Mathiola.

CENOTHERA .- See Evening Primrose.

PÆONIA (PÆONY).—Hardy tuberous perennials. Sow in autumn. in pots or pans of sandy soil in cold frame, and plant out in

4788 Cartors Choice Mixed .- Saved from the best varieties.

The above are packed in 8d. 1/- and 1/6 packets.

No. 4793 Carters International Prize Pansy.

No. 4791 Carters Giant Curled Pansy.

No. 4795 Carters Prize Show Pansy.

PANSY.—Emisies will succeed in any soil that is not too hot and dry, and if a special compost is made for them it should consist of one-third rich loam, one-third leaf mould, and one-third well-decayed dung. In early spring the seed should be sown in frames or in boxes for summer or autumn blooming, and later on sowings may be made about July out of deors in a partially shaded place, transplanting in October or November where they are intended to flower the following season. The final position should be an open one, and the plants not less than 6 in, apart. There should be no check in their progress either by cold winds, very hard frosts, or long droughts. Nor should they be watered during the hottest months with very cold water. cold water.

4798 Carters intornational Prize.—A superb mixture of the largest and best types in every class. Will produce enormous blooms in all the richest colourings and markings. As the name suggests, it is the best of all strains grown under our personal supervision. (Photograph above.)

Per pkt., 8d., 1/-, 1/6, and 2/6

#### PANSY- Continued.

No. 4791 Carters Qiant Curled.—Large flowers of striking form and immense fullness, giving them the appearance of being somewhat double. They are variously coloured in all the richest shades, markings, and lacings. Quite a new class, of the greatest beauty. (See Photograph opposite.)

4792 Carters Peacock.—The only variety possessing the true peacock blue colours. Introduced by us.

4793 Carters Fancy Striped.—Elegantly striped, splashed, and mottled, a very curious combination of colours that cannot fail to clicit astonishment. The flowers are large and freely produced, plants dwarf and compact.

4794 Silver Edged.-Deep maroon, with pure white margin; very effective and profuse bloomer, but not so large in size as Carters International Prize.

4795 Carters Prize Show.—THE LARGEST BLOTCHED AND RICHLY BELTED TYPES. - Very fine for exhibition or cultivation in pols. (See Photograph opposite.)

4796 Lord Beaconsfield. -A lovely Pansy, the lower petals being a rich dark velvet blue and the upper ones a silvery blue.

4797 President Carnot. One of the prettiest grown, flower with a wide belt of white round the outer edges. Very effective in beds and borders.

4799 Fairy Queen. - Rich lavender blue, edged with white. Very effective and profuse bloomer,

4800 Brilliant Bedding. - A dwarf strain of neat habit. blooms are of large size in the brightest and most telling shades, no dull coloured types being present. (See Photograph opposite.) The following selection includes all the largest of the selfcoloured varieties, the most meritorions and desirable varieties for bedding in separate colours.

4805 Carters Blue.—Fine blue; distinct shade; very large.
4806 Carters Jet Black.—The first and best; rich velvet texture.
4807 Carters Pure White.—A lovely flower, without eye; pure.
4808 Carters
Rich Yellow.
Bright, rich, and pure; a very effective shade

Carters Rich Purple.-Large and showy; bold massive

flowers; very fine,
4811 Mixed Pansy.—Free flowering,

PAPAVER. - See Poppy.

PELARGONIUM.—Se · Geranium.

PENTSTEMON.—Hardy herbaceous plants. Brilliant flowers, somewhat like Foxglove. mostly with white throats. Continual bloomers. flower. Average ht. 2 to 3 ft. Sow in a pan of light A fine border flower. Average ht. 2 to 3 ft. Sow in a pan of light soil in early spring, and transplant. All will bloom the first year from seed.

4817 Carters Annual Flowering Mixed.—Saved from a prize collection, which includes all the best colours. Some of the blooms may be expected to measure quite 2 in. across.

## PENTSTEMON—Continued.

4819 Gloxinioides.—All shades mixed.

4821 Murrayanus. - Unique species; amber - scarlet tubes. Perennial.

4822 Perennial Mixed.

PERILLA.—Ornamental foliaged hardy annual. Raise seedlings in heat, prick off into boxes, harden off, and plant out in June.

5094 Compact Curled.—Rich colour; dark purple foliage. Ht.

5095 Nankinensis.-Metallic purple-brouze leaves, Ht. 13 ft.

PETUNIA. Carters grand strains of Petunia, as exhibited, and awarded highest honours.

4834 Carters Empress.—(Reduced Photograph.) Blooms 6 in. across. For conservatory or bedding. We have been many years perfecting this magnificent type, which originated from our Emperor strain, and now embraces many delicate shades of colour, in pink, rose, and carmine. The elegant pencilling in the throat is the feature of this fine introduction. Per pkt., 1/-, 1/6, and 2/6

4835 **Queen of Roses.** "Rich cerise; very chaste, Per pkt., 1/-, 1/6, and 2/6

4836 Purple Prince.—Rich velvety, with scalloped edge

Per pkt., 1/-, 1/6, an 1 2/6 4837 Crimson King.-Very showy; rich. Per pkt., 1/-, 1/6, and 2/6

4838 Clematis Blue.—Rare shades of light and dark blue

Per pkt., 1/-, 1/6, and 2/6

4839 Carters Emperor Strain.-Single, for conservatory of bedding. A great improvement upon the old-fashioned Petunia. Flowers twice as large, and containing every range of colour found in Petunias. All colours, mixed, per pkt., 1/-, 1/6, and 2/6

4840 White Pearl.-Very pure and fragrant; free blooming. Per pkt., 1/-, 1/6, and 2/6

4841 Green Bordered. -A very curious combination of purple and green. Per pkt., 1/-, 1/6, and 2/6

4842 Laced and Fringed. Very pretty, deep fringed edges. Per pkt., 1/-, 1/6, and 2/6

4851 Carters Marbled.-Largest blossoms of great beauty, in four colours, beautifully blended. Per pkt., 1,6 and 2,6

4843 Striped.—Effective and showy. ... Per pkt., 1/-, 1/6, and 2/6

4844 Carters Splendid Double Petunia.—Superb mixture. 25 to 40 per cent, double flowers. Per pkt., 1/-, 1/6, and 2 6

The above are packed in 8d. 1/- and 1/6 packets.

PETUNIA1

PETUNIA—Continued.

## BEDDING VARIETIES, PRODUCING FLOWERS IN GREAT FROFUSION.

No. 4852 Carters Holborn Star.—New and attractive; white star on a background of richest purple crimson. Compact and floriferous.

4853 Countess of Ellesmere.—Rose with white throat.

4854 Compacta grandiflora.—A mixture of delicate shades.

4856 Crimson.

4857 Dark Violet.

4858 Striped.

4859 White.

4863 Mixed ordinary varieties.

PHACELIA.—Hardy annual. Sow in spring in open air and transplant.

5104 **Campanularia.** --Ultramarine blue; a most showy deep blue flower, beautiful for beds and edgings. 1 ft.

PHLOX DRUMMONDI.—The great advance recently made in both the size and colourings of this popular annual should ensure its again becoming a favourite for growth in beds and borders. It makes a most effective edging if the growths of the taller types are kept pegged down. Another point of importance in the culture of this pretty flower is the fact that it does not like being watered with cold pipe water, especially overhead; it spoils the foliage and mins the truss. This section may be expected to reach the height of 1 ft.

No 4946 Carters Large Flowered Annual Phlox. See next column.

PHLOX DRUMMONDI - Continued.

## CARTERS LARGE FLOWERED ANNUAL.

### CARTERS DWARF LARGE FLOWERED.

The plants are of compact and dwarf habit, forming masses of flowers from 9 to 12 in, across. Most suitable for edging and borders, 11t, 6 in., except where otherwise stated.

4956 Carters Blue, White Eye. 4957 Carters Crimson. 4958 Carters Deep Purple. 4961 Carters Pure White.

4963 Carters Dwarf Choice Mixed.—A splendid mixture of all shades.

snares.
4965 Star Varieties, with White Margin.-Long points in star form. It. I ft.

4969 Good Mixed.-Pine bright colours. 11t. I ft.

#### PHLOX DECUSSATA.

4977 Mixed.—Hardy perennial. All best varieties. 111, 2 to 3 ft.

PHYSALIS (WINTER CHERRY).—Sow Edulis in pots in warm house, pot off and grow against wall in cool house. Francheti may be sown out of doors in spring.

5111 Edulis (Cape Gooseberry).

5412 Francheti (Chinese Lantern Plant).—First class for decorative purposes.

PICOTEE. -See Carnation.

### PINKS.

4983 Choicest Beautifully fringed, saved from the finest collection of Pinks in enlitivation. Profuse bloomers and lasting. Most valuable for cutting.

4984 Mrs. Sinkins.—Double while, Sweetly scented, Seedlings are very robust and free flowering.

POLYANTHUS PRIMROSE.—Our Polyauthus Primroses are entstantly being improved. The strains offered below represent the highest state of perfection to be attained in erch section. Sow in spring or summer, in prepared seed bed, and transplant when four leaves have developed into nursery beds, afterwards planting where they are intended to bloom.

5065 Carters Dark Shades.—A remarkable range of deep rich colours; rich crimson, deep purple, rosy lilacs, and scarlet shades in endless variety.

5066 Carters Golden and White. —A wide range of cream, white, and yellow shades.

5067 Carters Pure White.—A good true white type; very effective for bedding.

5068 Carters Dark Crimson.— This deep-coloured selection is splendid for spring bedding where a well-defined deep crimson ground work is required.

5069 **Gold Edged.** - The flowers in this strain are smaller and more regular in outline than the varieties offered above. The individual blooms are edged and laced with cold.

No. 5065 Carters Dark Shades.

The above are packed in 8d. 1/- and 1/6 packets.

We shall be extremely obliged it customers will kindly indicate the catalogue number when ordering,

POLYANTHUS -Continued.

POPPY.

SINGLE ANNUAL VARIETIES.

- No.
  5070 Munstead Strain.—We have been honoured with the distribution of the re-selected stock of Miss Jekyll's famons strain of Ministead Polyanthus Primrose. Every possible shade of white, eteam, vellow, and orange is represented. We strongly recommend this Ministead strain for bedding purposes, or for growing in woodland walks and other such shady positions. The raiser has made such strides with this strain that quite a number of distinct and new colours, especially among the orange shades, are now represented.

  Per pkt., -/B, 1/,-1/6, and 2/6.
- 5071 **Blue Shades.**—A very wide range of shades is contained in this mixture, from pale lavender through all gradations of clear and deep blue to rich royal blue.
- 5075 Carters All Colours Mixed.—An unique strain, in which every shade and colour found in Polyanthus Primroses is represented, including a number of new orange and terra-cotta forms. Great cure is exercised to prevent any particular colour predominating.

  Per pkt., -8, 1/-, 1/6, and 2.6
- 5076 Mixed Ordinary.—This well-selected strain is of very hardy constitution, but the plants do not exhibit the wide range of colour found in the more choice strains.

#### CARTERS GARDEN PRIMROSE.

- 5082 **Blue.**—To obtain the best results seedlings should be raised each year, sowing in March, as the blue is more intense the first season than in subsequent years.
- 5083 Yellow.—The lovely Old English Primrose of the woods.
- 5085 Carters Choice Mixed.—Contains every obtainable colour. New shades are constantly occurring as the result of our continuous hybridisation.

4869 Carters Shirley Poppy (Silk or Ghost Poppy).—This lovely garden annual Poppy has received its various names from its delicate texture and almost shadowy forms. Shades are endless; a strain of unusual beauty. (Photograph above.)

Shirley Poppy, Raynes Park Hybrids.—An unique strain of very robust habit, which contains a large range of smoke, blue, and slate variations, which are quite new among Shirley Poppies. A number of very beautiful new picotecedged forms, including shades of tangerine and orange, also give distinction to the strain. There is also a pecular graining in most of the pink and red shades which evokes admiration from all who have seen these Poppies growing in our trial grounds. (Photograph page 32.)

- 4868 The Shirley. -Pure white.
- 4871 **Peacock** (Pavonium or Umbrosum).—Charming miniature blossom; crimson with black spot. 4Rt, 1 ft.
- 4872 Tulip (Glaucum). -A bijou variety.
- 4873 Victoria Cross.—A variety of remarkable beauty; searlet with broad white cross.

We shall be extremely obliged if customers will kindly indicate the catalogue number when ordering.

The above are packed in 8d. 1/- and 1/6 packets.

No. 4887 Carters Giant Paeony-Flowered Pophy.

#### DOUBLE ANNUAL VARIETIES.

Hints on Culture.—Sow thinly in palches, rows, or beds in spring where the plants are intended to bloom during early summer. When used as cut flowers they should be picked early in the morning before opening onl.

POPPY -Continued.

1879 NEW. Shirley Poppy, Ryburgh Hybrids. -We have a very high opinion of this fine strain, and thoroughly recommend it to

our enstomers. A large proportion of the flowers are perfectly double, whilst the remainder have at least 5 or 6 rows of petals. A number of shades not usually found in Shirley Poppies have appeared in this strain, which is, if anything stronger than have appeared in this strain, which is, it anything, stronger than the original type. Blooms cut immediately they are open will keep in water for 4 or 5 days. In many flowers, double forms have a heavy and inartistic appearance, but this double Poppy combines beauty of form with grace of outline,

Per pkt., 1/ only.

PÆONY-FLOWERED GIANT.

4880 Rich Scarlet. 4881 Bright Lilae.

4882 Pure White.

4883 Pink.

4900 Double Carnation.—Rich pink. A very beautiful type.

4901 Double Carnation.-Mixed colours.

4902 Carters Searlet Cardinal.-Magnificent; petals dense and delicately cut. Rich scarlet

4903 Carters Rose Cardinal.—A lovely rose shade, elegantly fringed.

4904 Cardinal Hybrids.—New variations of colonr.

4907 Double Mixed.—A bed of these makes a grand display.

4909 French (Papaver Rhæs fl. pl.).-Known as the Rammeulus Hit. 18 ft.

4911 **Mikado.**—Double scarlet, with white edgings. Ht. 12 ft.

4912 White Swan .- Double, Pure white. Delicately cut and fringed.

4913 Carters Superb Annual. - This mixture never fails to attract attention in our trial grounds; contains every form and PERENNIAL VARIETIES.

4919 lecland, Carters Choice Mixed.—The merits of this species are great; of easy growth, adapted for pot or garden work, first class as cut flowers, and neat in appearance. Sow in patches where plants are to bloom, or in prepared seed bed, and transplant. They make good rockery plants. A superb mixture of all colours. 10:110

of all colours. Ht, 1 ft.

4920 lecland, Golden. Pale golden. 4921 leeland, Orange. Terra-cotta. 4923 leeland, White.—Pure white.

4926 Oriental, Scarlet (Papaver orientale).—This is the gorgeous Perennial Poppy of the earriage drive and shrubbery; searlet and black. 411, 2 ft.

NOVELTY.

Oriental White (Papaver orientale) .-A variety well worth its place in the border. Per pkt., 2/6

4928 Oriental, Mixed. - Different colours.

4930 Bracteatum.—Orange scarlet. Ht. 2 ft.

PORTULACA.—Half-hardy annuals. Both the double rockwork and covering the groundwork of large beds. These plants delight in a sumy aspect, and are extremely useful for edging purposes. Sow seed in drills on a warm border about the end of April, or in pans or boxes in spring, in warm frame, prick off, and plant out when frosts are over. 11t. 6 in.

4829 Carters Large flowered Mixed Single.—Specially saved.

4831 Carters Large flowered Mixed Double.—High class.

POTENTILLA (CINOIEFOIL).—Hardy herbaceons perennials.

Average ht. 1 ft. Sow in prepared seed-bed and transplant.

5118 Double Varieties.-Novel colours.

5119 Single Varieties. - Mixed.

PRICKLY POPPY.—See Argemotte.

PRIMROSE. - See Polyanthus.

The above are packed in 8d. 1/- and 1/6 packets.

Carters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19.

PRIMULAT

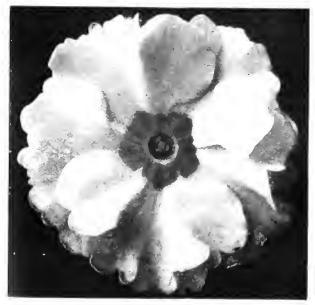

[PRIMULA

RIMULA.—Sow in pans of finely sifted soil in spring, and pot off singly into thimb pots when large enough to handle. They require to be raised in heat and kept growing in cool house or frame through the summer. A cool bottom for pots to stand on is essential. Use a compost of leaf mould and rich fibrons loomwhen shifting into larger pots. PRIMULA.

5016 Carters Prize Single Mixed.—This splendid mixture contains all the finest varieties and most beautiful forms of this popular greenhouse annual, for which our House has long been famous. New seedling forms and art shades are introduced, in addition to the choicest standard varieties. All varieties not of the highest merit are rigorously excluded, with the result that this mixture will be found unsurpassable for the compactness and vigour of the plants and the beauty and variety of the individual blossoms. When pricking out the seedlings, take eare not to discard the smaller plantlets; these frequently produce the newest and most delicate shades. Individual blooms 3 in. across. (Photograph above, greatly reduced.)

Per pkt., 2/6, 3/6, and 5/-

5004 Carters Princess May .-- A dainty pink colour, with enormous blooms of great substance, fine truss, and a robust grower. Princess May, Carters Coral, and King Edward are the tines finest Priomias. (Photo above) Per pkt., 1'6, 2'6-3'6 and 5'

500. Carters Giant Coral. This Giant Prinnia is the result of a cross between Princess May and Holborn Sadmon. The trusses of rich coral red flowers of immense substance and size, with a beautiful light green eye, together with a strong habit and dark green folinge, make it a very valuable addition to our Giant Prinnulas.

Per pkt., 2/6, 3/6, and 5/
Carters Holborn Crested.—A very distinct and beautiful

5006 Carters Holborn Crested.—A very distinct and beautiful Primula of the Giant section, the result of a cross between King Belweard and Holborn Ruby. The large pink flowers, beautifully fringed, carried on a fine truss thrown up well from the vigorous green crested foliage, make it unique among Primulas.

For pkt., 2/6, 3/6, and 5/
5007 Carters King Edward.—The finest White Primula we have yet seen. The flowers possess immense substance, well thrown up.

For pkt., 2/6, 3/6, and 5/
5011 Carters Crimson.—Excellent habit and brilliant colour.

Per pkt., 1/6, 2/6, 3/6, and 5/-

5011 Carters Crimsor. — Excellent habit and brilliant colour.

Per pkt., 1/6 and 2/6

5045 PRIMULA Malacoides "King Albert," -- Much larger and more free-flowered than the type. The beautiful clean soft rose blooms have an almost circular ontline, which greatly adds to the value of this variety as a decorative plant. This beautiful Primula is not by any means a difficult subject to entityate. The seed should be sown in succession, making say, three sowings during July and August, in linelymaking, say, three sowings during July and August, in linely-sitted soil, and kept moist until thoroughly germinated. A cool shady frame, kept close, is the best place in which to raise the seedlings, gradually giving more air as the seedlings grow. They should be pricked out into boxes as soon as they are large enough to handle, and still kept in frames. As growth is very rapid, they should be potted into 60% pots as soon as possible, repeating this operation as soon as the pots are full of roots, into 48%. The soil for this potting should be two parts loam, one pat sifted leaf month, and a go al addition of sand, while a little crushed brick or old mortar rubble is very helpful. A cool pit or frame is the very best place until November, when the plants may be placed on a shelf in a cold house, and not kept too moist, as damping is very liable during the dull months. As soon as the buds are seen pushing npward, a very slight feeding of manure may be given, and also a warmer atmosphere. Keep all dead leaves picked off, and at all seasons watering must be done with the grealest care. Award of Merit, R.H.S., 1916. (Photograph above) 5042

NEW. PRIMULA Malacoides, Double White.—A strong and robust variety, bearing an abundance of double iverywhite flowers. It grows slightly taller than most varieties, and

is remarkable for the amount of flower produced by one plant, Per pkt., 2'6

#### PRIMULA]

PRIMULA—Continued.

NOVELTY

PRIMULA Malacoides "President."

oides, many of which have become described a wide range of forms from the original Primula Mala-President is a very distinct double variety, being equally as free flowering as King Albert. A batch of this beautiful uew variety suggests the effect of a rosy mist above the profuse clear green foliage.

Per pkt., 2/6

NOVELTY. PRIMULA Malacoides "Princess Patricia."—The individual flowers of this seedling are large, but the petals being finely divided give a lace-like delicacy to the blooms. The colour is brighter than the majority of the Malacoides forms, and was greatly admired both by visitors to our Nursery and at the Chelsea Shows during 1919. Per pkt., 2/6 and at the Chelsea Shows during 1919.

#### CARTERS STELLATA (Star Primula).

This is both delightful and graceful when in flower, and it makes a useful decorative plant on the conservatory stage in spring. Free flowering. Treatment for *Primula sinensis* will suit this species well.

5051 Carters Salmon .... Per pkt., 1/6, 2/6, and 3/6

5056 Carters Superb Mixed.—All shades. Per pkt., 1/6, 2/6, and 3/6

#### DOUBLE VARIETIES.

5017 Carters Oakleaf.—This variety marks a decided step forward in the cult of the Primula. Its deeply laciniated foliage makes it appear at all times an object of lightness, gracefulness, and beauty, being in strong contrast to the majority of Primulas. The flowers, which are of a rich rose-pink colour, are firmly fixed in the ealyx, the truss being carried well above the foliage on a stiff stem, making it by nature of its lightness invaluable for all decorations.

Per pkt., 1/6 and 2/6

for all decorations. Per pkt., 1/6 and 2/6 5026 Carters Daybreak.—Colour varying from apricot to terra-

cotta. Per pkt., 1/6, 2/6, and 3/6 5027 Carters Dark Rose (Prince of Wales). Pkt., 1/6, 2/6, and 3/6 5028 Carters Lilae Queen.—Remarkably free bloome

Per pkt., 1/6, 2/6, and 3/6 5029 Carters Snowflake.—A useful variety for early blooms.
Per pkt., 1/6, 2/6, and 3/6 5030 Carters Striped.—Prettily striped and flaked.

5034 Carters Prize Double, Superb Mixture.

Per pkt., 1/6, 2/6, and 3/6

PRIMULA—Continued.

5193 Vacaria, Hardy annual. Valuable for cutting; used for decoration with Sweet Peas. A beautiful soft piuk flower, most annual. The preparation of the preparation of the preparation of the preparation. graceful in vases. Also makes a nice pot plant for the green-

SCABIOUS.—This bright-flowering plant is usually treated as an ammal in our gardens. During recent years it has been greatly improved both in habit and range of colours, and is fast becoming one of the most popular of border flowers. When given plenty of room and the seedvessels are kept regularly picked off, it will last through the whole of the summer. Owing to its sweetness the bees are very fond of it, and its floral favours also attract all the most beautiful types of butterflies in the neighbourhood. Sow the seed in heat in February and March in a pan or small box, and transplant the seedlings 3 in, apart in larger boxes; harden off as spring advances, and set out in the border towards end of May. They may also be sown where intended to grow during March and April.

## LARGE-FLOWERED DWARF DOUBLE, Ht. 13 H.

5246 Carters Cherry Red. 5247 Carters Crimson. 5248 Carters Carmine. 5249 Carters Purple. 5250 Carters Rose.

STOCKS—Continued.

#### EARLY LARGE-FLOWERED WINTER.

We very highly recommend this class of Stocks to all who have We very highly recommend this class of Stocks to all who have not grown them. They were first brought into prominence by the advent of that charming pink variety Beauty of Nice. The following varieties all resemble this variety in habit and profusion of bloom. We know of few Stocks which produce such a high percentage of double flowers. Although usually treated as winter varieties, they are admirably smited for snumer bedding if treated as ten-week varieties. Sow in July and August for winter flowering, and in February and March for snumer displays.

5380 Beauty of Nice. -Plant of robust growth. Very free flowering. Flowers very large, fine double, fragrant, and delicate fleshy-pink colour. Extremely valuable for decoration. IIt. 2 to 25 ft.

5381 Crimson King.—Brilliant fiery crimson.

5382 Queen Alexandra. - Delicate rosy filac.

#### STOCK, SPRING FLOWERING.

Sow in July and August and plant out in early spring. The young plants are best wintered in cold frames.

CARTERS BROMPTON. - Biennial. Sturdy, hardy, stronggrowing.

5404 Purple. 5405 Searlet.

5406 White. 5407 Superb Mixed.

5402 Empress Elizabeth. One of the most handsome springblooming forms; extremely useful for pot work. spikes of bright earmine flowers are borne with great profusion.

CARTERS QUEEN. -Perennial. One of the bardiest. Average ht.

5409 Mixed.—Great variety.

HARDY'S PERPETUAL

5412 Pure White.-A perfect bloomer.

#### CARTERS PERPETUAL WHITE STOCK.

5415 Carters Perpetual White.—Producing a large percentage of double blooms all the year round. Splendid deep green foliage, and most deliciously scented. Extremely viduable for discontinuously the control of the con decorative work. Ht. 1 ft.

STONECROP (Sedum).—We may safely say that no rockery is complete without the Sedum. We offer, as nuder, seed best adapted to the general convenience.

5314 Blue.-Annual. A pretty plant for edges and rockery.

5316 Mixed. Carters Varieties.-Perennial kinds for general garden and rockwork.

STREPTOCARPUS.—Perennial. A novel race of free-blooming greenhouse pot plants, in universal demand; bright, cheerful, lasting. The mixture we offer is a carefully fertilised strain, containing all the best colours, including a very large and rich blue. Sow in the property of the strain is contained as a containing all the best colours, including a very large and rich blue. Sow in pans of rich soil in early spring, in heat, and pot off into small pots when large enough to handle. Keep the seed pans moist.

5293 Carters Choice Hybrids. - Superb mixture, the latest type in all colours. Included in our Gold Medal flowers, R.I. Chelsea Exhibition. Per pkt., 1/-, 1/6, and

Chelsea Exhibition.

Per plet., 1/-, 1/6, and 2/6
5294 Carters Large-flowered Blue.- Very showy.

Per plet., 1/-, 1/6, and 2/6
5295 Rose Queen.—Award of Merit, R.H.S. Very large flowers.

Per plet., 1/-, 1/6, and 2/6

The above are packed in 8d. 1/- and 1/6 packets.

SUNFLOWERI

The following are packed in 8d. 1/- and 1/6 packets.

SUNFLOWER -- Continued.

ISWEET BRIAR

SUNFLOWER (Helianthus). Sow all varieties in spring. Only transplant if necessary. The annual small-blossomed Smullowers now compare favourably for freedom of bloom and elegance of habit with the perennial kinds. For cutting they are extremely valuable. All the varieties For cutting they are extremely valuable. All the varieties offered below are equally suited for garden decoration and producing large quantities of cut flowers.

CARTERS MINIATURE AND MANY-FLOWERED VARIETIES.

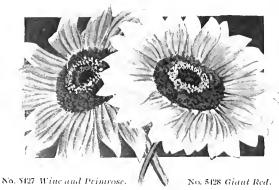

No, 5420 Carters Orion.

No. 5421 Miniature Flowered.

- 5420 Carters Orion.—Has very pretty quilled petals, free habit; most attractive for decoration. 11t. 3 ft.

#### CARTERS SELECTED LARGE-FLOWERED SWEET PEAS.

With a view to assisting those of our customers who are not quite conversant with Sweet Peas in their now extremely numerous varieties

with a view to assisting those of our customers wan are not quite conversant with sweet reas in their now extremely maintains valieties as offer our selection of large-flowered varieties as under.

Although all good for exhibition, we chiefly have in mind their suitability for garden decoration and enting purposes. With this end in view, we have selected giant-flowered types borne in threes and fours on very long stems. All are bright colours and pleasing shades, which do not scorch in the sum. The plants are of robust habit, and if the bloom is indiciously cut will produce large quantities of beautiful flowers until late autuum.

### SWEET PEAS.

SWEET PEA

Owing to adverse weather the finest strains of Sweet Peas have yielded very little seed this year, hence the shortness of our fist and necessary reduction in size of packets.

#### CARTERS LARGE-FLOWERED NAMED VARIETIES.

In recent years Carters Sweet Peas have been awarded a Silver Cup by the Royal Horticultural Society at Holland House; Gold Medal, Shepperton; Gold Medal, Sherborne; and a Gold Medal at Sevenouks. Gold Medal, Bournemouth. Three large Gold Medals and Two Silver-gilt Medals have been awarded our Sweet Peas by the National Sweet Pea Society.

- 5470 Afterglow.-Bright violet blue, shading to reddish mauve,
- 5472 America Spencer.-Scarlet flake on white ground.
- 5474 Arthur Unwin .- Rose, suffused and shaded cream; excellent form and substance.
- 5476 Asta Ohn .- Lavender, faintly suffused with delicate mauve.
- 5482 Barbara .- Salmon orange self,
- 5484 Black Knight Sponcer.—Dark maroon self; good substance and beautifully waved.
- 5490 British Victory.—Deep glowing salmon red, very fine.
- 5494 Charles Foster.-Metallic opal pink.
- 5496 Chrissio Unwin.-Light searlet, shaded cerise.
- 5498 Clara Curtis.-Finely waved, solid cream; splendid for
- 5500 Countess Spencor.—Beautiful clear pluk, very fine sub-
- 5508 Dorothy Eckford.-Solid, pure white; Grandiflora type.
- 5512 Duplex.-Cream pink; vigorous grower.
- 5518 Edith Taylor.-Very large rosy salmon self; quite distinct.
- 5520 Edna Unwin.-Orange scarlet; very large, free flowered.
- 5522 Edrom Beauty.—Orange salmon: an improved Helen Lewis.
- 5524 Edward Cowdy. Bright orange searlet self. A great advance in this section.
- 5526 Elfrida Pearson.—Large pale plnk; a very chaste variety; strong grower.
- 5528 Elsio Horbert.-Pure white, with delicate rose picotce edge,
- 5530 Etta Dyke.—One of the best waved whites; very solid.
- 5532 Evelyn Hemus.-Primrose buff, edged brilliaut pink.
- 5538 Flora Norton Spencer.—Bright blue: very fine flower.
- 5540 Florence Morse Speneer.-Large blush pink; strong grower.
- 5542 Florenco Nightingale.—A splendld rich lavender; strong grower; very large flowers.
- 5544 Frank Dolby.-Pale lavender; Unwin form.
- 5546 Fiery Cross.-Glowing orange cerise, sunproof.
- 5553 Goldon Glory.—Glittering orange; does not burn.
- 5556 Helen Lewis.-Large broad orange standards, deep rose pink wings.
- 5560 Helen Pierce Spencer.-Bright blue mottled on pure white; beautifully waved.
- 5562 Hercules.-The finest deep plak, similar in colour to Countess Spencer; of giant size and remarkable vigour.
- 5565 Illuminator.—Brilliant rosy cerise; a grand pea.
- 5568 John Ingman.-Giant rich rose; very solid form.
- 5570 Jean Ireland.-Clear primrose, with faint wire edge of pure tose.
- 5574 King Edward Spencer.-A giant waved form of the old King Edward; colour very rich deep searlet; enormous flowers. 5576 King Manoel.-Giant shining purple maroon; grand sub-
- stauce.
- 5582 Lady Evelyn Eyre.—A very beautiful pale shell pink of exquisite form. 5584 Lavender George Herbort-Large, clear, shining pale
- mauve. 5586 Lilian.-Clear rose on cream ground, rather deeper than most
- cream pinks. 5588 Lord Nelson Spencer.—A fine deep blue, shaded purple.
- 3594 Marbled Blue.-A very distinct striped variety, blue on white
- ground. 5622 Margaret Atlee.—Cream ground over-laid salmon pink. 5596 Margaret Maddison.—Clear lavender; very large flowers
- of great substance. 5598 Mario Corelli.-Brilliant rose of fine form.
- 5600 Marks Tey.-Rosy maroon, shaded purple and mauve.
- 5602 Maud Holmes.-Supproof crimson of splendid form and substance.

- 5604 Mid Blue.-Clear, shining blue; of fine form; Grandiflora type.
- 5606 Miss Willmott.-Standard orange pink, wings rose; Grandiflora type
- 5608 Mrs. Cuthbertson.—The leading bicolor; deep piuk on creamy ground.
- 5610 Mrs. C. W. Breadmore. -Primrose buff, edged rose.
- 5612 Mrs. H. Diekson.—Pale salmon pink on cream ground.
- 5614 Mrs. A. Ireland.—Cream and rose bicolor, fine form.
- 5616 Mrs. Townsend.-White ground, edged and finshed blue; an improved Phenomenal.
- 5618 Mrs. W. J. Unwin.-Orange scarlet, delicately flaked on white.
- 5626 Nora Unwin.-A pure white of fine form, not so large as the Spencer forms, but very solid.
- 5628 Norvie.-One of the largest and best whites; very vigorous.
- 5630 Nubian.-Deep chocolate self; fine form and substance.
- 5610 Paradise Ivory.-Deep cream, overlaid clear rose.
- 5641 Peace.-Soft pink, very large and vigorous.
- 5642 President.-A fine deep orange scarlet of remarkable substance and form; the best bright variety.
- 5644 Primrose Speneer. Deep creamy yellow of fine form.
- 5650 R. F. Felton.-Pale manye, shaded delicate rose; a very strong grower.
- 5652 Robert Sydenham.-Glowing orange-scarlet self; practically sumproof,
- 5654 Rose du Barri Spencer.-A charming shade of soft rose; very beautiful by artificial light.
- 5656 Rosabelle.-Clear rose, very strong.
- 5658 Royal Purple.-Rich toyal purple, a very distinct new colour.
- 5664 Searlet Empress.-Clear scarlet, of vigorous habit.
- 5666 Senator Spencer.-Chocolate flake on white ground.
- 5672 The Marquis.—Rosy manye self; very large.
- 5674 Tennant Spencer. -- Purplish rosy manye.
- 5676 Thos. Stevenson. Very fine orange scarlet; strong grower.
- 5681 Warrior.—Very large shiny maroon.
- 5682 Wedgwood A delightful shade of China blue; very distinct and beautiful.
- 5684 White Spencer. Splendid stock of this fine white.
- 5686 White Queen. Similar in habit and form to Rercules; very
- Other Spencer varieties not mentioned in this list can be supplied.

We shall be extremely obliged if customers will kindly indicate the catalogue number when ordering.

SWEET SULTANI

SWEET SULTAN .- See Centaurea.

(Dianthus Barbatus) .-SWEET WILLIAM Perennial. Beyond a good soil this gorgeous plant requires but little attention. Sow a in summer, and transplant when large enough in autumn for blooming the next spring and summer.

No. 5446 Holborn Glory.

No. 5449 Brilliant Red.

5446 Carters Holborn Glory.—A magnificent strain, white ground with brilliant zones of crimson and lighter shades; this combination is dazzling. Ht. 2 ft.

5447 **Scarlet Beauty.**—A magnificent strain with very large trusses of a lovely salmon-scarlet shade. Very showy and effective; flowering early and lasting a long time in bloom.

5448 Carters Auricula-eyed.-Very finely marked. Ht. 2 ft.

Carters Brilliant Red.—The most brilliant Sweet William. Clear, bright scarlet, very free flowered. Unlike most 5449 NEW. scarlet shades this comes practically true from seed.

5450 Carters Dark Crimson.-Intense colour. Dark foliage. IIt. 12 ft. to 1 ft. 8 in.

5451 **Carters Pink.**—A splendid strain, varying in shade from palest flesh through clear shrimp and rose shades to deep coral. This should be in every garden. Ht.  $1\frac{1}{4}$  ft. to  $1\frac{1}{2}$  ft.

5452 Carters Pure White.-Fine heads of pure white flowers.

5454 Carters Superb Mixed.—All colours.

TAGETES.—Brilliant Dwarf Single Edging Marigold. Hardy annual. Sow in spring, and transplant into beds or borders. Extremely showy.

5755 Pumila.-Orange yellow. 9 in.

5756 Pumila, Golden Ring.-A great improvement. Ht. 6 in.

TECOMA. - Greenhouse. Sow in early spring, in heat, and

5759 Smithi.—First-class plant for antumn and winter greenhouses. Golden blossoms. Ht. I ft. Per pkt., 1/6 only.

THUNBERGIA.-Half-hardy climber. Annual. Sow under glass in spring, pot off, and plant out when hardened. 5765 Alata — Choicest mixed. Orange yellow and white, some

flowers having black centres.

TOBACCO .- See Nicotiana.

TORENIA.—Beautiful greenhouse annuals. Desirable as pot plant and for hanging baskets. Sow in early spring in pans of soil, prick off, and pot on

5768 Bailloni.—Golden yellow, red throat. Ht. 1 ft. 5769 Fournieri.—Sky blue, spotted indigo. Ht. 1 ft. 5770 Fournieri White Wings.—White; handsome. Ht. 1 ft.

TRACHELIUM CŒRULEUM. — Hardy herbaceous perennial. A most popular plant for greenhouse decoration, having large heads of pale blue flowers.

5773 Ht. 2 ft.

TRITOMA (RED-HOT POKER PLANT OR KNIPHOFIA).—Tuberons perennial. Of great value in the mixed border in the late summer. Sow in cold frame in spring, transplant as soon as seedlings can be handled.

5776 Uvaria grandiflora.-Garden favourite.

5777 Carters Annual.—A very interesting novelty. For the first time the old garden favourite, known as the Red-hot Poker, can be grown from seed as a half-hardy annual. Colours, red and yellow; also both colours in the same flower.

TROPÆOLUM.-See Nasturtinu.

VERBASCUM (MULLEIN).-Hardy perennial. Sow seeds in summer, and transplant in autumn to bloom following year.

5841 Pannosum.-White foliage, dense spikes of yellow flowers, silver white in centre. 11t. 6 ft.

VERBENA.—Percunial. Few plants are more generally liked than the Verbena, as it makes a first-class bedder, brilliant in colours, excellent habit, and of long duration in bloom. Sow in heat in spring, prick off into boxes in cool frame, harden off and plant out. It may be also grown as a pot plant from seeds sown in summer for flowering in the greenhouse the following spring

Reduced Photograph of Carters Mammoth Verbena.

5784 Carters Mammoth.—Choice mixture of all shades (Photograph above.) Per pkt., 1/-, 1/6 1/-, 1/6, and 2/6

5786 Mammoth, Searlet Shades,-Magnificent blossom.

5787 Mammoth, Brilliant Rose.

5788 Carters Dark Blue.—Large-flowered.

5789 Carters Pink.—Large-flowered.

5790 Carters Scarlet.-Large-flowered,

5791 Carters White.--Large-flowered.

5792 Carters Auricula-eyed.—Choice mixed.

5794 Carters Hybrids.—Mixture of sorts. Excellent bedder.

5795 Drummondi.—Hardy perennial; blooming the first season.

5796 Venosa-Hardy perennial; blooming the first season; rosy purple.

5797 Lemon-seented (Aloysia).—Half-hardy shrub.

## DWARF COMPACT VERBENAS.

These require no pegging down. The erect bushy habit renders them most suitable for bedding, borders, and also pots. The colours are brilliant in the extreme.

5803 Defiance.—Beautiful fiery scarlet.

5804 Searlet with white eye.

5805 Cœrulea.—Deep blue.

5806 Cœrulea with white oyo.

5807 Carters Compact. Mixed.

#### The above are packed in 8d. 1/- and 1/6 packets.

Warters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19,

VIOLA?

The following are packed in 8d. 1/- and 1/6 packets.

IWALLFLOWER WALLFLOWERS . Continued.

VIOLA. \_\_Hardy perennial. Every large extent of bedding includes one or more of the Violas, and their enlivening effect is remarkable. Sow seeds in spring, in pans of light sandy soil in a cold frame, prick off and plant out in May or June. IIt. 6 in.

Extreme care is taken in saving all the superb shades below which come fairly true from seed.

5813 Carters Purple Bedding.

5814 Carters Light Blue Bedding.

5815 Carters Golden Bedding.

5816 Carters White Bedding.

5820 Cornuta, Mauve Queen.-The original Viola, smallflowered

5821 Cornuta, Purple Queen.-The original Viola, small-

5824 Carters Choicest Mixed. - Superb flowers of all shades. 5826 Odorata, Sweet Violet.

5827 Odorata alba-White Violet.

5828 Odorata, The Czar.

5829 Carters Sweet Scented Violet (Princess of Wales).— Award of Merit, R.H.S. This plant produces large flowers of a rich blue shade on long, vigorons stems. Popular for its fragrance, and makes a charming buttonhole.

VIOLET .- See Viola.

VIRGINIAN STOCK.—Annual. The hardiest of annuals; adapted for edgings. Sow in spring.

5847 Crimson King.—Rich rose crimson.

5848 Red.—Ordinary variety.

5849 White.

5850 Carters Mixed.

VISCARIA.—Hardy annual of brilliant colour and effect. Sow in spring where plants are to bloom.

5853 Cardinalis.-Vivid Carmine Lake. Ht. 1 ft.

Carters Lilac .- A charming pale tilac 5854 NEW. variety which cannot fail to become popular, as the shade is one which is all too rare among annuals.

5855 Oculata.—Metallic lilac.

WALLFLOWERS.—Carters Large-flowered,—For real usefulness we recommend our selections below, of uniform height and habit, broad petabled, and decisive colours. They flower early, last well, and are off the ground in convenient time for summer bedding. The seeds may be sown from April to August in a partially shaded but airy place. If sown on poor firm soil plants of stubby growth and hardy nature will be produced, whilst those sown later in rich ground are often killed in winter. All may be transplanted to blooming quarters from August to November, according to circumstances. circumstances.

Our new varieties, Carters Winter Blooming Deep Red and Out hew carrettes, Artikus winter brooming the the and Golden Yellow, bloom two months earlier than the standard kinds when sowen at the same time. They are true harbingers of spring, and we picked quite a nice bunch of these varieties a few days before Christmas. Vllen Willmott is another variety we highly recommend, and is equally valuable for outdoor or greenhouse cultivation. Our strain is large flowered and well fixed.

## NALLFLOWER.

DWARF SWEET-SCENTED LARGE-FLOWERED. For beds and borders. IIt. 9 in. to 1 ft. Plants to stand 1 ft. Excellent in a bed to themselves or as a front to the taller varieties.

5858 Carters Dwarf Golden. - A very select stock of good habit

and bright colour. 5859 Carters Dwarf Blood-Red.—Large flowered. An excel-

lent deep-coloured companion to the above.

5865 NEW. Carters Dwarf Orange.—The flowers open rich orange and shade off to apricot yellow. Very effective.
5869 Carters Dwarf Purple.—Large flowered. This variety should be more grown; it forms a pleasing combination with pale yellow Tulips.
5861 Golden Tom Thumb.—Superior bedding. A splendid stock of this popular variety. Ift. 9 in.
5862 Ruby Gem.—Fine colour. A little taller than our Dwarf Ruby, and more snitable for cutting. Ht. 9 in.
5833 Vulcan.—A dwarf, neat-habited, maroon-flowered variety. Makes a splendid bedding plant. Ift. 9 in. to 1 ft.
5864 Carters White.—A large-flowered variety, with long spikes of ivory white flowers. III. I ft.
5865 Carters Mixture of Dwarf Varieties.—In this strain the various shades and colours are carefully blended. All the plants are of very neat habit and free-flowered. Carters Dwarf Orange.-The flowers 5865

plants are of very neat habit and free-flowered.

#### CARTERS TALL SWEET-SCENTED LARGE-FLOWERED.

The tall strain is very effective planted in front of shrubberies, along borders, or in the centre of beds edged with the dwarf varieties above. Itt. 1½ft., except where otherwise stated. The varieties are giant flowers and re-selected strains.

grant Howers and re-selected strains.

5871 Carters Winter Blooming Deep Red.—A brilliant Wallflower, and should be greatly appreciated for its early flowers
when blooms in the g. rden are scarce. Ift. 1½ ft.

5881 Carters Winter Blooming Golden Yellow.—Makes a
beautiful contrast when associated with our Winter Blooming
Deep Red. Ht. 1½ ft.

List of Wallflowers continued overleaf.

The above are packed in 8d. 1/- and 1/6 packets.

We shall be extremely obliged if customers will kindly indicate the catalogue number when ordering,

## WALLFLOWERS WALLFLOWERS Continued. 5873 Carters Tall Blood-Red. -A very rich-colonied strain. large flowered, and of good habit. 5874 Carters Tall Golden.—An excellent bright golden companion 5875 Carters Tall Primrose,-Deep primrose; an excellent contrast to the dark varieties. 5883 Carters Tall Purple.—Large flowered. Rich ruby; a particularly telling shade for bedding. 5884 Carters Tall Salmon-Pink. -A beautiful combination of salmon-pink and apricot. 5885 Carters Mixture of Tall Varieties. Contains all the best colours and shades found in our named varieties and many delightful seedling forms not yet fixed. 5872 Ellen Willmott.—This is a recent introduction, of which we have an extremely high opinion. The very large tlowers are of a rich shade of ruby, very distinct from existing forms of this recent that the colours are the shade of ruby. 111. 1½ ft colour. 5876 Blood or Dark. Selected stock of this old favorrite. 11t. 5877 Eastern Queen.-Sahuon, shaded deep apricot. Makes an 5878 Graham's Perfection.-P.de Gold. Very large-flowered free variety 5879 Harbinger.—The well-known early-flowering market variety. Colour mahogany brown. 5880 Old Gold.-Deep golden yellow. Compact in habit and very free flowering. 11t. 14 ft. 5882 Fire King.—A brilliant fiery red. The colour is so intense that beds of this variety in the synshine have almost the appearance of being on fire. 5886 Primrosc.—Delicate colour. 5887 Purple or Violet.—A good stock of the original variety. 5888 Yellow.—For borders. A free-flowering strain of the old ellow 5889 Carters May Day.—All colours. Ht. 1 ft. to 2 ft. DOUBLE WALLFLOWER. 5895 Carters Tall .- Large, variously coloured spikes. 11t. 11 ft. to 5896 Carters Dwarf.-Large branching growth, all colours. Ht. 5897 Double Mixed.-Magnificent spikes of blossom. 11t. 11o2ft. Doubles should be blanted closer together than Singles. WHITLAVIA.—Hardy annual. Sow in open border in spring. 5903 Grandiflora.—Rich deep purple. Ht. I ft. WIGANDIA. -Ornamental foliage. 5906 Caraceasana.—Grand foliage. 110 5907 Imperialis.—Sub-tropical. 110.6 ft. WINTER CHERRY.-Petermini.-See also Physalis. 5910 Red Fruited.—For winter banquels. XERANTHEMUM.—Sec Riverlasting Flowers. ZEA MAYS (JAPANESE MAIZE).—Annual. Sow in slight heat in May and plant out in June. 5919 Variegata.—Beantifully striped. 5920 Perfection.—Foliage striped rose, crimson, cream, and yellow. Very compact and ornamental. One of the most effective plants for sub-tropical and other bedding. 1Rt, 3 ft. **ZINNIA.**—When well grown, the Zinnia is one of the showiest of the half-hardy Annuals, its treatment being similar to that of the Aster. DOUBLE. 5923 Carters Mammoth Double Mixed.-A giant-llowered strain, containing only the most pleasing colours. II. ½ ft. 1/c pkt., 1/-, 1/6, and 2.6 5924 Carters Large-flowered Dwarf Double. Choicest mixed. III. I ft.

5925 Carters Fireball. The plant is of neat habit, throwing up a large number of small, fiery scarlet, perfectly double ball-like flowers. Ht. 1½ ft.

5926 Carters Lilliput Varieties.—Bushy plants; profuse bloomers Mixed bloomers. Mixed. 5983 Double. - White, 5985 Double Mixed: - Best colours. - III. 15 ft 5984 Haageana, Double. -59:7 Double. Carmine. 5978 Double. -Crimson. 5929 Double. Orange. 5931 Double. Rose Dwarf. Ilt. 1 tt. 5932 Double. ~ Searlet. ZINNIA ELEGANS, SINGLE. Annual. ## CARTERS BULBS for SPRING PLANTING.

FOR SUMMER AND AUTUMN FLOWERING.

Carters Empress Poppy Anemone.

#### ANEMONES.

Carters Empress Poppy (See Photograph).—SULTMELE FOR VASE DECRATION, LASTING WHEN CUT. An easily grown type that should be found in every garden. They come into bloom the end of May and throughout June. Colom's various and brilliant. The flowers are of immense size (often measuring 4 in. in diameter) and great substance, invaluable for cutting and decorative purposes generally. Per doz., 2/6; per 100, 17/6

Carters St. Brigid.—The True Irish Strain. First brought into prominence by our House. The llowers are semi-double, most varied and beautifully coloured, and if cut before fully out are most useful for decorative purposes

Per doz., 2/6; per 100, 17/6

Carters King of the Scarlets.—Intense brilliant scarlet, very double. A litting companion to our well-known single Embress Pathy Anemone. The flowers are of great size, intensely double and brilliant. Per doz., 3/\*; per 100, 21-

Fulgens. - The true early single form, fine English-grown roots of the well-known Scarlet Pan Anemone. A very brilliant scarlet-crimson flower, 6 to 9 in, above the rich green palmate foliage; splendid for climps in border, in a bed by itself, wase decoration, and also for naturalisation. Per doz., 3,-; per 100, 21/-

#### SINGLE.

**The Bride.**—Pure white variety, very showy for either garden or decorations.

Per doz., 2.6; per 100, 17/6

Searlet, - Mixed; brilliant colouring. Per dox., 2.6; per 100, 17/6 Blue. Mixed; pretty shades. Per doz., 2/6; per 100, 17/6

Mixed. Fine shows colours in all shades. Per doz., 2/3; per 100, 16/-

#### DOUBLE.

Selected for size of flower and the brightest colours grown. The following each per doz., 2:6; per 100, 17/6;

Searlet, Mixed. Blue, Mixed.

White, Mixed. Mixed. All colours,

## CARTERS BULBS FOR SPRING PLANTING—Continued.

## BEGONIAS.

## CARTERS CROWN JEWELS BULBS.

The blooms are of giant size, combined with perfect form.

Carters Crown Jewels Begonias represent the highest state of excellence, both in single and double forms. We are constantly raising new seedlings, which are possessed of greater vigour than those varieties which are continuously propagated by enttings.

... Each, 2/6 and 3/6 Per doz., 12/-, 18/-, and 24/-... Each, 2/6, 3/6, and 5/-Per doz., 12/-, 18/-, and 24/-Single.—Choice named Single.—Choice seedlings ... ...

Double.—Choice seedlings ... ...

SINGLE (in separa e colours).

Bright Scarlet. Bronze Yellow. Per doz., 7/-; per 100, 50/Mixed.—All colours. Per doz., 6/6; per 100, 45/-Yellow.

DOUBLE (in separate colours).

Rose. Bronze Ycllow. Pink. Crimson. White.

Per doz., 8/-; per 100, 60/- **Mixed.**—All colours. Per doz., 7/6; per 100, 55/-

## GLOXINIA BULBS.

Our Invincible Prize strain stands unequalled, and has gained the Highest Awards at Exhibitions.

Each, 2/6, 3/6, and 5/-Strong Bulbs, choice named varieties. Unnamed Scedlings, very good, many equal to named varieties Per doz., 12/-, 18/-, and 24/-

## GLADIOLUS. AUTUMN-FLOWERING.

The best varieties for beds and borders.

Selected for their splendid colouring and robust constitutions.

Albion.- Pure white, cream blotch ... Per doz., 5/-; per 100, 35/-

Annic Wigman.-Pale sulphur yellow, small blotch. Per doz., 3/6; per 100, 25/-

Baron Hulot.—Deep violet blue, small white stripes. First Class Certificate, N.G.S. Per doz., 4/-; per 100, 30/-Certificate, N.G.S. Electra.-Glowing salmon, flaked cream, crimson markings.

Per doz., 5/-; per 100, 35/-First Class Certificate, N.G.S. Empress of India.—Deep maroon with darker markings. Award

Per doz., 3/3; per 100, 22/6 of Merit, N.G.S.

Faust.-Deep crimson, faint white markings. Per doz., 3/6; per 100, 25/-

Golden West. Orange scarlet, large creamy-yellow blotches, Per doz., 4/-; per 100, 30/crimson spotted.

Halley.—Magnificent large-flowering, light salmon, throat and portion of three lower segments flushed sulphur, with magenta markings.
Per doz., 3/-; per 100, 21/-

- Flame scarlet, handsome King of the Reds (Liebesfeur). variety. First Class Certificate, N.G.S. Per doz., 6/-; per 100, 45/-

L'Immaculée.-Very fine pure white variety, well-shaped com-Per doz., 5/-; per 100, 35/pact spike.

Mrs. Francis King.—Salmon scarlet shaded, lower petals crimson blotch d. Per doz., 5/-; per 100, 35/-

Niagara.—Cream, delicately suffused pink.

Per doz., 3/6; per 100, 25/-Panama. Rose pink; handsome flower. Award of Merit. Per doz., 4/-; per 100, 30/-

Peace.-Fine large white variety, with pink flush, lower part of Per doz., 3/6; per 100, 25/flower feathered magenta manve,

Pink Perfection. - Lovely pale pink shade. First Class Certificate, Per doz., 4/-; per 100, 30/-

Prince of Walcs. -Pale salmon, strikingly handsome variety. Per doz., 3/9; per 100, 27/6

Scarlet Brenchleyensis.—Handsone spikes of vermilion searlet. The stocks of this variety are deteriorating, and we strongly recommend Vesicins in place. Large Bulbs. Per doz., 3/6; per 100, 25/-

**Vesuvius.**—A grand crimson searlet variety, which we recommend our customers to grow instead of *Brenchleyensis*.

Per doz., 5/-; per 100, 35/-

Victory.—Sulphur yellow, deeper shade on lower petal. Per doz., 4/-; per 100, 30/-

Wilbrink.-Pine bright pink, crenn blotch. Strongly recom-Per doz., 4/-; per 100, 30/mended.

Willy Wigman.-Delicate cream with dark red blotch. Per doz., 3/9; per 100, 27/6

Ycllow Hammer.—Clear yellow, fine shaped spike.
Per doz., 4/-; per 100, 30/-

#### CARTERS IMPROVED BUTTERFLY GLADIOLUS (Photograph above).

By a careful hybridisation and selection we have succeeded in producing a most unique strain of hybrid Gladioli containing an almost endless variety of coloms. The new blue shades are in pleasing proportion, as are the more delicate cream and rose ground varieties. Carters Butterfly Strain, although large flowered, is quite free from any suggestion of coarseness.

Strong Flowering Bulbs ... Per doz., 3/9; per 100, 27/6

#### HYBRID MIXTURES.

Gandavensis Hybrids. - Choice mixed, embracing all shades of Per doz., 3/-; per 100, 21/-... Per doz., 3/6; per 100, 25/-Childsi. -- Finest mixed hybrids . . . ... Per doz., 3/-; per 100, 21/-

Nanceanus ... ... ...

#### PRIMULINUS.

New Hybrids, mixed, in grand variety of colours; these are of recent introduction, and very light and graceful in habit. Per doz., 3/6; per 109, 25/-

## HYACINTHUS CANDICANS.

Galtonia Candicans. The white summer-flowering Hyacinth, Per doz., 2/3; per 100, 15/specially suitable for borders,

## CARTERS BULBS FOR SPRING PLANTING—Continued.

LILIES.

Lilium Auratum.

Lilium Speciosum rubrum.

#### CARTERS LILIUM AURATUM.

The beautiful Golden-ruyed Lily of Japan.

This grand Lily has now become so popular that it should be largely grown in every garden. In soils suitable to its taste it will thrive in increased vigour each season in borders, and should be extensively cultivated in such spots. It can be seen in its full beauty in association with ornamental shrubs and bold-lenved herbacconsulants. It flowers rather that in amount of the property of the pro herbaceous plants. It flowers rather later in summer than some of

All bulbs are carefully sorted by hand, and are examined personally before despatch.

Monster Bulbs (limited	lquan	tity)	 		Each, 5/-
Fine Gigantic Bulbs			 Each,	3/6;	per doz., 40/~
Large Bulbs			 Rach.	2/9:	per doz . 30/~

#### LILIUM SPECIOSUM OR LANCIFOLIUM.

Next to the *Liliam Auralian* we must place the *Speciosum* or *Lancifolium*, so exquisite in form and so easily cultivated. Specimens frequently may be seen flowering abundantly from pots in the squares and on balconies in the very centre of London and other large cities late in summer, and coming at a time of year when flowers are somewhat scarce makes it doubly welcome. It thrives well out in the border, and, with its pure claste white, orange, crimson-spotted, and rose spotted flowers, is very attractive.

Speciosum album.-Splendid pure white. Ht. 3 ft.

Each, 1/6; per doz., 15/-

Speciosum rubrum.—White ground, heavily spotted crimson. 111, 3 ft. Rach, 1/6; per doz., 15/-

Speciosum ft. Krætzeri. Finest pure white variety. Large bulbs. Each, 3/6; per doz., 37/6 IIt. 3 to 4 ft. Speciosum Melpomene.—White ground, heavily spotted ruby crimson. Very beautiful, 1tt. 3 to 4 ft.
Large bulbs. Each, 3/-; per doz., 32/6

Speciosum magnificum. - Spotted dark crimson; a very fine variety, rather richer in colour than Melpomene and slightly earlier. Ht. 4 ft. Large bulbs. Each, 3/-; per doz., 32/6

#### LILIUMS IN VARIETY.

Croccum (Orange Lily),-Brilliant orange, spotted dark crimson, flowering in June. 11t. 3 to 4 ft. Each, 1/-; per doz., 10/6

Excelsum or Testaceum.—Nankeen. Ht. 3 to 4 ft.

Each, 3/-; per doz., 32/6

Longiflorum giganteum.-The gigantic Japanese; fine white, 

Martagon.--Purple Turk's Cap. 11t. 4 ft. Each, -/9; per doz., 7/6

## LILIUMS IN VARIETY -- Continued.

Martagon.—Yellow Turk's Cap. 11t. 4 ft. Each., -/9; per doz., 7/8
Tigrinum splendens.—Bright orange scarlet, brown spotted.
11t. 4 to 5 ft. Good bulbs. Each., -/9; per doz., 7/6
Umbcliatum.—Varied shades of orange and orange scarlet.
11t. 2 to 3 ft. Each., -/8; per doz., 6/-; per 100, 45/-

#### MONTBRETIA.

The Montbretias are very pretty Inberous-rooted flowering plants, bearing shows spikes of blossom during August. Very useful for cutting. They are ensity grown in a sunny open border or indoors in pots. When established in borders a wealth of spikes may be expected,

Crocosmiæflora. -Scarlet and orange shaded.

Per doz., 1/3; per 100, 7/6 Per doz., 1/9; per 100, 12/6 Etoile de Fcu. -Vermilion, golden centre

Per doz., 1/9; per 100, 12/6 George Davison.-Golden yellow; fine handsome flower.

Lady Hamilton.—Distinct yellow, effective variety, with erect habit.

Pyramidalis.—Apricot and salmon.

Pyramidalis.—Apricot and salmon.

Pyramidalis.—Ormor with vallage and properties.

Pyramidalis.—Ormor with vallage and properties.

Per doz., 1/3; per 100, 22/- Per doz., 1/3; per 100, 7/6

Speciosa.—Orange with yellow centre. Per Mixed.—Containing a fine variety of colours. Per doz., 1/6; per 100, 10/6

Fire King. -Large flowers, bright scarlet red; a beautiful variety.

Per doz., 1/3; per 100, 7/6

Per doz., 3/3; per 100, 22/-

#### RANUNCULUS.

This beautiful early summer border plant belongs to the Buttercup family. The types now popular in the class under consideration would, from their gay appearance both in form and colon, be hardly recognised as a relation to this modest denizen of the field. The cultural directions are practically the same as advised for Anemones.

Carters Cockade (Photograph above).-In a spendid variety of colours, immense double flowers. In a spendid variety of colours, immense double flowers. Is fitting in all respects to be cultivated by the side of the Empress Pobby Anemone, and equally superior with that variety to any other class of Rammenlus. The flowers are double, of immense size, and combine every possible shade of colour peculiar to this interesting and ensity-entitivated flower. It is impossible to over-estimate their value to all lovers of hardy border flowers.

Per doz., 2/6; per 100, 17/6

Extra Fine Double, Mixed (Persian).—Splendid variety of colour.

Per doz., 1/3; per 100, 8/6 Finest Mixed Turban.-Very superior. Per doz., 1/6; per 100, 10/6

Owing to Railway Restrictions on the conveyance of Liquid Weed

Killers we do not now slock them.
We recommend with every confidence the "Perfect" Powder Weed Killer. It is simple in application and perfect in its results.

Photograph taken from an Aeroplane, showing section of our Grounds and Main Buildings at Raynes Park. The Main Buildings are 742 feet long, the letters seen in our name, &c., above, are each 5 feet hich, the clock dial is 5 feet in diameter, and our whole door space now covers about 5 acres.

## CASH PRIZES FOR 1921.

JAMES CARTER & Co.. Seedsmen to His Majesty the King, Raynes Park, London, S.W.19, undertake, upon being furnished with certified evidence, to duplicate First, Second, or Third Money Awards made to the exhibitors who show the products of Seeds and Potatoes from purchases made by the exhibitor from this Catalogue above 10½ in value, and obtained from Messrs, Carters establishment, or through local agents, during the twelve mouths ending June 30th, 1921. The said duplication will be limited to the value of the purchase.

The products to be of the exhibitor's own growth, and in case of any dispute as to purchase, &c., an invoice of the seeds purchased must be produced if required, and the specimens are to be staged in accordance with the regulations of the Society. This offer does not apply to Special Prizes offered by Firms and other Patrons.

Customers intending to claim the advantages of the Special Prizes must notify the fact to us a week before the day of the Show, stating the names of the Vegetables, Potatoes, or Flowers they intend to stage, when we will send neally-named cards, which must be exposed to view on the exhibits during the whole time of the show, or if not we may withhold the prizes. We shall also send the applicant a sheet on which

the exhibits during the whole time of the show, or if not we may withhold the brizes. We shall also send the applicant a sheet on which to record his prizes to save the Secretary nunccessary work.

These Prizes are open to Messrs, Carters Customers, but not available to Market Growers, Seedsmen, Nurserymen, or Horticultural Traders.

IMPORTANT.—If this announcement does not appear in the Prize Schedule of the Horticultural Show in the intending Competitor's district, the offer must be considered cancelled. We are always pleased to hear from our Customers of their intention to compete, and in the event of their winning open prizes, we may decide to give them an honorarium for the trouble,

Special Prizes offered to Allotment Holders to encourage food production.

### TERMS OF BUSINESS.

FREE CARRIAGE OF GOODS.

Except in cases where the cost of Carriage or Postage on the purcel, through being unusually bulky in proportion to value.

Except in cases where the cost of Carriage or Postage on the parcel, through being musually bulky in proportion to value, absorbs the profit on the transaction, when we reserve to ourselves the right to send unpaid. We despatch Potatoes, Sceds, Bulbs, and Plants, to any Railway Station in England and Wales, Ireland, and Scotland, where practicable, also by Parcel Post to Purchaser's door where possible. Glass and other Goods liable to breakage are sent out securely packed, but beyond that we cannot be responsible for damage in transit. Notice of damage should be at once made to, and compensation claimed from, the Carriers. In view of the present musetfled state of Railway Goods transit, we reserve to ourselves the right to discontinue our "Carriage Free" rule without notice.

THE TESTING OF SEEDS ORDER, 1918.

Tests made since the commencement of the last harvest, Angust, 1920, prove that the germination of the Vegetable Seeds offered in this Catalogue is in every case equal to, if not higher, than the Government shandard, for those kinds to which the Order refers, and the analytical purity not less than 97 per cent. We shall advise our customers of any exceptional cases that may occur.

CONDITIONS OF GUARANTEE OF All our Seeds have been carefully grown, selected, cleaned and tested, but we cannot give any warranty, expressed or implied, as to description, purity, productiveness or any other matter connected with the crop beyond the analysis required in accordance with the Testing of Seeds Order, nor can we be in any way responsible for the crop. The goods are sold on the express condition that when they have been accepted no claim for damages or otherwise can be made against us for any breach of obligation.

ORDERS.

Please write your name and address in full, also nearest Ruilway Station or Shipping Port to which the goods are to be forwarded. All letters are opened under the direction of one of our principals, and the orders are given out for execution

PLANTS.

As regards shrubs, trees, and other goods that are liable to die or get diseased or blighted by improper management or unfavourable weather, soil, or situation, whilst we will take every care to see that all plants, shrubs, trees &e, are healthy, and free from disease, our liability ceases with their acceptance. Plant orders are sometimes delayed by severe or bot weather, and they at all times take longer to execute than Bulb or Seed orders, in consequence of the time required in lifting and packing, especially in autumn.

NEW CUSTOMERS. We beg respectfully to state that on opening an account it is necessary for us to receive Cash with the order, or a reference to a Banker or someone known to our House.

CASH DISCOUNT. We allow 5 per cent. (1/- in the £) discount off the total amount of invoice, of 40/- value and over, on all goods paid for with order, or within fourteen days from the date of invoice (but at no later period), unless other terms are specified or arranged.

TERM OF CREDIT. Our fullest Term of Credit is Three Months from date of Invoice, and without Discount, and our books are made up quarterly—i.e., March 1st, June 1st, September 1st, and December 1st. Five per cent, interest will be poors are made up quoterry—r.e., ander 18d June 18d Scharged upon overdine accounts.

All Prices quoted are subject to alteration without notice.

REMITTANCES.
